NEW QUESTION # 161

SUBCO is a potential concrete bridge contractor based in a metropolitan area 300 miles away from your project. They have offered to supply manpower and equipment to BILCO at a per diem rate of \$3,000 above their direct labor and equipment rates. In doing a cost benefit analysis, which of the following is NOT a consideration?

- A. Pending negotiations with GOUGE.
- B. SUBCO direct labor and equipment rates
- C. The distance of SUBCO to your project
- D. BILCO liquidated damages in the SDOT contract

Answer: A

Explanation:

A cost-benefit analysis for a subcontractor like SUBCO should focus on tangible and direct impacts to the project, including their labor and equipment rates, the potential for liquidated damages in the SDOT contract, and logistical concerns such as distance from the project site (PSP Study Guide, Section 1.2.4, "Project Variables"). Pending negotiations with a different entity, such as GOUGE, are unrelated to SUBCO's contract evaluation and are therefore not a consideration.

- B. The expected total cost of an activity, group of activities or the project
- C. The total authorized budget for accomplishing the project scope
- D. The value of the completed work expressed in terms of the budget assigned to that work

Answer: A

Explanation:

Scheduling Professional Study Guide and Documents References: The Budgeted Cost of Work Scheduled (BCWS) is the planned value of all tasks scheduled during a specific period. It is a measure used in earned value management to assess schedule adherence.

* Option A defines Budgeted Cost of Work Performed (BCWP).
