As is known to all, 156-536 practice test simulation plays an important part in the success of exams. By simulation, you can get the hang of the situation of the real exam with the help of our free demo. You can fight a hundred battles with no danger of defeat. Simulation of our 156-536 Training Materials make it possible to have a clear understanding of what your strong points and weak points are and at the same time, you can learn comprehensively about the exam. By combining the two aspects, you are more likely to achieve high grades in the real exam.

CheckPoint 156-536 Exam Syllabus Topics:

Topic	Details
Topic 1	• Introduction to Harmony Endpoint: This section measures the skills of CheckPoint Security Administrators about the fundamental concepts of Harmony Endpoint. It introduces candidates to the capabilities of the Harmony Endpoint solution, which is designed to protect endpoint devices from various cyber threats.
Topic 2	• Large-Scale Harmony Endpoint Deployment: This domain is aimed at Harmony Endpoint Security Professionals and addresses the challenges associated with deploying Harmony Endpoint at scale. Candidates will learn about strategies for efficient large-scale implementation while maintaining security standards across numerous devices.
Topic 3	• Harmony Endpoint Management as a Service: This section targets Harmony Endpoint Security Professionals, focusing on managing endpoint security as a service. It covers the cloud-based management capabilities of Harmony Endpoint, allowing for scalable deployment and policy management.

156-536 Reliable Braindumps Ppt & Exam 156-536 Format

Owing to the industrious dedication of our experts and other working staff, our 156-536 study materials grow to be more mature and are able to fight against any difficulties. Our 156-536 preparation exam have achieved high pass rate in the industry, and we always maintain a 99% pass rate with our endless efforts. We have to admit that behind such a starling figure, there embrace mass investments on our 156-536 Exam Questions from our company.

CheckPoint Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) Sample Questions (Q63-Q68):

NEW QUESTION # 63

Harmony Endpoint offers Endpoint Security Client packages for which operating systems?

- A. Windows, AppleOS and Unix operating systems
- B. macOS, iPadOS and Windows
- C. Unix, WinLinux and macOS
- **D. Windows, macOS and Linux operating systems**

Answer: D

Explanation:

Harmony Endpoint provides Endpoint Security Client packages for Windows, macOS, and Linux operating systems. This is explicitly documented in the CP_R81.20_Harmony_Endpoint_Server_AdminGuide.pdf. On page 19, under the section "Endpoint Security Client," it states: "The Endpoint Security client is available on Windows and Mac." This confirms support for Windows and macOS.

Further clarification is provided on page

51, under "Supported Operating Systems for the Endpoint Client," which lists "macOS" and "Linux" as supported platforms, alongside detailed support for Microsoft Windows on page 49. Together, these references confirm that the client packages are offered for Windows, macOS, and Linux.

* Option A ("Unix, WinLinux and macOS") is incorrect because "WinLinux" is not a recognized operating system, and Unix is not listed as a supported client OS in the documentation.

* Option C ("macOS, iPadOS and Windows") is incorrect as iPadOS, an OS for mobile devices, is not mentioned as a supported platform for the Endpoint Security Client.

* Option D ("Windows, AppleOS and Unix operating systems") is incorrect because "AppleOS" is not a standard term (the correct term is macOS), and Unix is not supported as a client OS.

Thus, Option B is the only fully accurate choice based on the official documentation.

CP_R81.20_Harmony_Endpoint_Server_AdminGuide.pdf, Page 49: "Microsoft Windows" (details Windows support).

CP_R81.20_Harmony_Endpoint_Server_AdminGuide.pdf, Page 51: "macOS" and "Linux" (confirms support for these OSes).

NEW QUESTION # 64

What connect options does the connection Awareness support?

- A. Client and Server model based on Idap model. The supported ports are 389 and 636.
- B. Master and Slave Endpoint Security Management Server.
- C. There are two options: Connected and Disconnected
- **D. There are two options: Connected to Management and Connected to a List of Specified Targets.**

Answer: D

NEW QUESTION # 65

The CISO office evaluates Check Point Harmony Endpoint and needs to know what kind of post-infection capabilities exist. Which post-infection capabilities does the Harmony Endpoint Suite include?

- A. FW Attack Analysis (Forensics), Detect and Prevent, and Isolation
- B. IPS Attack Analysis (Forensics), Detect and Prevent, and Isolation
- **C. Automated Attack Analysis (Forensics), Remediation and Response, and Quarantine**
- D. IPS Attack Analysis (Forensics), Deploy and Destroy, and Isolation

Answer: C

NEW QUESTION # 66

As an Endpoint Administrator, you are facing some errors related to AD Strong Authentication in the Endpoint Management Server. Where is the right place to look when you are troubleshooting these issues?

- A. \$UEMPDIR/log/Authentication.elg
- B. \$FWDIR/log/Authentication.log
- C. \$FWDIR/logs/Auth.log
- **D. \$UEPMDIR/logs/Authentication.log**

Answer: D

Explanation:

When troubleshooting errors related to Active Directory (AD) Strong Authentication in the Endpoint Security Management Server, the appropriate log file to examine is specified in the Check Point Harmony Endpoint Server Administration Guide R81.20. This guide provides detailed information on log file locations for various components of the Harmony Endpoint system.

On page 213, under the section "Troubleshooting Authentication in Server Logs," the guide explicitly states:

"The authentication logs are located in \$UEPMDIR/logs/Authentication.log." This statement directly identifies \$UEPMDIR/logs/Authentication.log as the correct location for logs related to authentication issues, including those involving AD Strong Authentication. The \$UEPMDIR variable represents the installation directory of the Endpoint Security Management Server, making this path specific to the Harmony Endpoint environment. Therefore, Option C is the verified location for troubleshooting such errors.

To further validate this choice, consider the other options:

* Option A: \$FWDIR/log/Authentication.log- The \$FWDIR directory is typically associated with Check Point's firewall components (e.g., Security Gateway), not the Endpoint Security Management Server. This path is irrelevant for Harmony Endpoint authentication logs.

* Option B: \$FWDIR/logs/Auth.log- Similarly, \$FWDIR pertains to firewall-related logs, and "Auth.log" is not a standard log file name in the Harmony Endpoint context, making this option incorrect.

* Option D: \$UEPMDIR/log/Authentication.elg- This option contains a typo ("UEMPDIR" instead of "UEPMDIR") and references a ".elg" file, which is typically used for debug logs in Check Point systems, not standard authentication logs. The correct extension, as per the guide, is ".log" not ".elg." The documentation's clear directive on page 213 confirms that \$UEPMDIR/logs/Authentication.log is the authoritative source for troubleshooting AD Strong Authentication issues, solidifying Option C as the correct answer.

NEW QUESTION # 67

The Push Operation Wizard allows users to select which three topics for Push Operations?

- A. Anti-Virus, Remediation, Agent Settings
- B. Anti-Ransomware, Forensics and Analysis, Agent Configurations
- **C. Anti-Malware, Forensics and Remediation, Agent Settings**
- D. Anti-Malware, Analysis, Agent Deployment

Answer: C

NEW QUESTION # 68

.....

It is known that our 156-536 valid study guide materials have dominated the leading position in the global market with the decades of painstaking efforts of our experts and professors. There are many special functions about 156-536 study materials to help a lot of people to reduce the heavy burdens when they are preparing for the 156-536 Exams for the 156-536 study practice question from our company can help all customers to make full use of their sporadic time. Must buy our 156-536 exam questions, you will be able to pass the 156-536 exam easily.
