## 2026 Useful AD0-E125 Exam Book | Adobe Experience Manager Forms Developer Expert 100% Free Downloadable PDF

The high quality of our AD0-E125 preparation materials is mainly reflected in the high pass rate, because we deeply know that the pass rate is the most important. As is well known to us, our passing rate has been high; 99% of people who used our AD0-E125 real test has passed their tests and get the certificates. I dare to make a bet that you will not be exceptional. Your test pass rate is going to reach more than 99% if you are willing to use our AD0-E125 Study Materials with a high quality. So it is necessary for you to know well about our AD0-E125 test prep.

### Adobe Experience Manager Forms Developer Expert Sample Questions (Q61-Q66):

#### NEW QUESTION # 61

The ABC Pvt. Ltd company asks a Forms Developer to design an AEM form. The Forms Developer needs to follow best practices to leverage a single design in multiple Form rendering to support multiple devices.

While testing the HTML5 form, the AEM QA team finds that most field validations are not working, unlike the PDF form version. What is causing this issue?

- A. FormCalc scripts on certain form object events does not work as on the PDF Form design.
- B. Field validations are client scripting, so the designer should set scripting run at Client instead of Server in Script Editor of the Designer.
- C. Small devices do not support AEM Client scripting in the HTML Form like the tablet and mobile phone.
- D. Form Rendering service removes the JavaScript from the HTML form while rendering from XDP design.

**Answer: A**

### NEW QUESTION # 62

A workflow process generates multiple notices (.pdf) from the PDF design templates (.pdf) that a Forms Developer created. Header & Footer are used as a common fragment (.xdp) to reuse in all other designs.

An AEM tester notices that the company address in the header is not correct. The tester asks the Developer to change the address in the fragment so that it reflects in all notices.

After the Developer updates the Header fragment, which changes will be the result?

- A. Changes will NOT reflect in ANY notice because design templates are saved as PDFs.
- B. Changes will reflect in every notice if the Header fragment is saved as a .pdf like a PDF design template.
- C. Changes will require all notices to be re-processed manually
- D. Changes will reflect in EVERY notice because it is a common fragment of all notices.

**Answer: A**

### NEW QUESTION # 63

An AEM Workbench Developer needs to fetch a collection of records for employees whose annual income was more than \$40,000 during the last year. The Developer is given a select SQL statement query from the DB Admin to fetch the record. This query works correctly when it is fired on an SQL client.

Which JDBC operation/activity from JDBC services Workbench should the Developer use to get the query result?

- A. Call Stored Procedure operation
- B. Execute SQL Statement operation
- C. Query Single Row operation
- D. Query for Multiple Rows as XML operation

**Answer: D**

### NEW QUESTION # 64

A Forms Developer is tasked with constructing a Forms portal from a Site page. The Site page (built from a static template) is NOT set by default and needs to be configured as a first step.

After the Developer logs into their instance and opens the AEM Sites page, they click any component (with a blue border) and then click (paragraph image) to select the paragraph system that contains the current component. Next, in the paragraph system, they click the (wrench tool) to open the Edit dialog for the paragraph system.

What additional steps must be taken to successfully convert the Sites page into a Forms portal?

- A. In the page header, click (dropdown) > Select "Edit" to open the page in Edit mode.
- B. Enable Forms Service Predicates in Page Properties
- C. In the page header, click (dropdown) > Select "Developer" to open the page in Developer mode.
- D. In the page header, click (dropdown) > Select "Design" to open the page in Design mode.

**Answer: D**

### NEW QUESTION # 65

Which annotation should be used while calling an OSGi service from another OSGi service?

- A. @Component
- B. @Inject
- C. @Reference
- D. @OSGiService

**Answer: C**

### NEW QUESTION # 66
