SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q57-Q62):

NEW QUESTION # 57

An inspection plan group includes multiple inspection plans with different group counters. What determines the selected inspection plan when you create an inspection lot?

- A. Material type
- B. Sample size
- C. Lot size
- D. Procurement type of the material

Answer: C

NEW QUESTION # 58

Your customer wants to periodically calibrate the quality management test equipment used in an inspection plan. Which type of test equipment must be used?

- A. Production resource/ tools PRTs
- B. Materials
- C. Documents
- D. Equipment

Answer: D

NEW QUESTION # 59

You post a goods receipt for a purchasing document and inspection type 01 is active in the material master.

The supplier has not provided the mandatory quality certificate. Which of the following process steps is possible? Note: There are 2 correct answers to this question.

- A. Posting of the usage decision
- B. Recording of defects
- C. Confirmation of certificate receipt after usage decision
- D. Recording of inspection results

Answer: B,D

Explanation:

For inspection type 01 (Goods Receipt) with a missing mandatory certificate (set in the quality info record, transaction QI01):

* Recording of Inspection Results (B): The inspection lot is created (status CRTD), and you can record results (transaction QE51N) even without the certificate, as this step precedes the usage decision (UD).

* Recording of Defects (D): Defects can be recorded (e.g., via QE51N or QF01) during inspection, regardless of certificate status,

to document issues found.

* Confirmation of Certificate Receipt After Usage Decision (A): Certificate receipt must be confirmed before UD if mandatory (controlled by the "Certificate Check" setting); this option is not possible post- UD.

* Posting of the Usage Decision (C): UD (transaction QA11) is blocked if the certificate is mandatory and missing, as the system sets a status (e.g., CCRQ) until resolved.

Thus, "Recording of inspection results" and "Recording of defects" are the correct answers. References: SAP Help Portal - "Certificate Processing in Procurement"; SAP S/4HANA QM User Guide - "Inspection Lot Processing".

NEW QUESTION # 60

Your consumer wants to perform an inspection at the vendor's site instead of performing one during goods receipt..... Where must you change the settings in the system?

- A. Quality info record in procurement
- B. Vendor master
