Oracle N16302GC10 Exam Syllabus Topics:

Topic	Details
Topic 1	• Record to Report: This section of the exam measures the skills of Financial Analysts and covers how to configure NetSuite features and preferences to meet client-specific reporting and accounting needs. It includes understanding the setup of the chart of accounts, segment usage, and best practices for period-end close. Candidates must know how journal entries, exchange rates, and tax configurations operate within NetSuite to maintain accurate financial reporting.
Topic 2	• Data Security: This section of the exam measures skills of Security Administrators and focuses on data access and permission management in NetSuite. It includes understanding the implications of user permissions, recommended practices for creating custom roles, and managing data manipulation in bulk. The emphasis is on protecting system integrity and controlling data visibility across users and departments.

Topic 3	• Order to Cash: This section of the exam measures the skills of Order Management Specialists and focuses on the complete order processing cycle in NetSuite. It covers setting up entity records, managing shipping configurations, and configuring invoicing, fulfillment, and revenue recognition processes. The section also includes payment processing and return management, ensuring candidates understand the best practices for order-to-cash operations.
Topic 4	• Analytics and Dashboard: This section of the exam measures the skills of Business Intelligence Analysts and focuses on building and customizing NetSuite dashboards and analytics tools. It includes using SQL expressions, saved searches, and reports to deliver meaningful insights. The section also addresses dashboard publishing methods, report customization, and leveraging analytics for data-driven decision-making.
Topic 5	• Platform: This section of the exam measures the skills of NetSuite Developers and covers using SuiteFlow and SuiteScript to automate business processes. It includes configuring workflows, using custom fields and forms, implementing advanced PDF layouts, and understanding SuiteBundler. The focus is on customizing and extending NetSuite functionality while following best practices for stable, maintainable configurations.
