## **SAP C\_S4PM2\_2507 New APP Simulations - Latest C\_S4PM2\_2507 Study Plan**

Our C\_S4PM2\_2507 training quiz is the top selling products in the market. You will save a lot of preparation troubles if you purchase our C\_S4PM2\_2507 study materials. Our C\_S4PM2\_2507 exam braindumps are highly similar to the real test. Almost all questions of the real exam will be predicated accurately in our C\_S4PM2\_2507 Practice Questions, which can add you passing rate of the exam. And you will find that our prices for the exam products are quite favorable.

## **SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects Sample Questions (Q60-Q65):**

### **NEW QUESTION # 60**

Which of the following are dimensions of a clean core approach? Note: There are 3 correct answers to this question.

- A. Extensions
- B. Data
- C. Integrations
- D. Technologies
- E. Procedures

**Answer: A,B,C**

### **NEW QUESTION # 61**

What is the main purpose of the Transformation Preparation Service (TPS)?

- A. To develop custom extensions for the SAP Cloud ERP private edition
- B. To align business objectives with execution strategies accelerating adoption of software entitlements acquired by the customer
- C. To provide post-implementation support and maintenance
- D. To train end-users on the new SAP system functionalities

**Answer: B**

Explanation:

The Transformation Preparation Service (TPS) is an SAP service designed to prepare customers for their digital transformation journey by aligning business goals, system landscape strategy, and cloud adoption roadmap.

C). To align business objectives with execution strategies accelerating adoption of software entitlements acquired by the customer. The service ensures that the customer's objectives and IT roadmap are aligned with SAP's recommended implementation approach and accelerates the use of SAP software entitlements. TPS helps define transformation priorities, high-level architecture, and sequencing of transformation steps.

Other options:

- \* A. To train end-users: Not the purpose of TPS.
- \* B. To develop custom extensions: Outside TPS scope.
- \* D. To provide post-implementation support: Not related to TPS.

## NEW QUESTION # 62

How should an implementation consultant customize SAP Best Practices business processes?

- A. Use SAP Cloud ALM to edit the process
- **B. Make a copy of the original process and edit the copy**
- C. Use SAP Signavio Process Manager to edit the process
- D. Make edits to the original process

**Answer: B**

Explanation:

Step 1 - Understanding the question

This question asks how an implementation consultant should customize SAP Best Practices business processes in SAP S/4HANA Cloud, Private Edition.

SAP Best Practices are pre-delivered standard processes that provide ready-to-run configurations.

To maintain a clean core, SAP discourages editing the original process directly.

Step 2 - Evaluate each option

Option A: Make a copy of the original process and edit the copy

This is correct.

The correct approach is to copy the original Best Practice process into a customer workspace (for example, within SAP Signavio or SAP Solution Manager) and make necessary adjustments there.

This preserves the original SAP content and ensures that future updates or upgrades remain compatible.

Example 1:

A company copies the "Standard Order-to-Cash" process, modifies one approval step, and saves it as a new variant under its own namespace.

Example 2:

A finance consultant copies the "Journal Entry Posting" process to adjust document approval rules without touching the original Best Practice template.

Option B: Use SAP Cloud ALM to edit the process

This is incorrect.

SAP Cloud ALM is used to manage and monitor project tasks and test execution, not to directly edit Best Practice process content.

Option C: Use SAP Signavio Process Manager to edit the process

This is partially true in concept but not correct in this question's context.

While SAP Signavio can model and document processes, editing SAP Best Practice processes directly in Signavio is not the recommended or typical customization method for implementation consultants.

Option D: Make edits to the original process

This is incorrect.

Editing the original Best Practice process would violate clean-core principles and risk losing SAP-provided updates.

## NEW QUESTION # 63

During a system conversion, which of the following does SAP recommend you do in the Discover phase of the SAP Activate methodology?

- **A. Define a system conversion strategy.**
- B. Create a cutover plan.
- C. Perform a sandbox conversion.
- D. Define an integration test strategy.

## Answer: A

### Explanation:

In a system conversion project using the SAP Activate methodology, the Discover Phase focuses on understanding the project scope, evaluating readiness, and planning conversion activities.

### D). Define a system conversion strategy

During the Discover Phase, SAP recommends defining the system conversion strategy. This includes analyzing the existing system landscape, determining conversion prerequisites, and defining the overall approach for technical and functional conversion activities. Other options:

- \* A. Define an integration test strategy: Performed later in the Realize Phase.
- \* B. Create a cutover plan: Defined during the Deploy Phase.
- \* C. Perform a sandbox conversion: Conducted during the Prepare or Explore Phase.

## NEW QUESTION # 64

When deploying SAP S/4HANA Cloud, private edition using new implementation, which of the following is recommended to code custom developments? Note: There are 2 correct answers to this question.

- A. SAP Best Practices
- B. SAP Business Technology Platform
- C. SAP ABAP Workbench
- D. SAP Support Portal

## Answer: A,B

## NEW QUESTION # 65

.....

There is a succession of anecdotes, and there are specialized courses. Experts call them experts, and they must have their advantages. They are professionals in every particular field. The C\_S4PM2\_2507 test material, in order to enhance the scientific nature of the learning platform, specifically hired a large number of qualification exam experts, composed of product high IQ team, these experts by combining his many years teaching experience of C\_S4PM2\_2507 Quiz guide and research achievements in the field of the test, to exam the popularization was very complicated content of SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects exam dumps, better meet the needs of users of various kinds of cultural level.
