

# Updated NCP-EUC Latest Test Answers for Real Exam

P.S. Free 2026 Nutanix NCP-EUC dumps are available on Google Drive shared by Real4test: <https://drive.google.com/open?id=1pEnG5UztmPKFvh35GmWDm47cCeQtg5T6>

I wonder if you noticed that there are three versions of our NCP-EUC test questions—PDF, software on pc, and app online, which can bring you the greatest convenience. Imagine that if you feel tired or simply do not like to use electronic products to learn, the PDF version of NCP-EUC test torrent is best for you. Just like reading, you can print it, annotate it, make your own notes, and read it at any time. NCP-EUC latest torrents simulate the real exam environment and does not limit the number of computer installations, which can help you better understand the details of the exam. The online version of NCP-EUC Test Questions also support multiple devices and can be used offline permanently after being opened for the first time using the network. On buses or subways, you can use fractional time to test your learning outcomes with NCP-EUC test torrent, which will greatly increase your pro forma efficiency.

The NCP-EUC certification exam is an ideal choice for IT professionals who want to validate their skills and knowledge in end-user computing. Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam certification exam is designed to help IT professionals demonstrate their expertise in Nutanix's end-user computing technology solutions. NCP-EUC exam covers a wide range of topics, including Nutanix VDI, application delivery, and management, as well as the deployment and troubleshooting of these technologies.

The NCP-EUC Exam covers a range of topics related to Nutanix EUC solutions, including desktop virtualization, application virtualization, user experience, and security. NCP-EUC exam is divided into two parts: the first part is a multiple-choice exam, and the second part is a hands-on lab where candidates are required to perform tasks related to Nutanix EUC solutions. NCP-EUC exam is designed to test the candidate's ability to design, deploy, and manage Nutanix EUC solutions.

## Exam NCP-EUC PDF & Latest NCP-EUC Test Practice

In order to help customers solve problems, our company always insist on putting them first and providing valued service. We deeply believe that our NCP-EUC question torrent will help you pass the exam and get your certification successfully in a short time. Maybe you cannot wait to understand our NCP-EUC Guide questions; we can promise that our products have a higher quality when compared with other study materials. At the moment you can free download the demo of our NCP-EUC guide torrents, and I can make a bet that you will be fond of our NCP-EUC exam questions if you understand it.

## Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q136-Q141):

### NEW QUESTION # 136

The operations team have been tasked with increasing overall datacenter efficiency with a target minimum of 80% CPU, memory, and storage capacity utilization. They are requesting usage data from all application owners be sent on a monthly basis to be ingested

into their capacity management software.

An administrator has an implementation of four Nutanix clusters under the management of a single Prism Central Instance.

How should the administrator best provide the data needed to the operations team to ensure adherence to the datacenter utilization directive?

- A. Export the CPU Memory and Storage Usage metrics under Virtual Infrastructure/VMs in Prism Central and FTP the file to the operations team's FTP server.
- B. Create a Metric Chart in Prism Central with CPU, Memory, and Storage usage across all clusters and export the data to be sent to the operations team,
- C. **Schedule a monthly email report with CPU, Memory, and Storage Usage data across all clusters under the Reporting facility in Prism Central.**
- D. Review the VM Efficiencies widget in Prism Central and export the data to a comma delimited file to be sent to the operations team.

**Answer: C**

Explanation:

This option allows you to create a custom report with the required metrics for all VMs across all clusters and send it automatically to the operations team via email4. This way, you don't have to manually export or FTP the data every month.

#### NEW QUESTION # 137

An administrator plans to deploy a VMWare Horizon Solution on AHV. The administrator used the cluster command to verify if Shadow Clones are enabled in the AHV environment. This command shows the following output:

□ Which action should the administrator take to enable Shadow Clones?

- A. Execute the `acluster edit-prams enable-shadow-clones=true` command.
- B. Connect to Prism Central
- C. Connect to the AHV Host by SSH.
- D. **Execute the `cluster enable -cluster_cluster_uuid 0xxx - show_clones=true` command.**

**Answer: D**

Explanation:

an action that the administrator should take to enable Shadow Clones for a VMWare Horizon Solution on AHV is Connect to Prism Central and execute the `cluster enable -cluster_cluster_uuid 0xxx - show_clones=true` command. Shadow Clones are a feature that helps decrease read latency by creating local copies of frequently accessed data blocks on each host2. To enable Shadow Clones, the administrator needs to connect to Prism Central and run a cluster command with the appropriate parameters1.

#### NEW QUESTION # 138

Refer to the exhibit.

□ An administrator is deploying an Instant Clone desktop pool on an 8-node Nutanix cluster. The system displays a warning message, as shown in the exhibit.

What should the administrator do to resolve the issue?

- A. Safely ignore this warning
- B. Enable View Storage Accelerator
- C. **Disable Shadow Clones**
- D. use both VSA and Shadow Clones

**Answer: C**

Explanation:

Shadow Clones are a unique feature of the AOS storage that enables distributed caching of virtual disks (vDisks) used by virtual machines1. Shadow Clones provide effective caching optimization in distributed multireader scenarios, such as large VDI and cloud deployments2.

The warning message you see indicates that Shadow Clones are disabled on your Nutanix cluster. This may affect the performance of your Instant Clone desktop pool, as it will not benefit from the caching optimization provided by Shadow Clones.

### NEW QUESTION # 139

An administrator manages a Nutanix cluster that hosts Omnissa Horizon virtual desktops.

The administrator is troubleshooting a desktop provisioning problem where Omnissa Horizon virtual desktops are not joining the domain automatically on creation. The administrator is able to log onto the virtual desktop console and join the domain using their own account.

What could the problem be?

- A. The domain join account needs specific delegated permissions the target OU.
- B. A domain join PowerShell start up script needs to be defined on the virtual desktops.
- C. The domain join account needs to be a member of the Schema Admins group.
- D. The DNS client configuration is incorrect on the virtual desktop.

#### Answer: A

Explanation:

When provisioning automated pools (Instant Clones or Linked Clones) in Omnissa Horizon (formerly VMware Horizon), the domain join operation is performed by a specified service account. If this process fails automatically but works manually with an administrator's account, it indicates a permissions issue for that service account, not a general network or DNS failure.

The service account does not require high-level privileges like Domain Admin or Schema Admin. Instead, it requires specific delegated permissions on the Target Organizational Unit (OU) where the new computer objects are created. These permissions include "Create Computer Objects," "Delete Computer Objects,"

"Write All Properties," and "Reset Password." If these delegations are missing, the automated domain join will fail.

### NEW QUESTION # 140

An administrator has been asked to enable multi-monitor support for a graphic designer that needs to be able to use four monitors. After on boarding the designer on to the Frame desktop, the end user does not see the ability to use all four monitors while using the Firefox web browser.

What should the administrator do to enable the ability to use all four monitors?

- A. Switch to Edge
- B. Switch to Safari
- C. Deploy Frame App
- D. Switch to Chrome

#### Answer: C

Explanation:

According to Nutanix documentation, to use more than two monitors with Frame, you need to deploy the Frame App. The Frame App provides multi-monitor support, whereas using Frame through web browsers is currently limited to two monitors.

Frame App is a native application that provides a better user experience for accessing Frame desktops and applications than a web browser1. Frame App supports the Frame multi-monitor feature automatically. If an end user has more than one monitor attached to their device, Frame App prompts the user if they want to use all of their monitors1. Frame Administrators do not have to enable explicitly multi-monitor support for Frame App users1.

### NEW QUESTION # 141

.....

All the Real4test Nutanix NCP-EUC practice questions are real and based on actual Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam topics. The web-based Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) practice test is compatible with all operating systems like Mac, IOS, Android, and Windows. Because of its browser-based Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) practice exam, it requires no installation to proceed further. Similarly, Chrome, IE, Firefox, Opera, Safari, and all the major browsers support the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) practice test.
