As long as you get to know our NSE5_FSM-6.3 exam questions, you will figure out that we have set an easier operation system for our candidates. Once you have a try, you can feel that the natural and seamless user interfaces of our NSE5_FSM-6.3 study materials have grown to be more fluent and we have revised and updated NSE5_FSM-6.3 Study Materials according to the latest development situation. In the guidance of teaching syllabus as well as theory and practice, our NSE5_FSM-6.3 training guide has achieved high-quality exam materials according to the tendency in the industry.

Our NSE5_FSM-6.3 practice questions are on the cutting edge of this line with all the newest contents for your reference. Free demos are understandable and part of the NSE5_FSM-6.3 exam materials as well as the newest information for your practice. And because that our NSE5_FSM-6.3 Study Guide has three versions: the PDF, Software and APP online. So accordingly, we offer three versions of free demos for you to download.

NSE5_FSM-6.3 Exam Preparatory: Fortinet NSE 5 - FortiSIEM 6.3 & NSE5_FSM-6.3 Test Questions

Nowadays the competition in the society is fiercer and if you don't have a specialty you can't occupy an advantageous position in the competition and may be weeded out. Passing the test NSE5_FSM-6.3 certification can help you be competent in some area and gain the competition advantages in the labor market. If you buy our NSE5_FSM-6.3 Study Materials you will pass the NSE5_FSM-6.3 exam smoothly. You will feel grateful for choosing us!

Fortinet NSE 5 - FortiSIEM 6.3 Sample Questions (Q57-Q62):

NEW QUESTION # 57

Device discovery information is stored in which database?

- A. CMDB
- B. Event DB
- C. SVN DB
- D. Profile DB

Answer: A

Explanation:

Device Discovery Information: Information about discovered devices, including their configurations and statuses, is stored in a specific database.

CMDB: The Configuration Management Database (CMDB) is used to store detailed information about the devices discovered by FortiSIEM.

* Function: It maintains comprehensive details about device configurations, relationships, and other metadata essential for managing the IT infrastructure.

Significance: Storing discovery information in the CMDB ensures that the FortiSIEM system has a centralized repository of device information, facilitating efficient management and monitoring.

References: FortiSIEM 6.3 User Guide, Configuration Management Database (CMDB) section, which details the storage and usage of device discovery information.

NEW QUESTION # 58

Which process converts raw log data to structured data?

- A. Data validation
- B. Data parsing
- C. Data classification
- D. Data enrichment

Answer: B

Explanation:

Raw Log Data: When devices send logs to FortiSIEM, the data arrives in a raw, unstructured format.

Data Parsing Process: The process that converts this raw log data into a structured format is known as data parsing.

* Data Parsing: This involves extracting relevant fields from the raw log entries and organizing them into a structured format, making the data usable for analysis, reporting, and correlation.

Significance of Structured Data: Structured data is essential for effective event correlation, alerting, and generating meaningful reports.

References: FortiSIEM 6.3 User Guide, Data Parsing section, which details how raw log data is transformed into structured data through parsing.

NEW QUESTION # 59

An administrator defines SMTP as a critical process on a Linux server.

If the SMTP process is stopped, FortiSIEM would generate a critical event with which event type?

- A. PH_DEV_MON_SMTP_STOP
- B. Postfix-Mail-Slop
- C. PH_DEV_MON_PROC_STOP
- D. Generic SMTP Process Exit

Answer: C

NEW QUESTION # 60

In FortiSIEM enterprise licensing mode, if the link between the collector and data center FortiSIEM cluster is down, what happens?

- A. The collector processes stop, and events are dropped.
- B. The collector continues performance collection of devices, but stops receiving syslog.
- C. The collector buffers events
- D. The collector drops incoming events like syslog, but stops performance collection.

Answer: B

Explanation:

Enterprise Licensing Mode: In FortiSIEM enterprise licensing mode, collectors are deployed in remote sites to gather and forward data to the central FortiSIEM cluster located in the data center.

Collector Functionality: Collectors are responsible for receiving logs, events (e.g., syslog), and performance metrics from devices.

Link Down Scenario: When the link between the collector and the FortiSIEM cluster is down, the collector needs a mechanism to ensure no data is lost during the disconnection.

Event Buffering: The collector buffers the events locally until the connection is restored, ensuring that no incoming events are lost.

This buffered data is then forwarded to the FortiSIEM cluster once the link is re-established.

References: FortiSIEM 6.3 User Guide, Data Collection and Buffering section, explains the behavior of collectors during network disruptions.

NEW QUESTION # 61

Refer to the exhibit.

```
[root@FSM_NSE5 bin]#./phLicenseTool --collect license_req.dat
[PH_GENERIC_DEBUG]:[eventSeverity]=LM_DEBUG,[procName]=<unknown>,[fileName]=phMiscUtils.cpp,
[lineNumber]=992,[phLogDetail]=Interface eth0 IP = 192.168.69.109
License information collected to the output file: license_req.dat
```

An administrator is investigating a FortiSIEM license issue.

The procedure is for which offline licensing condition?

- A. The procedure is for offline license debug.
- **B. The procedure is for offline license registration.**
- C. The procedure is for offline license verification.
- D. The procedure is for offline license validation.

Answer: B

Explanation:

* Offline Licensing in FortiSIEM: FortiSIEM provides mechanisms for offline licensing to accommodate environments without direct internet access.

* License Tool Command: The command `./phLicenseTool --collect license_req.dat` is used to collect license information necessary for offline registration.

* Procedure Analysis: The exhibit shows the output of this command, which indicates the collection of license information to a file named `license_req.dat`.

* Offline License Registration: This collected data file is then typically uploaded to the FortiSIEM support portal or provided to the FortiSIEM support team for processing and generating a license file.

* Reference: FortiSIEM 6.3 Administration Guide, Licensing section, details the procedures for both online and offline license registration, including the use of the `phLicenseTool` for offline scenarios.

NEW QUESTION # 62

.....

The NSE5_FSM-6.3 certification verifies that you are a skilled professional. Braindumpsqa product is designed by keeping all the rules and regulations in focus that Fortinet publishes. Our main goal is that you can memorize the actual Fortinet NSE5_FSM-6.3 Exam Question to complete the Fortinet NSE 5 - FortiSIEM 6.3 (NSE5_FSM-6.3) test in time with extraordinary grades.

NSE5_FSM-6.3 Preparation: https://www.braindumpsqa.com/NSE5_FSM-6.3_braindumps.html

And we are just right here to give you help to pass the NSE5_FSM-6.3 exam, Fortinet New NSE5_FSM-6.3 Exam Notes You become knowledgeable and valuable in the organization you work in as well as in the market, While, when you encountered so many difficulties during the preparation, you have little faith to pass the Fortinet NSE5_FSM-6.3 Preparation actual test, Fortinet New NSE5_FSM-6.3 Exam Notes Upon reading the following text, all your doubts will be dissipated.

My answer was simple, Similarly, an engineering team developing a product NSE5_FSM-6.3 Preparation may standardize on a particular benchmark and spend all its performance efforts improving performance as measured by that benchmark.

New NSE5_FSM-6.3 Exam Notes - 100% Realistic Questions Pool

And we are just right here to give you help to pass the NSE5_FSM-6.3 Exam, You become knowledgeable and valuable in the organization you work in as well as in the market.

While, when you encountered so many difficulties during the preparation, NSE5_FSM-6.3 you have little faith to pass the Fortinet actual test, Upon reading the following text, all your doubts will be dissipated.

Our NSE5_FSM-6.3 actual exam withstands the experiment of the market also.
