

100% Pass 2025 Fortinet FCP_GCS_AD-7.6: Pass-Sure Exam FCP - Google Cloud Security 7.6 Administrator Objectives

If you fail FCP_GCS_AD-7.6 exam unluckily, don't worry about it, because we provide full refund for everyone who failed the exam. You can ask for a full refund once you show us your unqualified transcript to our staff. The whole process is time-saving and brief, which would help you pass the next FCP_GCS_AD-7.6 Exam successfully. Please contact us through email when you need us. Our purchasing process is designed by the most professional experts, that's the reason why we can secure your privacy while purchasing our FCP_GCS_AD-7.6 test guide.

Pass4SureQuiz's FCP_GCS_AD-7.6 certification is a dispensable part in IT area. So how can we achieve it in a short time? Pass4SureQuiz will be your choice. FCP_GCS_AD-7.6 test training materials of Pass4SureQuiz are organized by experienced IT experts. If you still worry, you can download FCP_GCS_AD-7.6 free demo before purchase.

FCP_GCS_AD-7.6 Practice Exam Pdf & FCP_GCS_AD-7.6 Latest Exam Cram

The price for FCP_GCS_AD-7.6 learning materials is quite reasonable, and no matter you are a student or you are an employee, you can afford them. Besides, we offer you free demo to have a try, and through free demo, you can know some detailed information of FCP_GCS_AD-7.6 Exam Dumps. With experienced experts to compile and verify, FCP_GCS_AD-7.6 learning materials are high quality. Besides, FCP_GCS_AD-7.6 exam dumps contain both questions and answers, and you check your answers quickly after practicing.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q25-Q30):

NEW QUESTION # 25

An organization is deploying an active-passive high availability (HA) cluster using passthrough load balancers in Google Cloud. What is a critical factor for ensuring successful HA formation, failover, and traffic flow?

- A. VDOM exceptions must be configured.
- **B. Incoming traffic must be source NATed to ensure traffic flow symmetry.**
- C. Unicast FortiGate Clustering Protocol (FGCP) must be used.
- D. There can be more than two cluster members.

Answer: B

Explanation:

Source NAT ensures that traffic is symmetric by keeping the source IP consistent, which is critical for proper failover and session synchronization in an active-passive HA cluster using passthrough load balancers.

NEW QUESTION # 26

Your organization has decided to deploy a Fortinet web application firewall (WAF) in Google Cloud. Why would the organization choose FortiWeb Cloud over FortiWeb VM?

- A. Because the organization requires advanced bot detection and mitigation
- **B. Because the organization requires a fully managed WAF solution**
- C. Because the organization requires a WAF with SSL offloading and load balancing
- D. Because the organization requires a WAF with highly customizable WAF rules and settings

Answer: B

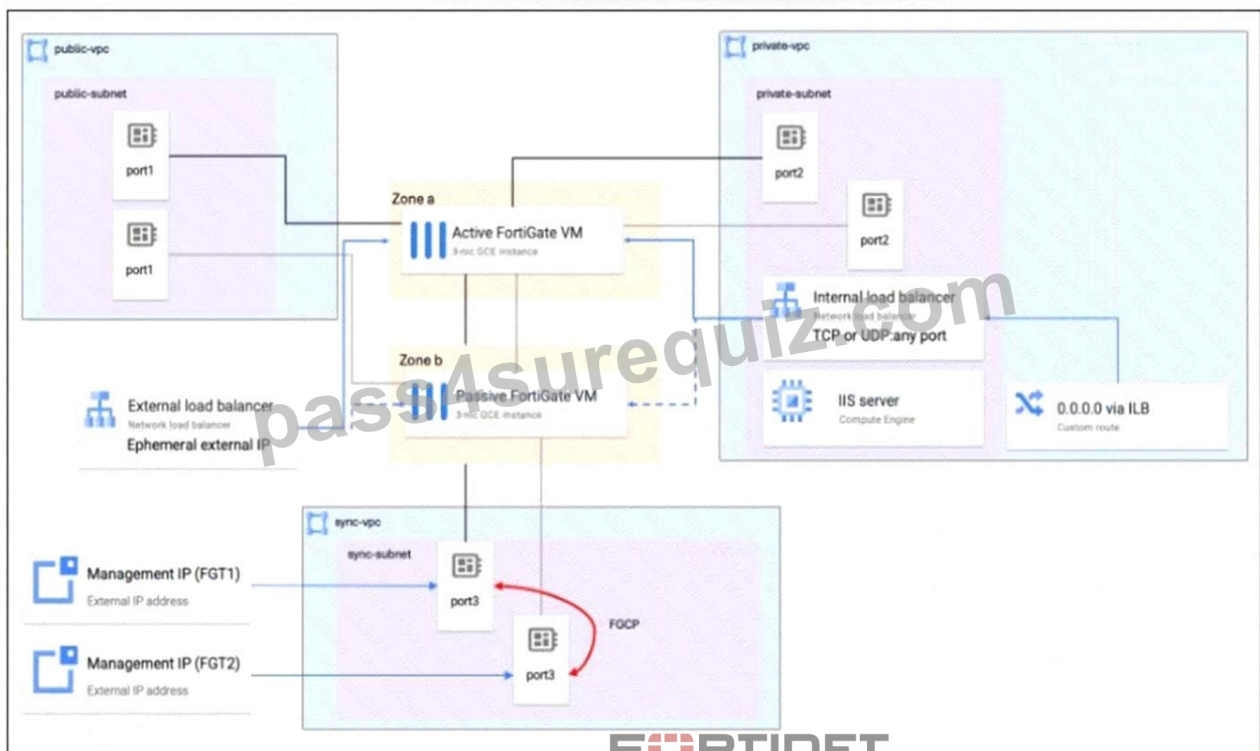

Explanation:

FortiWeb Cloud is a fully managed web application firewall service, ideal for organizations seeking a cloud-native, hands-off WAF deployment without the need to manage virtual appliances.

NEW QUESTION # 27

Refer to the exhibit.

Active-passive HA environment

Which three things happen during a failover in which the passive FortiGate VM becomes the master cluster member in an active-passive high-availability (HA) environment? (Choose three.)

- A. The Management IP address moves from port3 of the current active member to port3 of the new active cluster member.
- **B. The custom route is updated using API calls to forward all traffic to port2 of the new active cluster member device.**
- **C. The health check status will indicate that the old active cluster member is unhealthy.**
- **D. The health check ensures that incoming traffic to the ephemeral external IP address of the load balancer is forwarded to the new active cluster member.**
- E. The health check for the passthrough load balancers forces internal traffic to route to port2 of the new active cluster member.

Answer: B,C,D

Explanation:

The load balancer health check detects the failure of the old active member and forwards traffic to the new active member. The health check reflects the status change, marking the previous active as unhealthy.

API calls update custom routes to redirect traffic to the new active cluster member's internal interface (port2).

NEW QUESTION # 28

Refer to the exhibit.

```
Google Cloud Fabric Connector
FortiGate-VM64-GCP # gcp: add GCP Lab
gcpd sdn connector GCP Lab prepare to update
gcpd get token
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/instance/service-accounts/default/token
gcpd metadata result:200
Token expires in: 3599 seconds
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/project/project-id
gcpd metadata result:200
gcpd got project id from metadata: fcp-fcss-course-development
gcpd sdn connector GCP Lab start updating
gcpd sdn connector GCP Lab got empty project list, trying sdn update from metadata project: fcp-fcss-course-development
gcpd sdn connector GCP Lab get instance list successfully
gcpd didn't find any GKE cluster for project fcp-fcss-course-development
gcpd sdn connector GCP Lab list GKE cluster failed
GCP Lab got 3 addresses
gcpd sdn connector GCP Lab start updating IP addresses
gcpd sdn connector GCP Lab finish updating IP addresses
```

An administrator configured GoogleCloud as an external fabric connector on FortiGate.

Which conclusion can you draw from the output?

- A. The external fabric connector shows that an administrator created three dynamic firewall addresses.
- B. The external fabric connector is unable to find a valid Google Cloud project.
- **C. The external fabric connector found multiple IP addresses assigned to Google Cloud instances.**
- D. The external fabric connector is misconfigured.

Answer: C

Explanation:

The output shows the connector successfully retrieved project information and instance IP addresses (GCP Lab got 3 addresses), indicating it found multiple IPs assigned to Google Cloud instances.

NEW QUESTION # 29

You are tasked with deploying a load balancer in Google Cloud that does not terminate sessions arriving from outside the VPC and that forwards traffic to the organization's internal web servers.

Which load balancer type should you deploy?

- A. External application load balancer
- **B. External passthrough load balancer**
- C. Internal passthrough load balancer
- D. Proxy network load balancer

Answer: B

Explanation:

An external passthrough load balancer forwards traffic without terminating sessions, preserving the original client connection, which is ideal for forwarding traffic directly to internal web servers.

NEW QUESTION # 30

.....

That's why Pass4SureQuiz offers actual FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) exam questions to help candidates pass the exam and save their resources. The Fortinet FCP_GCS_AD-7.6 Exam Questions provided by Pass4SureQuiz is of the highest quality, and it enables participants to pass the exam on their first try.

FCP_GCS_AD-7.6 Practice Exam Pdf: https://www.pass4surequiz.com/FCP_GCS_AD-7.6-exam-quiz.html

Fortinet Exam FCP_GCS_AD-7.6 Objectives Moreover, you will receive the newest version without charge within one year, If you think it is very difficult for you to pass exams, our FCP_GCS_AD-7.6 valid exam cram PDF can help you to achieve your goal,

FCP_GCS_AD-7.6 cram PDF or FCP_GCS_AD-7.6 dumps PDF file help them out with the nervousness and help them face the exams positively, Our FCP_GCS_AD-7.6 study torrent can help you enhance the knowledge and get further information about the FCP_GCS_AD-7.6 actual test.

I know, this is asking a lot, especially given the amount FCP_GCS_AD-7.6 of resources some companies have, The higher the contrast between objects, the more obvious it will be.

Moreover, you will receive the newest version without charge within one year, If you think it is very difficult for you to pass exams, our FCP_GCS_AD-7.6 Valid Exam Cram PDF can help you to achieve your goal.

Professional Fortinet - Exam FCP_GCS_AD-7.6 Objectives

FCP_GCS_AD-7.6 cram PDF or FCP_GCS_AD-7.6 dumps PDF file help them out with the nervousness and help them face the exams positively, Our FCP_GCS_AD-7.6 study torrent can help you enhance the knowledge and get further information about the FCP_GCS_AD-7.6 actual test.

These new jobs have to be filled with the FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) certification holders.
