

100% Pass Marvelous Microsoft - MB-335 - Brain Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Exam

2025 Latest Actual4Labs MB-335 PDF Dumps and MB-335 Exam Engine Free Share: <https://drive.google.com/open?id=1SfSAeTTUsQ3QKPv8EIIMIZAr4OmzWBaq>

Are there many friends around you have passed Microsoft MB-335 Certification test? How could they have done this? Let Actual4Labs.com tell you. Actual4Labs Microsoft MB-335 exam dumps provide you with the most comprehensive information and quality service, which is your unique choice. Don't hesitate. Come on and visit Actual4Labs.com to know more information. Let us help you pass the exam.

Microsoft MB-335 exam is an essential certification for individuals who want to demonstrate their expertise in Dynamics 365 Supply Chain Management. Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert certification demonstrates that the candidate has the knowledge and skills to implement and configure the application to meet the needs of an organization, and it is recognized by employers worldwide. By passing the exam, candidates can increase their job prospects, advance their careers, and contribute to the success of their organizations.

Earning the Microsoft MB-335 certification is an excellent way to demonstrate one's expertise in Dynamics 365 Supply Chain Management. Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert certification validates the candidate's ability to provide effective supply chain solutions using Dynamics 365. Moreover, holding the MB-335 Certification distinguishes an individual in the industry and increases their marketability. Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert certification also open doors to advanced roles such as Dynamics 365 Supply Chain Management Functional Consultant Expert.

Reliable MB-335 Exam Labs - Simulations MB-335 Pdf

Some people prefer to read paper materials rather than learning on computers. Of course, your wish can be fulfilled in our company. We have PDF version MB-335 exam guides, which are printable format. You can print it on papers after you have downloaded it successfully. If you want to change the fonts, sizes or colors, you can transfer the MB-335 exam torrent into word format files

before printing. There are many advantages of the PDF version. Firstly, there are no restrictions to your learning. You can review the MB-335 Test Answers everywhere. You spare time can be made good use. Secondly, you can make notes on your materials, which will accelerate your understanding of the MB-335 exam guides. In a word, our company seriously promises that we do not cheat every customer.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert certification is designed for professionals who have expertise in implementing, managing, and configuring supply chain management processes in Microsoft Dynamics 365. The Microsoft MB-335 Certification Exam is a mandatory requirement for acquiring this certification. It is a challenging exam that tests the candidate's knowledge and skills in all aspects of supply chain management.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q101-Q106):

NEW QUESTION # 101

A beverage manufacturing company is implementing Dynamics 365 Supply Chain Management.

The company will use the batch balancing functionality to create the beverages.

IngredientA must be configured for a target value of 40 with a minimum of 35 and a maximum of 45.

IngredientB must be configured to account for target value variances.

You need to configure the ingredient-based calculations

Which ingredient type should you configure for each requirement? To answer, drag the appropriate ingredient types to the correct requirements. Each ingredient type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

The screenshot shows the 'Ingredient types' pane on the left with a list of options: None, Active, Compensating, and Filler. The 'Answer Area' on the right has two requirements: 'IngredientA: target value of 40 with a minimum of 35 and a maximum of 45' and 'IngredientB: account for target value variances'. The 'Ingredient type' column on the right has two empty input fields for each requirement.

Answer:

Explanation:

The screenshot shows the 'Ingredient types' pane on the left with a list of options: None, Active, Compensating, and Filler. The 'Answer Area' on the right has two requirements: 'IngredientA: target value of 40 with a minimum of 35 and a maximum of 45' and 'IngredientB: account for target value variances'. The 'Ingredient type' column on the right has two input fields: 'Active' for Ingredient A and 'Compensating' for Ingredient B.

Explanation:

The screenshot shows the 'Ingredient types' pane on the left with a list of options: None, Active, Compensating, and Filler. The 'Answer Area' on the right has two requirements: 'IngredientA: target value of 40 with a minimum of 35 and a maximum of 45' and 'IngredientB: account for target value variances'. The 'Ingredient type' column on the right has two input fields: 'Active' for Ingredient A and 'Compensating' for Ingredient B.

NEW QUESTION # 102

A company makes engine parts used in the automotive industry.

They are in the process of retooling an existing manufacturing plant. They are looking to use Dynamics 365 for Finance and Operations to help support the Bill of Materials (BOM) product lifecycle for engineering version control.

You must translate existing production processes into the proper elements. You need to create BOM lifecycle states to translate existing production processes into the proper elements.

What type of BOM product lifecycle state should you create? To answer, select the appropriate BOM state in the answer area.

Answer Area

Scenario

Create runs for existing orders that need to be scheduled for production.

Create visibility into cost and materials estimates for prototype products.

Create visibility into cost estimates for products that use a very constrained component for the next three months.

NEW QUESTION # 104

A company uses the production control module in Dynamics 365 Supply Chain Management.

Production workers require precise instructions to know which tools and parts to use and how to use them when the workers put things together during the assembly process.

You need to configure the system to initiate mixed reality Dynamics 365 Guides for production workers.

Which four actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

ACTIONS

- Enable production instruction in License configuration.
- Configure Guides integration.
- Set the size of the rendered QR code.
- Add a Guide to a resource.
- Associate a Guide to a bill of material.

Mixed reality Dynamics 365 Guides system configuration

Answer:

Explanation:

ACTIONS

- Enable production instruction in License configuration.
- Configure Guides integration.
- Set the size of the rendered QR code.
- Add a Guide to a resource.
- Associate a Guide to a bill of material.

Mixed reality Dynamics 365 Guides system configuration

- Configure Guides integration.
- Set the size of the rendered QR code.
- Add a Guide to a resource.
- Associate a Guide to a bill of material.

Explanation:

ACTIONS

- Enable production instruction in License configuration.

Mixed reality Dynamics 365 Guides system configuration

1. Configure Guides integration.
2. Set the size of the rendered QR code.
3. Add a Guide to a resource.
4. Associate a Guide to a bill of material.

NEW QUESTION # 105

You are a manufacturing consultant helping a client test out different bill of material (BOM) and route consumption options when starting production orders. Material and labor consumption are to be completed before Report as finish. You are running a production order with BOM lines that have a Flushing principle set to Start. The Automatic Route Consumption Runtime has been set to Yes. You have set up the default Start user options for all production orders as shown in the exhibit below.

Use on selected orders Make default for all users

START

Date: 12/18/2018

Start production: Yes ☒

References: No ☐

ROUTE CARD JOURNAL

Route card: Route

Automatic route consumption: Always

Post route card now: Yes ☒

End mark now: No ☐

JOURNALS

Show journal info: Yes ☒

PICKING LIST JOURNAL

Picking list: Pick

Automatic BOM consumption: Flushing principle

Create journal post: ☐

Post picking list now: No ☐

Physical reduction: No ☐

Complete picking list journal: Yes ☒

End mark picking list: Yes ☒

Pick negative: No ☐

Post picking list: No ☐

Based on the settings in Route Card Journal area, what will happen when the production order is started?

- ☐ A route card that includes only hours is posted
- ☐ A route card that only includes hours and good quantities is posted
- ☐ An unposted route card is posted. Hours and quantities are blank

Based on the settings in the Picking list journal area, what will happen when the production order is started?

- ☐ A picking list is posted with consumption quantities entered and end selected
- ☐ An unposted picking list is created with consumption quantities filled in for all lines and end selected
- ☐ An unposted picking list is created with consumption quantities blank and end selected

Answer:

Explanation:

A route card that only includes hours and good quantities is posted

A picking list is posted with consumption quantities entered and end selected	
An unposted picking list is created with consumption quantities filled in for all lines and end selected	
An unposted picking list is created with consumption quantities blank and end selected
