ServiceNow CIS-SPM Exam Syllabus Topics:

Topic	Details
Topic 1	• Identity and Access Management: This section explores authentication methods and technologies, authorization and access control models, and the identity management lifecycle.
Topic 2	• Information Security Governance: This section of the exam delves into security management concepts and principles, examining organizational structures and roles in security. It also covers developing and implementing security policies, standards, and procedures.
Topic 3	• Privacy Management: This section covers privacy principles and regulations, privacy impact assessments, data protection techniques, and the concepts of privacy by design.
Topic 4	• Security Operations: In this section, the focus is on security monitoring and analytics, incident response and management, forensics and investigations, and patch and vulnerability management.
Topic 5	• Asset Security: This section focuses on information and asset classification, data security controls, privacy protection measures, and intellectual property protection.
Topic 6	• Communication and Network Security: This section covers network architecture and design, secure communication protocols, wireless network security, and strategies to defend against network attacks.
Topic 7	• Software Development Security: This section emphasizes securing the software development lifecycle, including application security testing, code review, secure coding practices, and third-party software management.
Topic 8	• Regulatory Compliance and Legal Issues: This section addresses risk management and risk assessment methodologies, including threat modeling and vulnerability assessment. It also explores various risk mitigation strategies.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q36-Q41):

NEW QUESTION # 36
Which statement defines the Project Workspace?

- A. A central location transform the navigation of lists and forms into an interactive graphical experience
- B. A central location for viewing and assessing business demands
- C. A central location for creating and managing projects
- D. A central location to view of all projects in a portfolio to prioritize work

Answer: C

Explanation:
According to the ServiceNow documentation1, the Project Workspace is a central location for creating and managing projects. It provides a graphical interface that allows users to view and edit project information, such as tasks, resources, risks, issues, and dependencies. The Project Workspace also enables users to collaborate with team members and stakeholders, track project progress, and generate reports.
The other options are incorrect because:
A . A central location to view of all projects in a portfolio to prioritize work: This describes the Portfolio Workbench, not the Project Workspace2.
C . A central location transform the navigation of lists and forms into an interactive graphical experience: This describes the Lens, not the Project Workspace3.

D . A central location for viewing and assessing business demands: This describes the Demand Workbench, not the Project Workspace.

NEW QUESTION # 37
What does the project status report allow project managers to do?
Choose 2 answers

- A. View the project Gantt chart
- B. View the WBS
- C. Print as a PDF attachment
- D. Show historical trend of project KPI's

Answer: C,D

Explanation:
The project status report allows project managers to do the following:
Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.
Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.

NEW QUESTION # 38
Which personas can request an attribute-based resource assignment?
Choose 2 answers

- A. Idea manager
- B. Business stakeholder
- C. Demand manager
- D. Project manager

Answer: C,D

NEW QUESTION # 39
Which related lists should primarily be used to capture financial data in a project?
Choose 2 answers

- A. Monetary Benefit Plans
- B. Cost Plans
- C. Programs
- D. Risks

Answer: A,B

Explanation:
Cost Plans and Monetary Benefit Plans are the related lists that should primarily be used to capture financial data in a project. Cost Plans allow you to define the expected costs of a project over time, based on the planned and actual work, resources, and expenses. Monetary Benefit Plans allow you to define the expected financial benefits of a project over time, based on the estimated and realized value, revenue, and savings. You can find more information about these related lists in the Product Documentation for ServiceNow.

NEW QUESTION # 40

A program is a container for the following except for:

- A. Program tasks
- B. Portfolios
- C. Cost plans
- D. Issues

Answer: B

Explanation:
Explanation
According to the ServiceNow documentation1, a program is a container for the following:
Program tasks: Tasks that define the scope and deliverables of the program2.
Issues: Problems that affect the program or its outcome3.
Cost plans: Plans that estimate the cost of the program and its components4.
A portfolio is not a part of a program, but rather a collection of programs and projects that are aligned with a strategic goal or objective.
