NEW QUESTION # 19

Your team needs a way to track a customer's location in a team-managed project.

The location needs to match:

a specific list of countries

prohibit additional values

limit to one selection

Identify the field type that meets this requirement.

- A. Paragraph
- B. Checkbox
- C. Dropdown

- D. Short text
- E. Labels
- F. Components

Answer: C

Explanation:

Dropdown field allows selection from a predefined list of values (such as countries), restricts additional /custom entries, and supports single selection, making it ideal for capturing a customer's location under the given constraints.

NEW QUESTION # 20

In the DEV project, users need to change statuses:

on individual issues, one at a time

on collections of issues, all at once
