

# H19-401\_V2.0 Sample Exam | Clear H19-401\_V2.0 Exam

Our professional experts have carefully compiled our H19-401\_V2.0 practice braindumps to be the best seller in the market. The information is provided in the form of our H19-401\_V2.0 exam questions and answers, following the style of the real exam paper pattern. So if you buy our H19-401\_V2.0 training guide, you will find that it is easy to pass the exam for it is exam-oriented. What is more, you will learn a lot of work skills according to the latest information.

We try our best to provide the most efficient and intuitive learning methods to the learners and help them learn efficiently. Our H19-401\_V2.0 exam reference provides the instances to the clients so as to they can understand them intuitively. Based on the consideration that there are the instances to our H19-401\_V2.0 test guide to concretely demonstrate the knowledge points. Through the stimulation of the Real H19-401\_V2.0 Exam the clients can have an understanding of the mastery degrees of our H19-401\_V2.0 exam practice question in practice. Thus our clients can understand the abstract concepts in an intuitive way.

## Clear H19-401\_V2.0 Exam & H19-401\_V2.0 Exam Outline

As is known to all, H19-401\_V2.0 practice test simulation plays an important part in the success of exams. By simulation, you can get the hang of the situation of the real exam with the help of our free demo. You can fight a hundred battles with no danger of defeat. Simulation of our H19-401\_V2.0 Training Materials make it possible to have a clear understanding of what your strong points and weak points are and at the same time, you can learn comprehensively about the exam. By combining the two aspects, you are more likely to achieve high grades in the real exam.

## Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q52-Q57):

### NEW QUESTION # 52

Which of the following scenarios can Huawei's cloud-managed campus network solution apply to?

- A. Micro store
- B. Primary/Secondary school
- C. Shopping mall/Supermarket
- D. Hotel

**Answer: A,B,C,D**

Explanation:

Huawei's CloudCampus Solution is designed for high scalability and multi-branch management. It is specifically recommended in the V2.0 design guides for:

- \* Retail (A, D): Centralized management of many small, geographically dispersed stores.
- \* Education (B): Simplified O & M for K-12 schools with limited IT staff.
- \* Hospitality (C): Fast deployment and easy guest Wi-Fi management for hotels.

#### NEW QUESTION # 53

With which of the following methods can alarms on the controller be sent to the maintenance personnel in real time?

- A. Email
- B. WeChat
- C. SMS
- D. DingTalk

**Answer: A,B,C,D**

Explanation:

To ensure "Proactive O & M," iMaster NCE-Campus supports a wide array of notification channels via its Northbound Interface (NBI). It can integrate with third-party gateways to send SMS (A) and Email (D), and it provides native integration or Webhook support for popular enterprise collaboration tools like DingTalk (B) and WeChat (C). This allows IT staff to receive critical network alerts immediately on their mobile devices.

#### NEW QUESTION # 54

On a fabric network of a large or midsize campus network, there are 20 edge devices. Which of the following OSPF route orchestration modes should be used in this case?

- A. Multi-OSPF-area orchestration
- B. Triple-OSPF-area orchestration
- C. Single-OSPF-area orchestration
- D. Dual-OSPF-area orchestration

**Answer: D**

Explanation:

For mid-to-large campus fabrics (typically those with more than 10-15 edge devices), Huawei recommends Dual-OSPF-area orchestration (C) for the underlay network. In this design, Area 0 is usually established between the Core (Border) and Aggregation nodes, while Area 1 (or other non-zero areas) is used between the Aggregation and Edge nodes. This hierarchy limits the scope of Link State Advertisements (LSAs), preventing a single link flap at the edge from causing a full SPF recalculation across the entire network backbone, thus enhancing stability.

#### NEW QUESTION # 55

Which of the following networking modes are supported by Huawei SD-WAN?

- A. Hub-spoke
- B. Full-mesh
- C. Partial-mesh
- D. Hierarchical networking

**Answer: A,B,C,D**

Explanation:

Huawei's SD-WAN solution offers the industry's most flexible networking architectures. The supported modes include:

- \* Hub-spoke (A): Best for star-shaped enterprise layouts where branches talk through a HQ.
- \* Full-mesh (D): Every site talks directly to every other site (best for low-latency VoIP/Video).
- \* Partial-mesh (C): A hybrid approach where only specific key sites are interconnected.
- \* Hierarchical (B): Used for massive networks (over 1,000 sites), dividing the network into regions to improve scalability and management.

## NEW QUESTION # 56

Which of the following layers are covered for network analysis using iMaster NCE-CampusInsight?

- A. Application layer
- B. Protocol layer
- C. User layer
- D. Network layer

**Answer: A,C,D**

Explanation:

iMaster NCE-CampusInsight provides full-stack visibility by analyzing three distinct layers:

\* User Layer (B): Focuses on user-specific issues like authentication failures or slow associations.

\* Network Layer (A): Monitors device health, packet loss, and latency across the physical/logical fabric.

\* Application Layer (D): Identifies over 6,000 applications and analyzes the quality of experience (QoE) for key apps like Zoom or Teams.

"Protocol layer" is not categorized as a standalone analysis layer in the official HCSP V2.0 framework; protocol issues are usually nested within the Network or User analysis categories.

## NEW QUESTION # 57

.....

Our users are all over the world, and our privacy protection system on the H19-401\_V2.0 study guide is also the world leader. Our H19-401\_V2.0 exam preparation will protect the interests of every user. Now that the network is so developed, we can disclose our information at any time. You must recognize the seriousness of leaking privacy. For security, you really need to choose an authoritative product like our H19-401\_V2.0 learning braindumps.
