100% Pass 2025 Advanced-Administrator: Salesforce Certified Advanced Administrator–Trustable Passguide

In the present market you are hard to buy the valid study materials which are used to prepare the Advanced-Administrator certification like our Advanced-Administrator latest question. Both for the popularity in the domestic and the international market and for the quality itself, other kinds of study materials are incomparable with our Advanced-Administrator Test Guide and far inferior to them. Our Advanced-Administrator certification tool has their own fixed clients base in the domestic market and have an important share in the international market to attract more and more foreign clients.

The Salesforce Advanced-Administrator exam is challenging and requires a deep understanding of Salesforce's advanced features. It consists of 60 multiple-choice questions, and the exam takers have 105 minutes to complete it. The passing score for the exam is 65%, and it costs $200 to take the exam. Advanced-Administrator Exam is available in multiple languages, including English, Spanish, French, and German.

Salesforce Certified Advanced Administrator (Advanced-Administrator) practice test software is compatible with windows and the web-based software will work on many operating systems.

Salesforce Certified Advanced Administrator Sample Questions (Q133-Q138):

NEW QUESTION # 133
The Organization Wide Defaults for SFB Industries on Accounts is set to Private. Because of an acquisition new sales users are going to start using Salesforce but need to see all Accounts. How can this be reflected in Salesforce?

- A. Set Accounts Org--wide defaults to Public read/write
- B. Create a permission set with View All enabled on Accounts and assign to the new users
- C. Create a new profile with View All enabled on Accounts and assign to the new users
- D. Set Accounts Org--wide defaults to Public

Answer: C

NEW QUESTION # 134

Cloud Kicks maintains Inventory in a legacy application. Management wants the information to also be available to view and report on in Saiesforce.

Which action should the administrator take to achieve this goal?

- A. Import the data into a custom object when needed; delete after it is used.
- B. Build a Lightning component and use SFDX to connect to the inventory app.
- C. Create an external object that maps to the inventory application.
- D. Upload an Excel spreadsheet with the data into the Files tab.

Answer: C

NEW QUESTION # 135

Universal Containers wants to use Salesforce as part of their recruiting process. They need to track applicants and positions. Applicants should be able to apply for multiple positions. There should be a field on both the position and applicant records that sums the number of applications for each candidate.

How should an administrator define an application object to meet these requirements?

- A. Create lookup fields on the application object to both the position and applicant.
- B. Create a lookup field on both the position and applicant to the application.
- C. Create a master-detail field on both the position and applicant to the application.
- D. Create master-detail fields on the application object to both the position and applicant.

Answer: C

NEW QUESTION # 136

Cloud Kicks is a large company with many divisions. Some divisions have a higher turnover, so each division wants to be able to create and manage users only within their division.

What should the administrator do to set this up?

- A. Assign a flat territory role hierarchy for the divisions.
- B. Customize and assign profiles for the division teams.
- C. Set up delegated administrators for the division leaders.
- D. Create a permission set group for the division leaders.

Answer: C

Explanation:

Delegated administration allows administrators to delegate certain user management tasks to other users without granting them full administrative privileges. Delegated administrators can create and manage users only within specified roles or public groups. This option will meet the requirement of allowing each division to create and manage users only within their division. References: https://help.salesforce.com/articleView?

NEW QUESTION # 137

A change set has already been uploaded but changes need to be made to its contents.
what is a best practice for adding these changes?

- A. Delete existing change set, add changes to new change set, upload change set
- B. Edit existing change set, add needed changes, upload again.
- C. clone the change set, add needed change set and upload again.
- D. Manually make changes in change set destination org.

Answer: C

NEW QUESTION # 138
