IT測試和認證在當今這個競爭激烈的世界變得比以往任何時候都更重要，這些都意味著一個與眾不同的世界的未來，Microsoft的MS-102考試將是你職業生涯中的里程碑，並可能開掘到新的機遇，但你如何能通過Microsoft的MS-102考試？別擔心，幫助就在眼前，有了Testpdf就不用害怕，Testpdf Microsoft的MS-102考試的試題及答案是考試準備的先鋒。

最新的 Microsoft 365 Certified MS-102 免費考試真題 (Q289-Q294):

問題 #289

You have a Microsoft 365 E5 tenant that contains the users shown in the following table.

You perform the following actions:

Provision the private store in Microsoft Store for Business.

Add an app named App1 to the private store.

Set Private store availability for App1 to Specific groups, and then select Group3.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

答案:

解題說明:

Explanation:

問題 #290

You have a Microsoft 365 E5 subscription that contains a SharePoint site named Site1. Site1 contains the files shown in the following table.

You have the users shown in the following table.

You create a data loss prevention (DLP) policy with an advanced DLP rule and apply the policy to Site1. The DLP rule is configured as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

答案:

解題說明:

Explanation:

User1 can open File2: No

User2 can open File1: Yes

Admin1 can open File2: Yes

User1 can open File2: No

The DLP policy specifies that if a file contains 3 or more IP addresses, access to that content should be restricted. File2 contains 5 IP addresses, which exceeds the threshold set by the DLP policy. Therefore, User1, who is a site owner, will not be able to access File2 because it matches the conditions set in the DLP rule to block access.

User2 can open File1: Yes

File1 contains only 2 IP addresses, which is below the threshold of 3 set by the DLP policy. Since the DLP policy does not apply to files with fewer than 3 IP addresses, User2, who is a site member, can access File1 without any restrictions.

Admin1 can open File2: Yes

Admin1 is part of the SharePoint admins group, which typically has elevated privileges. Despite the DLP rule, SharePoint admins are generally not restricted by the same DLP rules that apply to regular users. Therefore, Admin1 can access File2.

問題 #291

You have a Microsoft 365 subscription.

You have an Azure AD tenant that contains the users shown in the following table.

You configure Tenant properties as shown in the following exhibit.

Which users will be contacted by Microsoft if the tenant experiences a data breach?

- A. User1 only
- B. User1 and User2 only
- C. User2 and User3 only
- D. User2 only
- E. User3 only

答案: D

解題說明:

Explanation

Microsoft 365 is committed to notifying customers within 72 hours of breach declaration. The customer's tenant administrator will be notified.

問題 #292

You have a Microsoft 365 E5 subscription that contains the users shown in the following table.

Each user has an Android device with the Microsoft Authenticator app installed and has set up phone sign-in.

The subscription has the following Conditional Access policy:

* Name: Policy1

* Assignments

o Users and groups: Group1, Group2

o Cloud apps or actions: All cloud apps

* Access controls

o Grant Require multi-factor authentication

* Enable policy: On

From Microsoft Authenticator settings for the subscription, the Enable and Target settings are configured as shown in the exhibit.

(Click the Exhibit tab.)

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

答案:

解題說明:

Explanation

問題 #293

You have a Microsoft 365 subscription that contains the users shown in the following table.

You have the named locations shown in the following table.

You create a conditional access policy that has the following configurations:

* Users or workload identities:

o Include: Group1

o Exclude: Group2

* Cloud apps or actions: Include all cloud apps

* Conditions:

o Include: Any location

o Exclude: Montreal

* Access control: Grant access, Require multi-factor authentication

User1 is on the multi-factor authentication (MFA) blocked users list.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.
