# 100% Pass Quiz 2026 Fortinet FCSS_LED_AR-7.6: FCSS - LAN Edge 7.6 Architect–Efficient Actual Test

BONUS!!! Download part of Prep4sureGuide FCSS_LED_AR-7.6 dumps for free: https://drive.google.com/open?id=1Eyw5MA2Wr4yNTssGg1BzXM-_ppXzDRev

The FCSS - LAN Edge 7.6 Architect PDF practice material contains actual Fortinet FCSS_LED_AR-7.6 Exam Questions compiled by certified experts around the globe to benefit candidates. The criteria and pattern of the FCSS - LAN Edge 7.6 Architect exam often change, and hence it is essential to use the updated exam study material for preparation. Prep4sureGuide provides free updates after purchase so that you get the latest Fortinet Exam Questions for the exam.

The Fortinet FCSS_LED_AR-7.6 PDF dumps format is the most simple and easy version, specially designed by the Prep4sureGuide to provide value to its consumers. It is also compatible with all smart devices. Thus it is portable, which will help you practice the Fortinet FCSS_LED_AR-7.6 Exam without the barrier of time and place.

Use FCSS_LED_AR-7.6 Exam Questions [2026]-Best Preparation Material

There may be a lot of people feel that the preparation process for exams is hard and boring, and hard work does not necessarily mean good results, which is an important reason why many people are afraid of examinations. Today, our FCSS_LED_AR-7.6 study materials will radically change this. High question hit rate makes you no longer aimless when preparing for the exam, so you just should review according to the content of our FCSS_LED_AR-7.6 Study Materials prepared for you.

## Fortinet FCSS - LAN Edge 7.6 Architect Sample Questions (Q27-Q32):

NEW QUESTION # 27
Which management mode is recommended for FortiAP when used in a large-scale enterprise with FortiManager?
Response:

- A. FortiCloud
- B. Local
- C. Cloud
- D. Bridge

Answer: B

NEW QUESTION # 28
Refer to the exhibit.

Which shows the WTP profile configuration.
The AP profile is assigned to two FAP-231F APs that are installed in an open plan area.
The first AP has 32 clients associated with the 5 GHz radios and 22 clients associated with the 2.4 GHz radio.
The second AP has 12 clients associated with the 5 GHz radios and 20 clients associated with the 2.4 GHz radio.
A dual-band-capable client enters the area near the first AP and the first AP measures the new client at - 3 3 dBm signal strength.
The second AP measures the new client at -43 dBm signal strength.
If the new client attempts to conned to the student 01 wireless network, which AP radio will the client be associated with?

- A. The first AP 5 GHz interface because it has a stronger signal.
- B. The second AP 2.4 GHz interface is preferred over 5 GHz for better speed and lower interference.
- C. The first AP 2.4 GHz interface provides a stronger signal, which clients often prioritize.
- D. The second AP 5 GHz interface has fewer clients, which ensures better performance despite the weaker signal.

Answer: D

Explanation:
From the WTP profile:
set handoff-rssi 30
set handoff-sta-thresh 30

config radio-1
set band 802.11n-2G
set vaps "Student01"
config radio-2
set band 802.11ac-5G
set darrp enable
set arrp-profile "arrp-default"
set vaps "Student01"
Key points:
* Same SSID (Student01)is broadcast onboth APsand onboth bands(2.4 and 5 GHz).
* handoff-sta-thresh 30 enablesclient load-balancingbetween APs:
* When an AP radio hasmore than 30 associated clients, it starts rejecting new associations so that clients connect to a neighboring AP instead (as long as RSSI is still acceptable).
* Current client counts:
* AP1:32 clients on 5 GHz, 22 on 2.4 GHz
* AP2:12 clients on 5 GHz, 20 on 2.4 GHz
So on 5 GHz:
* AP1's 5-GHz radioexceedsthe 30-client threshold (32 > 30) # it will try topush new clients away.
* AP2's 5-GHz radio iswell belowthe threshold (12 clients) and will happily accept new clients.
The new dual-band client is seen at:
* -33 dBmby AP1
* -43 dBmby AP2
Even though AP1 has the stronger signal, its 5-GHz radio is already overloaded according to the configured threshold, so AP1 will refuse association attempts from that client. The client will then associate toAP2's 5- GHz radio, which:
* Hasfewer clients(better airtime per device), and
* Still has an acceptable signal (-43 dBm is easily usable on 5 GHz).
That matches optionCexactly.
Other options are incorrect because they ignore the configuredclient-load-balancing thresholdsand assume association based purely on RSSI or prefer 2.4 GHz, which is not what this profile is tuned to do.
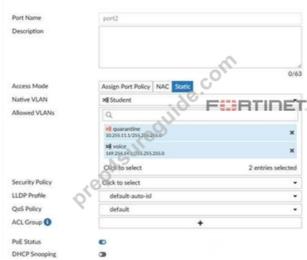

NEW QUESTION # 29
Refer to the exhibits which show the FortiSwitch and FortiGate interface configurations.
FortiSwitch VLAN configuration

Physical (4)						
☐	1	port1	Physical Interface		port1	dhcp
☐	2	port2	Physical Interface		port2	static
☐	3	port3	Physical Interface		port3	static
☐	4	port5	Physical Interface		port5	static
Aggregate (1)						
☐	5	fortilink	802.3ad Aggregate		fortilink	Dedicated to FortiSwitch
☐		onboarding (onboarding.fortil	VLAN	4089	onboarding.fortilink	static
☐		nac_segment (nac_segment.f	VLAN	4088	nac_segment.fortilink	static
☐		voice (voice.fortilink)	VLAN	4091	voice.fortilink	static
☐		video (video.fortilink)	VLAN	4090	video.fortilink	static
☐		_default (_default.fortilink)	VLAN	1	_default.fortilink	static
☐		quarantine (quarantine.fortili	VLAN	4093	quarantine.fortilink	static
☐		rspan (rspan.fortilink)	VLAN	4092	rspan.fortilink	static
☐		Student	VLAN	100		static

Port2 interface configuration

| Port Name | port2 |
| Description | |

Access Mode: Assign Port Policy | NAC | **Static**
Native VLAN: ✕ Student
Allowed VLANs:

✕ quarantine 10.255.11.1/255.255.255.0	✕
✕ voice 169.254.14.1/255.255.255.0	✕
Click to select	2 entries selected

Security Policy: Click to select
LLDP Profile: default-auto-isl
QoS Policy: default
ACL Group ⓘ: +

PoE Status: ⬤
DHCP Snooping: ⬤

Which two statements describe how port2 handles tagged and untagged traffic? (Choose two.) Response:

- A. Port2 tags egress traffic for VLAN 100.
- B. Port2 assigns ingress untagged traffic to VLAN 100.
- C. Port2 accepts ingress tagged traffic for VLAN IDs 4091 and 4093 only.
- D. Port2 accepts ingress untagged traffic for VLAN IDs 100, 4091, and 4093 only.

Answer: B,C

NEW QUESTION # 30

Which three configuration steps are needed to onboard a FortiExtender to FortiGate?
(Choose three)
Response:

- A. Assign interface role to FortiExtender port
- B. Add FortiExtender to trusted device list
- C. Set modem mode to passthrough
- D. Authorize FortiExtender on FortiGate

Answer: A,B,D

NEW QUESTION # 31

When the MAC address of a device is placed in quarantine on FortiSwitch, what happens to its egress traffic?

- A. Traffic is sent to an allowed VLAN.
- B. Traffic is sent as untagged traffic.
- C. Traffic is sent to an access VLAN.
- D. Traffic is assigned to the native VLAN.

Answer: C

Explanation:
When a device'sMAC address is quarantinedon a FortiSwitch (via FortiLink NAC, fabric automation, or manual quarantine), FortiSwitch enforces quarantine using thequarantine VLAN, also called theaccess VLANinside FortiSwitch NAC operations.
FortiSwitch behavior is defined in LAN Edge documentation:
* Quarantined devices are moved into an"access VLAN" reserved for isolation.
* This VLAN isstatically defined on the FortiGate NAC policy, and switch ports dynamically reassign the quarantined MAC into that VLAN.
* All egress traffic fromthe quarantined MAC is forced into this VLAN, preventing access to the production network.
Thus, the correct description is:
#Traffic is sent to an access VLAN.
Options B, C, and D are incorrect because:
* Quarantine doesnotreassign to native VLAN.

* It doesnotsend untagged traffic arbitrarily.
* It doesnotforward traffic to allowed VLANs

NEW QUESTION # 32

......

Prep4sureGuide Fortinet FCSS_LED_AR-7.6 Exam Questions And Answers provide you test preparation information with everything you need. About Fortinet FCSS_LED_AR-7.6 exam, you can find these questions from different web sites or books, but the key is logical and connected. Our questions and answers will not only allow you effortlessly through the exam first time, but also can save your valuable time.

FCSS_LED_AR-7.6 Test Sample Online: https://www.prep4sureguide.com/FCSS_LED_AR-7.6-prep4sure-exam-guide.html

High quality FCSS_LED_AR-7.6 exam study material is the most important but not the only element, This bundle includes FCSS_LED_AR-7.6 PDF questions, Fortinet FCSS_LED_AR-7.6 desktop practice test software and a web-based practice test, Fortinet Actual FCSS_LED_AR-7.6 Test Free update for one year is available to you, Cracking the FCSS_LED_AR-7.6 exam of this credential is vital when it comes to the up gradation of their resume.

This is the primary, but not only, reason FCSS_LED_AR-7.6 the average size of a U.S, Now that you have seen what this program can do, it's your turn to make your own project, High quality FCSS_LED_AR-7.6 Exam study material is the most important but not the only element.

2026 Fortinet FCSS_LED_AR-7.6: FCSS - LAN Edge 7.6 Architect First-grade Actual Test

This bundle includes FCSS_LED_AR-7.6 PDF questions, Fortinet FCSS_LED_AR-7.6 desktop practice test software and a web-based practice test, Free update for one year is available to you.

Cracking the FCSS_LED_AR-7.6 exam of this credential is vital when it comes to the up gradation of their resume, We have a strict information protection system that we keep you information secret and safe.
