CIPS L3M6 Frequent Updates, Downloadable L3M6 PDF

L3M6 test questions have so many advantages that basically meet all the requirements of the user. If you have good comments or suggestions during the trial period, you can also give us feedback in a timely manner. Our study materials will give you a benefit as

Thanks, we do it all for the benefits of the user. L3M6 Study Materials look forward to your joining in.

CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q61-Q66):

NEW QUESTION #61

____ is the collection of laws and regulations on air quality, water quality, endangered wildlife, and other environmental factors.

- A. Environmental Charter
- B. Environmental Constitution
- C. Environmental Prescription
- D. Environmental Legislation

Answer: D

Explanation:

Environmental Legislation encompasses laws and regulations governing air/water quality, wildlife protection, and other ecological factors (e.g., UK's Environmental Protection Act 1990). The CIPS L3M6 module defines it as the legal framework ensuring compliance in supply chains-e.g., emission limits for transport. "Charter" (voluntary agreement), "Constitution" (broader governance), and "Prescription" (specific directive) are less accurate, making "Legislation" the correct LO2 term. Reference:

NEW QUESTION #62

Which of the following 'Impact on the local community' factors would you be considering when developing location strategies for stores and warehouses? Select all that apply.

- A. Planning permission
- B. Will create jobs
- C. Will lead to an increase in the number of heavy goods vehicles in an area
- D. The use of the adjacent land
- E. C and D

Answer: E

Explanation:

Community impact includes job creation (C) and increased traffic from heavy goods vehicles (D), as these directly affect local residents. Planning permission (A) and adjacent land use (B) are regulatory or planning factors, not direct community impacts. The CIPS L3M6 syllabus identifies C and D as key considerations, making them correct.

Reference:

NEW QUESTION # 63

What does A-G-V stand for?

- A. Aerodynamic green vehicles
- B. Automated guided vehicles
- C. Automated green vehicles
- D. Aerodynamic guided vehicles

Answer: B

Explanation:

A-G-V stands for Automated Guided Vehicles, which are robotic vehicles used in warehouses and distribution centers to transport materials without human intervention. These vehicles follow predefined paths, often guided by magnetic strips, lasers, or sensors, to move inventory efficiently. The CIPS L3M6 syllabus highlights AGVs as part of automated material handling systems, which improve efficiency, reduce labor costs, and enhance safety by minimizing human involvement in repetitive tasks. Options like "Aerodynamic green vehicles" or "Automated green vehicles" may sound plausible but are incorrect as they do not align with the standard

terminology used in warehousing contexts.	
Reference:	

NEW QUESTION #64

When a new factory is built in the middle of the countryside, it is known as?

- · A. Ground Take
- B. Ground Claim
- C. Land Claim
- D. Land Take

Answer: D

Explanation:

Land Take describes converting rural land for industrial use, like a factory, per CIPS L3M6 module. It's an LO2 concern due to habitat loss and emissions from new supply chains. Other terms lack this specificity, making "Land Take" correct. Reference:

NEW QUESTION #65

Categorised emissions fall into three areas. Which one includes indirect emissions from activities outside an organization's own operations, for example, contracted transport?

- A. Scope 1
- B. Scope 3
- C. Scope 2

Answer: B

Explanation:

Scope 3 encompasses indirect emissions from activities outside an organization's direct control, such as contracted transport, employee commuting, or supplier operations. The CIPS L3M6 module highlights Scope 3 as the broadest and often most significant category in supply chains, covering upstream (e.g., raw material extraction) and downstream (e.g., product disposal) emissions. Contracted transport, like third-party logistics using diesel trucks, falls here, as the organization doesn't own the vehicles but is responsible for their emissions impact. This scope is vital in LO2, as it drives procurement strategies like selecting low-emission logistics partners to reduce the carbon footprint holistically. Reference:

NEW QUESTION #66

.....

To make preparation easier for you, VCE4Plus has created an L3M6 PDF format. This format follows the current content of the CIPS L3M6 real certification exam. The L3M6 dumps PDF is suitable for all smart devices making it portable. As a result, there are no place and time limits on your ability to go through CIPS L3M6 Real Exam Questions pdf.
