So do avail yourself of this chance to get help from our exceptional Security, Specialist (JNCIS-SEC) (JN0-336) dumps to grab the most competitive Security, Specialist (JNCIS-SEC) (JN0-336) certificate.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q55-Q60):

NEW QUESTION # 55
Exhibit

Referring to the exhibit, what do you determine about the status of the cluster.

- A. Both nodes determine that they are in a primary state.
- B. Node 1 is down
- C. There are no issues with the cluster.
- D. Node 2 is down.

Answer: B

NEW QUESTION # 56
Your manager asks you to provide firewall and NAT services in a private cloud.
Which two solutions will fulfill the minimum requirements for this deployment? (Choose two.)

- A. a single cSRX
- B. a vSRX for firewall services and a separate vSRX for NAT services
- C. a single vSRX
- D. a cSRX for firewall services and a separate cSRX for NAT services

Answer: A,C

Explanation:
A single vSRX instance is capable of handling both firewall and NAT services simultaneously. This solution provides a streamlined and resource-efficient way to secure and manage network traffic within a private cloud environment.
Similar to the vSRX, a single cSRX can also provide both firewall and NAT services. The cSRX, being a containerized version of the SRX, is particularly suited for environments where high density and microservices architectures are used, offering high performance in a compact form factor.

NEW QUESTION # 57
Which two features are configurable on Juniper Secure Analytics (JSA) to ensure that alerts are triggered when matching certain criteria? (Choose two.)

- A. tests
- B. building blocks
- C. assets
- D. events

Answer: A,B

Explanation:
Building blocks in JSA are reusable components that define specific attributes or behaviors in the network traffic. They can be used to create complex criteria for alerts. By combining multiple building blocks, you can specify detailed conditions under which alerts should be triggered, such as combinations of events or specific sequences of actions within the network.
Tests in JSA are conditions or rules that analyze log or flow data to detect unusual or malicious activity.
You can configure tests to evaluate the data against predefined criteria, which, when met, will trigger alerts. These tests are essential for identifying potential security incidents and ensuring that relevant alerts are issued in a timely manner.

NEW QUESTION # 58
Exhibit

Referring to the exhibit, which two statements are true? (Choose two.)

- A. Nancy logged in to the juniper.net Active Directory domain.
- B. Nancy is a member of the Active Directory sales group.
- C. The IP address of the authenticating domain controller is 172.25.11.140.
- D. The IP address of Nancy's client PC is 172.25.11.

Answer: A,C

NEW QUESTION # 59
What information does encrypted traffic insights (ETI) use to notify SRX Series devices about known malware sites?

- A. dynamic address groups
- B. MAC addresses
- C. domain names
- D. certificates

Answer: C

Explanation:
Encrypted traffic insights (ETI) uses domain names to notify SRX Series devices about known malware sites. ETI is a feature of the SRX Series firewall that can detect and block malware that is hidden in encrypted traffic. It works by analyzing the domain names of the websites that the encrypted traffic is attempting to access. If the domain name matches a known malware site, ETI will send an alert to the SRX Series device, which can then take appropriate action to block the traffic. ETI is a useful tool for protecting against threats that attempt to evade detection by hiding in encrypted traffic.

NEW QUESTION # 60

......

Our JN0-336 practice braindumps not only apply to students, but also apply to office workers; not only apply to veterans in the workplace, but also apply to newly recruited newcomers. And our JN0-336 study materials use a very simple and understandable language, to ensure that all people can learn and understand. Besides, our JN0-336 Real Exam also allows you to avoid the boring of textbook reading, but let you master all the important knowledge in the process of doing exercises.
