PDFDumps can promise that our H19-315-ENU training material have a higher quality when compared with other study materials. With over a decade's business experience, our H19-315-ENU study tool has attached great importance to customers' purchasing rights all along. The H19-315-ENU study materials of our website do not affect the user's normal working and learning, and greatly improves the utilization rate of time, killing two birds with one stone. It is no doubt that our study materials will help you pass your H19-315-ENU Exam in a shortest time.

Huawei H19-315-ENU (HCSA-Presales-Transmission & Access) Certification Exam is a highly respected certification that validates the skills and knowledge of professionals in the field of telecommunications. HCSA-Presales-Transmission & Access certification is designed for individuals who have a deep understanding of the technologies and solutions used in the transmission and access network of telecommunications systems. It is an excellent way for professionals to demonstrate their expertise and differentiate themselves in the competitive telecommunications industry.

Huawei H19-315-ENU (HCSA-Presales-Transmission & Access) Certification Exam is an excellent way for telecommunications professionals to demonstrate their expertise and differentiate themselves in the industry. H19-315-ENU Exam covers a wide range of topics related to the transmission and access network of telecommunications systems and requires a comprehensive understanding of Huawei's products. Professionals who pass the exam will be certified as HCSA-Presales-Transmission & Access professionals, which is highly valued by employers. It is important to prepare thoroughly for the exam to ensure success.

Huawei H19-315-ENU Marvelous Real Exam Questions

It is quite clear that let the facts speak for themselves is more convincing than any word, therefore, we have prepared free demo in this website for our customers to have a taste of the H19-315-ENU test torrent compiled by our company. You will understand the reason why we are so confident to say that the H19-315-ENU Exam Torrent compiled by our company is the top-notch H19-315-ENU exam torrent for you to prepare for the exam. You can choose to download our free demo at any time as you like, you are always welcome to have a try, and we trust that our H19-315-ENU exam materials will never let you down.

The H19-315 certification exam covers a wide range of topics, including transmission and access technologies, fiber optic networks, microwave networks, and wireless networks. H19-315-ENU Exam is designed to test the candidate's knowledge of Huawei's product portfolio, including routers, switches, optical access products, and microwave products. HCSA-Presales-Transmission & Access certification exam also tests the candidate's ability to design and implement solutions based on customer requirements.

Huawei HCSA-Presales-Transmission & Access Sample Questions (Q76-Q81):

NEW QUESTION # 76

Which kinds of protection switching does the enhanced MSTP support? (Multiple choice)

- A. SNCP
- B. LSP 1+1/1:1
- C. MPLS-TP ring network protection
- D. MSP

Answer: A,B,C,D

NEW QUESTION # 77

Which PON does Flex-PON support?

- A. XG-PON Combo
- B. XG-PON
- C. GPON
- D. XGS-PON Combo
- E. XGS-PON

Answer: B,C,D,E

Explanation:

The Flex-PON board supports multiple PON technologies, including:

- * GPON: Gigabit Passive Optical Network, widely used for residential and small business applications.
- * XG-PON: 10G Asymmetric Passive Optical Network, offering higher upstream and downstream bandwidths.
- * XGS-PON: 10G Symmetric Passive Optical Network, providing equal upstream and downstream speeds.
- * Combo PON: Combines GPON and XG(S)-PON on the same port, enabling seamless upgrades from GPON to XG(S)-PON without replacing hardware.

The only option not supported by Flex-PON is XG-PON Combo, as "Combo" typically refers to the integration of GPON and XG(S)-PON, not just XG-PON alone.

NEW QUESTION # 78

What's the minimum protection switching time of Link-layer Type B Switching?

- A. 1min
- B. 50ms
- C. 3s
- D. 3min

Answer: B

Explanation:

The minimum protection switching time for Link-layer Type B Switching in GPON is 50ms. Type B protection involves protecting the fiber link between the OLT and the splitter by providing redundant fibers.

In the event of a fiber failure, the system switches to the backup fiber within 50ms to ensure minimal service disruption. This fast switching time is critical for maintaining high availability and reliability in GPON networks.

* 3s, 3min, 1min: These times are far too long for protection switching in modern optical networks, which require near-instantaneous recovery to meet SLA (Service Level Agreement) requirements.

NEW QUESTION # 79

The line impedance of the 2Mbps electrical interface is specified as:

- A. None of the above
- B. 120 Ω (balanced)
- C. 75 Ω (unbalanced)
- D. 75 Ω (unbalanced) or 120 Ω (balanced)

Answer: D

NEW QUESTION # 80

What does Circular 996 of the Video Big Network stipulate?

- A. Prevention and control of all staff
- B. Global coverage
- C. The whole process is controllable
- D. Available all the time
- E. Network-wide sharing

Answer: A

NEW QUESTION # 81
