SPLK-1002 pdf braindumps, Splunk SPLK-1002 real braindumps, SPLK-1002 valid dumps

Our SPLK-1002 vce braindumps will boost your confidence for taking the actual test because the pass rate of our preparation materials almost reach to 98%. You can instantly download the free trial of SPLK-1002 Exam PDF and check its credibility before you decide to buy. Our SPLK-1002 free dumps are applied to all level of candidates and ensure you get high passing score in their first try.

Splunk Core Certified Power User Exam Sample Questions (Q67-Q72):

NEW QUESTION # 67
Which of the following is included with the Common Information Model (CIM) add-on?

- A. Search macros
- B. tsidx files
- C. Workflow actions
- D. Event category tags

Answer: D

Explanation:

The correct answer is B. Event category tags. This is because the CIM add-on contains a collection of preconfigured data models that you can apply to your data at search time. Each data model in the CIM consists of a set of field names and tags that define the least common denominator of a domain of interest. Event category tags are used to classify events into high-level categories, such as authentication, network traffic, or web activity. You can use these tags to filter and analyze events based on their category.You can learn more about event category tags from the Splunk documentation12. The other options are incorrect because they are not included with the CIM add-on. Search macros are reusable pieces of search syntax that you can invoke from other searches. They are not specific to the CIM add-on, although some Splunk apps may provide their own search macros. Workflow actions are custom links or scripts that you can run on specific fields or events. They are also not specific to the CIM add-on, although some Splunk apps may provide their own workflow actions. tsidx files are index files that store the terms and pointers to the raw data in Splunk buckets. They are part of the Splunk indexing process and have nothing to do with the CIM add-on.

NEW QUESTION # 68

When using the eval command, which of these characters can be used to concatenate a string and a number into a single value?

- A. + (plus)
- B. . (period)
- C. - (tilde)
- D. & (ampersand)

Answer: B

Explanation:
In Splunk, the eval command is often used for manipulating field values, including concatenation. The correct way to concatenate a string and a number is to use the . (period) operator. This operator joins different types of data into a single string value.
For example:
eval concatenated_value = "value_" . 123
Result: concatenated_value will be value_123.
Other operators:
& is not a valid operator in eval for concatenation.
+ is used for arithmetic addition, not concatenation.
- is also not a concatenation operator.

NEW QUESTION # 69

Given the macro definition below, what should be entered into the Name and Arguments fileds to correctly configured the macro?

- A. The macro name is sessiontracker and the arguments are action, JESSIONID.
- B. The macro name is sessiontracker(2) and the arguments are action, JESSIONID.
- C. The macro name is sessiontracker(2) and the Arguments are $action$, $JESSIONID$.
- D. The macro name is sessiontracker and the arguments are $action$, $JESSIONID$.

Answer: B

Explanation:
Reference: https://docs.splunk.com/Documentation/Splunk/8.0.3/Knowledge/Definesearchmacros The macro definition below shows a macro that tracks user sessions based on two arguments: action and JSESSIONID.
sessiontracker(2)
The macro definition does the following:
It specifies the name of the macro as sessiontracker. This is the name that will be used to execute the macro in a search string.
It specifies the number of arguments for the macro as 2. This indicates that the macro takes two arguments when it is executed.
It specifies the code for the macro as index=main sourcetype=access_combined_wcookie action=$action$ JSESSIONID=$JSESSIONID$ | stats count by JSESSIONID. This is the search string that will be run when the macro is executed. The search string can contain any part of a search, such as search terms, commands, arguments, etc. The search string can also include variables for the arguments using dollar signs around them.
In this case, action and JSESSIONID are variables for the arguments that will be replaced by their values when the macro is executed.
Therefore, to correctly configure the macro, you should enter sessiontracker as the name and action, JSESSIONID as the arguments. Alternatively, you can use sessiontracker(2) as the name and leave the arguments blank.

NEW QUESTION # 70
Which of the following statements about event types is true? (Choose all that apply.)

- A. Event types can be a useful method for capturing and sharing knowledge.
- B. Event types must include a time range.
- C. Event types can be tagged.
- D. Event types categorize events based on a search.

Answer: C,D

Explanation:
Explanation/Reference: https://www.edureka.co/blog/splunk-events-event-types-and-tags/

NEW QUESTION # 71
Which of the following search control will not re-rerun the search? (Select all that apply.)

- A. selecting a bar on the timeline
- B. selecting a range of bars on the timelines
- C. zoom out
- D. deselect

Answer: A,B,D

Explanation:
The timeline is a graphical representation of your search results that shows the distribution of events over time2. You can use the timeline to zoom in or out of a specific time range or to select one or more bars on the timeline to filter your results by that time range2. However, these actions will not re-run the search, but rather refine the existing results based on the selected time range2. Therefore, options B, C and D are correct, while option A is incorrect because zooming out will re-run the search with a broader time range.

NEW QUESTION # 72
......

The pdf exam dumps is very convenient, you can download and read Premium SPLK-1002 Exam - Splunk Core Certified Power User Exam on your phone, ipad and other electronic products, Splunk SPLK-1002 New Dumps You can find the demos on our product page easily, Our SPLK-1002 exam torrent are updating according to the precise of the real exam, If you are not online, you can still practice for the Splunk SPLK-1002 exam questions thanks to this feature of Prep4cram's SPLK-1002 exam simulation software.

The team needs to be small enough so that you can actually Premium SPLK-1002 Exam make some decisions and get work done —maybe four or five people, Several studies enlighten the real and actionable link between body and mind, particularly as it relates SPLK-1002 to the modern day executive or knowledge worker, and range from functional needs to performance enhancement.

Splunk SPLK-1002 premium VCE file, real SPLK-1002 questions and answers

The pdf exam dumps is very convenient, you can download and SPLK-1002 Reliable Exam Online read Splunk Core Certified Power User Exam on your phone, ipad and other electronic products, You can find the demos on our product page easily.

Our SPLK-1002 exam torrent are updating according to the precise of the real exam, If you are not online, you can still practice for the Splunk SPLK-1002 exam questions thanks to this feature of Prep4cram's SPLK-1002 exam simulation software.

SPLK-1002 updated questions give you enough confidence to sit for the Splunk exam.
