Pass4suresVCE is a website engaged in the providing customer DEP-2025 VCE Dumps and makes sure every candidates passing actual test easily and quickly. We have a team of IT workers who have rich experience in the study of Apple dumps torrent and they check the updating of Apple top questions everyday to ensure the accuracy of exam collection.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 2	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.

Topic 3	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 4	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 5	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 6	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 7	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 8	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 9	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 10	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 11	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 12	• Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 13	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.

In Pass4suresVCE's website you can free download study guide, some exercises and answers about Apple Certification DEP-2025 Exam as an attempt.

Apple Deployment and Management Exam Sample Questions (Q45-Q50):

NEW QUESTION # 45
What can you optionally include when you prepare a device for a Return to Service?

- A. Wi-Fi profile
- B. Home Screen layout
- C. Device wallpaper
- D. Installed apps list

Answer: A

Explanation:
A Wi-Fi profile aids Return to Service. TheApple Configurator User Guidestates, "When preparing a device for Return to Service, you can optionally include a Wi-Fi profile to ensure automatic network connection post- erase." References:
Apple Configurator User Guide, "Return to Service" section.
Apple Platform Deployment Guide, "Device Redeployment" section.

NEW QUESTION # 46
What can you do with Apple Configurator for Mac?

- A. Use Shortcuts automations.
- B. Buy apps and books.
- C. Push profile updates over the air.
- D. Enable Managed Lost Mode.

Answer: A

Explanation:
AppleConfigurator for Macis a utility designed to supervise, restore, and configure iOS, iPadOS, and tvOS devices. Apple Learning highlights a newer feature: the ability touse Shortcuts automations with Configurator. This means administrators can script repeatable tasks - for example, restoring a device, applying enrollment settings, and erasing it - without manually repeating steps. Over-the-air profile updates are handled by MDM, not Configurator. Purchasing apps and books is managed through Apple Business Manager, not Configurator. Managed Lost Mode is an MDM feature, not part of Configurator. Shortcuts integration makes Configurator more powerful in high-volume environments, letting IT staff automate otherwise time-intensive preparation workflows, especially in education or labs. This reinforces Apple's commitment to automation and efficiency in deployment.
References:Apple Configurator Guide - "Automate device setup using Shortcuts."

NEW QUESTION # 47
Your organization buys devices from a new Apple Authorized Reseller. You want to ensure that your devices appear in Apple Business Manager or Apple School Manager. What information do you need to add in Apple Business Manager or Apple School Manager?

- A. Purchase Order Number
- B. Organization ID
- C. Reseller Number
- D. D-U-N-S Number

Answer: C

Explanation:
To link a new Apple Authorized Reseller to your Apple Business Manager (ABM) or Apple School Manager (ASM) account, you must add the reseller's Reseller Number (also known as the Apple Customer Number). The Apple Business Manager User Guide states, "To ensure devices purchased from a new Apple Authorized Reseller appear in Apple Business Manager, add the reseller's Reseller Number in the 'Resellers' section of your account settings." Option B (Organization ID) is provided to the reseller, not added in ABM/ASM, while A and C are not required for this purpose.
Reference:
Apple Business Manager User Guide, "Add Resellers" section.
Apple Platform Deployment Guide, "Device Purchasing" section.

NEW QUESTION # 48
Which feature allows IT administrators to remotely wipe a device?

- A. Find My
- B. Activation Lock
- C. MDM
- D. iCloud

Answer: C

Explanation:

Mobile Device Management (MDM) provides IT administrators with the capability to remotely wipe a device, either fully (factory reset) or selectively (removing managed data), via commands sent over APNs. This is a core MDM feature for security and compliance. Activation Lock (option A) prevents unauthorized reactivation after a wipe but doesn't perform the wipe. Find My (option B) allows users to wipe their own devices, not administrators. iCloud (option D) supports personal wipes via Find My, not organizational ones. The MDM Protocol Reference confirms MDM's remote wipe functionality.

NEW QUESTION # 49
What's required to use Activation Lock on a device?

- A. An Apple ID
- B. A passcode
- C. Supervision
- D. An MDM solution

Answer: A

Explanation:

Activation Lock requires an Apple ID (personal or Managed) to be enabled, typically activated when Find My is turned on. It prevents reactivation after a wipe without the associated credentials. An MDM solution (option A) can manage or bypass Activation Lock but isn't required to use it. Supervision (option C) enhances management but isn't necessary for Activation Lock. A passcode (option D) adds security but isn't a prerequisite. TheApple Platform Security Guidespecifies an Apple ID as the core requirement. Reference:Apple Platform Security Guide(Section: Activation Lock).

NEW QUESTION # 50
......

Our product boosts three versions which include PDF version, PC version and APP online version. The Apple Deployment and Management Exam test guide is highly efficient and the forms of the answers and questions are the same.
