Up to now, no one has ever challenged our leading position of this area. The existence of our CCSP learning guide is regarded as in favor of your efficiency of passing the exam. And the pass rate of our CCSP training braindumps is high as 98% to 100%.

ISC Certified Cloud Security Professional Sample Questions (Q182-Q187):

NEW QUESTION # 182
With software-defined networking (SDN), which two types of network operations are segregated to allow for granularity and delegation of administrative access and functions?

- A. Firewalling and forwarding
- B. Filtering and forwarding
- C. Filtering and firewalling
- D. Forwarding and protocol

Answer: B

Explanation:
Explanation
With SDN, the filtering and forwarding capabilities and administration are separated. This allows the cloud provider to build interfaces and management tools for administrative delegation of filtering configuration, without having to allow direct access to underlying network equipment. Firewalling and protocols are both terms related to networks, but they are not components SDN is concerned with.

NEW QUESTION # 183
There is a large gap between the privacy laws of the United States and those of the European Union.
Bridging this gap is necessary for American companies to do business with European companies and in European markets in many situations, as the American companies are required to comply with the stricter requirements.
Which US program was designed to help companies overcome these differences?

- A. SOX
- B. Safe Harbor
- C. HIPAA
- D. GLBA

Answer: B

Explanation:
Explanation/Reference:
Explanation:
The Safe Harbor regulations were developed by the Department of Commerce and are meant to serve as a way to bridge the gap between privacy regulations of the European Union and the United States. Due to the lack of adequate privacy laws and protection on the federal level in the US, European privacy regulations generally prohibit the exporting of PII from Europe to the United States. Participation in the Safe Harbor program is voluntary on the part of US organizations. These organizations must conform to specific requirements and policies that mirror those from the EU, thus possibly fulfilling the EU requirements for data sharing and export. This way, American businesses can be allowed to serve customers in the EU. The Health Insurance Portability and Accountability Act (HIPAA) pertains to the protection of patient medical records and privacy. The Gramm-Leach-Bliley Act (GLBA) focuses on the use of PII within financial institutions. The Sarbanes-Oxley Act (SOX) regulates the financial and accounting practices used by organizations in order to protect shareholders from improper practices and errors.

NEW QUESTION # 184
Proper implementation of DLP solutions for successful function requires which of the following?

- A. Physical access limitations
- B. Physical presence

- C. Accurate data categorization
- D. USB connectivity

Answer: C

Explanation:
Explanation
DLP tools need to be aware of which information to monitor and which requires categorization (usually done upon data creation, by the data owners). DLPs can be implemented with or without physical access or presence. USB connectivity has nothing to do with DLP solutions.

NEW QUESTION # 185
DLP can be combined with what other security technology to enhance data controls?
Response:

- A. DRM
- B. Hypervisors
- C. Kerberos
- D. SIEM

Answer: A

NEW QUESTION # 186
Which of the following jurisdictions lacks a comprehensive national policy on data privacy and the protection of personally identifiable information (PII)?

- A. European Union
- B. Russia
- C. United States
- D. Asian-Pacific Economic Cooperation

Answer: C

Explanation:
The United States has a myriad of regulations focused on specific types of data, such as healthcare and financial, but lacks an overall comprehensive privacy law on the national level.
The European Union, the Asian-Pacific Economic Cooperation, and Russia all have national privacy protections and regulations for the handling the PII data of their citizens.

NEW QUESTION # 187
......

In order to let you have a deep understanding of our CCSP learning guide, our company designed the trial version for our customers.
