## Valid NCP-CN Test Forum - NCP-CN Latest Exam Experience

According to personal propensity and various understanding level of exam candidates, we have three versions of NCP-CN study guide for your reference. They are the versions of the PDF, Software and APP online. If you visit our website on our NCP-CN Exam Braindumps, then you may find that there are the respective features and detailed disparities of our NCP-CN simulating questions. And you can free download the demos to have a look.

## Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q31-Q36):

### NEW QUESTION # 31

By default, a full cluster backup is occurring on a daily basis on an NKP-managed cluster. However, the Victory Finance team has requested that their applications be backed up four times a day. The user group has been assigned to the victory-finance-apps NKP workspace, and the applications have been deployed to the Kubernetes namespace victory-finance.

What is the procedure for scheduling the team's application backups?

- A. Access the NKP UI Switch to the victory-finance-apps NKP workspace Click on the Applications menu panel and select Velero Edit the Velero application configuration at the cluster level for the specific NKP managed cluster (not all clusters in

that NKP workspace)Set the backup frequency to four times daily

- B. Install the Velero CLIUse the Velero CLI to create a backup schedule that includes the following parameters:- Backup name- NKP workspace to backup- Backup frequency (every six hours)- Managed NKP cluster's kubeconfig
- C. Install the Velero CLIUse the Velero CLI to create a backup schedule that includes the following parameters:- Backup name- Kubernetes namespace to backup- Backup frequency (every six hours)- Managed NKP cluster's kubeconfig
- D. Access the NKP UISwitch to the victory-finance NKP namespaceClick on the Applications menu panel and select VeleroEdit the Velero application configuration at the cluster level for the specific NKP managed cluster (not all clusters in that NKP workspace)Set the backup frequency to four times daily

**Answer: C**

### NEW QUESTION # 32

A company has a new DevOps team that needs to be provided cloud native computing resources. This team will need to have access to multiple NKP clusters for development, testing and validation of an in-house application. However, they also need to be restricted to a specific namespace and a consistent level of access across the clusters within this namespace so that they do not adversely impact the environment of other user groups or the clusters themselves.

As a part of this consideration, the new team also needs to be limited to the amount of storage, CPU and memory they can consume on the clusters. A Platform Engineer has been tasked with providing the appropriate level of access to the team on these multiple NKP clusters.

How should the engineer best accomplish this task?

- A. 1.Create an NKP group for the DevOps team2.Assign that NKP group the proper RBAC roles in the NKP UI3.Select the export to yaml option once the RBAC role assignment to that NKP group is complete.4.Apply the exported manifest to each of the NKP clusters using kubectl.
- B. 1.Enable Gatekeeper on the NKP clusters.2.Create an NKP group for the DevOps team3.Assign Gatekeeper quota and authorization policies to that NKP group.
- C. 1.Create an NKP workspace and assign the NKP clusters to it.2.Create quotas for the NKP workspace.3.Create an NKP group for the DevOps team4.Assign that NKP group the proper RBAC roles within that NKP workspace.
- D. 1.Create an NKP project and assign the NKP clusters to it.2.Create quotas for the NKP project.3.Create an NKP group for the DevOps team4.Assign that NKP group the proper RBAC roles within that NKP project.

**Answer: A**

### NEW QUESTION # 33

A Platform Engineer for an organization needs to deploy NKP into AWS while using custom credentials for authenticating. Which flag should the engineer use when starting to bootstrap the cluster installation?

- A. --with-aws-bootstrap-credentials=true<br>
- B. --aws-profile=<my-profile><br>
- C. --aws-access-key=<aws access="" key=""> --aws-secret-key=<aws secret="" key=""></aws></aws></my-profile></my-profile>
- D. --cloud-credentials=<my-profile><br>

**Answer: B**

### NEW QUESTION # 34

A Platform Engineer is deploying an NKP workload cluster using the `nkp create cluster vsphere` command. The cluster will be utilized by the company's code-green team and the engineer has already created a code-green NKP workspace on the NKP management cluster.

After issuing the deploy command, the engineer monitored the build using the `nkp describe cluster` command and confirmed it completed successfully. However, a few hours later, after logging into the NKP UI, the engineer checked the code-green NKP workspace and saw that the NKP workload cluster was not there.

What is the likely reason the NKP workload cluster is not in the code-green NKP workspace?

- A. The engineer did not supply the --namespace code-green parameter as part of the `nkp create cluster vsphere` command, therefore it was created in the default workspace and needs to be manually attached.
- B. NKP vSphere clusters cannot be assigned NKP workspaces and instead are assigned the default NKP workspace. The

cluster can be viewed from this workspace instead.

- C. The vSphere cluster cannot be displayed in the NKP UI unless its Kubernetes version is within 'N - 1' versions of the NKP management cluster's Kubernetes version.
- D. The vSphere service account credentials had expired prior to the engineer's attempt to view the cluster in the NKP UI. Once the credentials are refreshed, the vSphere cluster will reappear in the NKP workspace.

**Answer: A**

#### NEW QUESTION # 35

A development team is working on a new application that requires access to certain cluster resources. The team needs to ensure that they have limited permissions to avoid unauthorized changes in other environments. Among the tasks they will perform are the following:

Deploy new versions of the application to their specific namespace.

Scale deployments according to demand.

View logs and metrics of their applications to monitor performance. When using the NKP GUI, what type of access should the team configure?

- **A. NKP Role**
- B. Cluster Role
- C. Kommander Role
- D. Cluster Admin

**Answer: A**

#### NEW QUESTION # 36

.....

Our NCP-CN exam questions can meet your needs to the maximum extent, and our NCP-CN learning materials are designed to the greatest extent from the customer's point of view. So you don't have to worry about the operational complexity. As soon as you enter the learning interface of our system and start practicing our NCP-CN Learning Materials on our Windows software, you will find small buttons on the interface. It is very easy and convenient to use and find.

**Valid NCP-CN Test Forum:** [https://www.real4test.com/NCP-CN\\_real-exam.html](https://www.real4test.com/NCP-CN_real-exam.html)

Real4test is the preeminent platform, which offers NCP-CN Nutanix Certified Professional - Cloud Native v6.10 Exam Dumps duly equipped by experts, Nutanix NCP-CN Exam Pass Guide Some practice materials keep droning on the useless points of knowledge, Nutanix NCP-CN Exam Pass Guide Even if you are laid off by your company, there is no point in thinking that you couldn't make it and that it's the end of the road, Nutanix NCP-CN Exam Pass Guide You can contact with our service, and they will give you the most professional guide.

Using Blockers Base Classes, Instead, you get access to the Valid Exam NCP-CN Braindumps tens of millions of tracks hosted by the streaming service, and listen to them anywhere there's an Internet connection.
