

100% Pass 2025 Oracle Unparalleled 1Z0-1114-25: Valid Test Oracle Redwood Application 2025 Developer Associate Tutorial

What's more, part of that DumpsActual 1Z0-1114-25 dumps now are free: <https://drive.google.com/open?id=10twhdNDc7fkaZTIPhyAuHGjcyqy5F-u->

We have professional technicians to check the website at times, therefore we can provide you with a clean and safe shopping environment if you buy 1Z0-1114-25 training materials. In addition, we have free demo for you before purchasing, so that you can have a better understanding of what you are going to buying. Free update for 365 days is available, and you can get the latest information for the 1Z0-1114-25 Exam Dumps without spending extra money. We have online and offline chat service stuff, and they possess the professional knowledge for the 1Z0-1114-25 training materials, if you have any questions, just contact us.

Oracle 1Z0-1114-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Designing and Developing Redwood Applications: This section measures the skills of Redwood Application Developers and Product Designers in designing and developing applications using Redwood patterns, templates, and components. It focuses on utilizing Redwood page templates, exploring specifications through the Redwood Reference Application, and building applications that align with Oracle's Redwood design system.
Topic 2	• Developing Fusion Apps with Visual Builder Studio: This section tests the knowledge of Fusion App Developers and Development Operations Engineers in leveraging Visual Builder Studio features. It includes configuring service connections, managing code with Git repositories, handling branches and merge requests, and managing builds, pipelines, and deployments to streamline application development workflows.

Topic 3	Configuring Oracle Fusion Cloud Extensions with Visual Builder Studio: This section evaluates the expertise of Fusion Application Developers and Cloud Extension Specialists in using Oracle Visual Builder Studio (VBS) as a development platform for creating and modifying Oracle SaaS applications. It covers extending existing SaaS pages, creating new Redwood pages or apps for SaaS data, and building mashup applications that integrate SaaS and external data sources.
Topic 4	The Redwood Experience: This section of the exam measures the skills of UX Designers and Application Developers in understanding the need for a modern applications platform. It explains the building blocks of Oracle's Redwood design system, focusing on its role in delivering a consistent and intuitive user experience across applications.

Valid 1Z0-1114-25 Exam Bootcamp & Exam 1Z0-1114-25 Sample

We have always set great store by superior after sale service, since we all tend to take responsibility for our customers who decide to choose our 1Z0-1114-25 training materials. We pride ourselves on our industry-leading standards of customer care. Our worldwide after sale staffs will provide the most considerate after-sale service for you in twenty four hours a day, seven days a week, that is to say, no matter you are or whenever it is, as long as you have any question about our 1Z0-1114-25 Exam Torrent or about the exam or even about the related certification, you can feel free to contact our after sale service staffs who will always waiting for you on the internet.

Oracle Redwood Application 2025 Developer Associate Sample Questions (Q22-Q27):

NEW QUESTION # 22

Which is the correct sequence of steps in the Design process?

- A. Articulate the vision, identify the Redwood Page templates, understand the problem, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- B. Understand the problem, articulate the vision, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- C. Understand the statement, articulate the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- D. Articulate the vision, understand the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world

Answer: B

Explanation:

Full Detailed in Depth Explanation:

The Redwood design process, as outlined in Oracle's Redwood documentation, follows a structured approach to ensure a user-centered and iterative design. The correct sequence starts with "Understand the problem" (to define the challenge), followed by "Articulate the vision" (to set goals), "Identify the Redwood Page templates to use" (to select appropriate patterns), "Add the detail and refine the design" (to iterate), "Specify the design for development" (to hand off to developers), and "Monitor engagement in the real world" (to evaluate post-launch). Option D reflects this logical flow. Option A reverses the initial steps, Option B uses incorrect terminology ("Understand the statement"), and Option C misorders understanding the problem after template selection, which disrupts the process.

NEW QUESTION # 23

Which three categories of developers use Visual Builder Studio as a developmental tool? (Choose three.)

- A. Developers creating stand-alone Visual Builder Apps
- B. Fusion Cloud Apps developers
- C. Developers coding PL/SQL procedures in the Fusion database
- D. Developers extending Oracle Cloud Apps

Answer: A,B,D

Explanation:

Full Detailed in Depth Explanation:

Visual Builder Studio (VBS) is a development platform tailored for creating and extending applications, particularly within the Oracle ecosystem. Option A is correct because VBS supports building stand-alone Visual Builder applications hosted on Visual Builder instances. Option B is accurate as VBS is widely used to extend Oracle Cloud Applications (e.g., Fusion Apps) via AppUI extensions. Option D is correct because Fusion Cloud Apps developers leverage VBS to customize and enhance Fusion Apps UIs and functionality. Option C is incorrect because VBS focuses on visual development and REST-based integrations, not on coding PL/SQL procedures directly in the Fusion database, which is typically done using tools like SQL Developer or Application Composer.

NEW QUESTION # 24

How does Oracle Fusion Cloud Extensions contribute to business agility?

- **A. By allowing businesses to quickly adapt and extend their cloud applications**
- B. By increasing the complexity of existing applications
- C. By slowing down business processes
- D. By enforcing rigid and unchangeable processes

Answer: A

Explanation:

Full Detailed in Depth Explanation:

Fusion Cloud Extensions, built with VBS, enable rapid customization of applications (C), enhancing agility. They don't slow processes (A), add complexity (B), or enforce rigidity (D).

NEW QUESTION # 25

Which page template is NOT a transactional page template?

- A. Advanced create and edit page template
- B. Foldout layout page template
- **C. Gantt page template**
- D. Guided process page template

Answer: C

Explanation:

Full Detailed in Depth Explanation:

Transactional templates (C, D) focus on data creation/editing, while Foldout (B) supports navigation. Gantt (A) is for scheduling/visualization, not transactions.

NEW QUESTION # 26

You are asked to refer to the Redwood Pattern Book before developing the Redwood application. Which three pieces of information are included in the Pattern Book? (Choose three.)

- A. User manual for use cases
- **B. Specific page functionality**
- **C. Template introduction**
- **D. Composites and components**
- E. Pictorial representation of data

Answer: B,C,D

Explanation:

Full Detailed in Depth Explanation:

The Redwood Pattern Book provides guidance for Redwood app development. It includes Template Introduction (A) to describe patterns, Specific Page Functionality (D) to detail use cases, and Composites and Components (E) for reusable UI elements.

Pictorial Representation of Data (B) is too vague and not a focus, while User Manual for Use Cases (C) is more end-user-oriented, not developer-focused like the Pattern Book.

NEW QUESTION # 27

• • • • •

Our career is inextricably linked with your development at least in the 1Z0-1114-25 practice exam's perspective. So we try to emulate with the best from the start until we are now. So as the most professional company of 1Z0-1114-25 study dumps in this area, we are dependable and reliable. We maintain the tenet of customer's orientation. If you hold any questions about our 1Z0-1114-25 Exam Prep, our staff will solve them for you 24/7. It is our duty and honor to offer help.
