Get Success in Supermicro SMI300XE Exam With an Unbelievable Score

As the saying goes, time is the most precious wealth of all wealth. If you abandon the time, the time also abandons you. So it is also vital that we should try our best to save our time, including spend less time on preparing for exam. Our MI300X Expert

(SMI300XE) Certification Exam guide torrent will be the best choice for you to save your time. Because our products are designed by a lot of experts and professors in different area, our SMI300XE exam questions can promise twenty to thirty hours for preparing for the exam. If you decide to buy our SMI300XE Test Guide, which means you just need to spend twenty to thirty hours before you take your exam. By our SMI300XE exam questions, you will spend less time on preparing for exam, which means you will have more spare time to do other thing. So do not hesitate and buy our MI300X Expert (SMI300XE) Certification Exam guide torrent.

Supermicro MI300X Expert (SMI300XE) Certification Exam Sample Questions (Q16-Q21):

NEW QUESTION # 16

The ROCm commands are not providing output or are failing. What could be the primary reason why?
And how can you validate the reasoning?

- A. CPU is not installed correctly on the server. Review the OS dmesg logs for any odd CPU messages, then if located proceed to reseal the CPU.
- **B. You suspect there are GPUs not detected. To determine which GPUs are missing, open the IPMI GUI and review the GPU component section to make sure all GPUs are present.**
- C. The GPU baseboard may not be detected. You can determine this by opening the IPMI GUI and reviewing the FW section.
- D. If more than 3 GPUs are missing, then ROCm commands will not function. We need to verify that the 3 are missing in the IPMI GUI and review the GPU component section to make sure that at least 2 or fewer GPUs are missing.

Answer: B

Explanation:

If ROCm commands fail to provide output, the primary issue is likely missing or undetected GPUs. The best way to validate this is by checking the IPMI GUI and reviewing the GPU component section to ensure that all GPUs are present.

* Option A (Correct): Missing GPUs are the most common cause of ROCm failures. The IPMI GUI provides visibility into which GPUs are detected.

* Option B (Incorrect): CPU misalignment would cause general system failure, not ROCm-specific issues.

* Option C (Incorrect): The GPU baseboard status can be checked in IPMI but is not the primary cause of ROCm failures.

* Option D (Incorrect): ROCm can function with multiple missing GPUs, but the key issue is confirming GPU presence first.

NEW QUESTION # 17

When removing the GPU tray, where are the two screws located that must be loosened to allow the handles to be pulled out/down?

- **A. One on each side of the GPU tray**
- B. Bottom of the GPU tray
- C. One on top and one on bottom of the GPU tray
- D. Top of the GPU tray

Answer: A

Explanation:

To remove the GPU tray, you need to loosen two screws located one on each side of the tray.

* Option B (Correct): There is one screw on each side that must be loosened before pulling the handles out/down.

* Option A (Incorrect): The screws are not only on the top.

* Option C (Incorrect): The screws are not only on the bottom.

* Option D (Incorrect): There is no screw configuration with one on top and one on the bottom.

NEW QUESTION # 18

What information is shown in the IPMI storage monitoring section?

- A. Overheating issues
- **B. Attached storage devices**
- C. The motherboard
- D. Severity of health events

Answer: B

Explanation:

The IPMI storage monitoring section provides information about attached storage devices.

- * Option A (Incorrect): IPMI does not display motherboard details in this section.
- * Option B (Incorrect): Overheating issues are logged separately in the event logs.
- * Option C (Correct): IPMI storage monitoring tracks attached storage devices.
- * Option D (Incorrect): Severity of health events is found in system logs, not storage monitoring.

NEW QUESTION # 19

How many GPUs can be missing or undetected by the system to successfully execute the ROCm software commands?

- A. 0
- B. 1
- **C. 2**
- D. None

Answer: C

Explanation:

The ROCm software requires at least one GPU to function. It can still operate with up to 2 missing GPUs, but if 3 or more GPUs are missing, ROCm commands will fail.

- * Option A (Incorrect): ROCm fails if 3 GPUs are missing.
- * Option B (Incorrect): The software can function with more than 1 GPU missing.
- * Option C (Correct): ROCm can still execute commands if only 1 or 2 GPUs are missing.
- * Option D (Incorrect): At least 1 GPU must be detected for ROCm to work.

NEW QUESTION # 20

What is the main purpose of the AGFHC software tool?

- A. The AGFHC tool is used for checking support phone numbers and emails for AMD GPU support staff who should be the first point of contact for any issues related to AMD GPUs.
- **B. The AGFHC tool is used to diagnose and stress test components on the MI300X. This will help identify and validate component issues.**
- C. The AGFHC tool is used to support other platforms such as Mac OS and Windows so they can all share GPU system resources.
- D. The AGFHC tool is used to update firmware and BIOS on the GPU to ensure that it is up to date with the latest code.

Answer: B

Explanation:

The AGFHC tool is designed to diagnose and stress test system components in the MI300X platform, helping identify faults in GPUs, CPUs, and system hardware.

- * Option A (Correct): AGFHC is used for diagnostics and stress testing.
- * Option B (Incorrect): The tool does not enable cross-platform GPU resource sharing.
- * Option C (Incorrect): While it interacts with firmware, it does not update BIOS.
- * Option D (Incorrect): The tool is not a support contact directory.

NEW QUESTION # 21

.....

It is convenient for our consumers to check Supermicro SMI300XE exam questions free of charge before purchasing the MI300X Expert (SMI300XE) Certification Exam SMI300XE practice exam. To make the Supermicro SMI300XE exam questions content up-to-date for free of cost up to 365 days after buying them, our certified trainers work strenuously to formulate the exam questions in compliance with the MI300X Expert (SMI300XE) Certification Exam SMI300XE Dumps.

SMI300XE Practice Guide: <https://www.itcertmaster.com/SMI300XE.html>

Supernico Latest SMI300XE Test Report Along with the price advantage, we also offer insurance for clients, So every detail of our SMI300XE exam questions is perfect, Supernico Latest SMI300XE Test Report But once we start the thing, our potential will beyond what you think, Attending Itcertmaster, you will have best exam dumps for the certification of SMI300XE exam tests, The committed team of the Itcertmaster SMI300XE Practice Guide is always striving hard to resolve any confusion among its users.

When you're dealing with an unpredictable flow, the key SMI300XE to finding new opportunities is simply to open up to the entire world of possibilities, Purpose and Goals.

Along with the price advantage, we also offer insurance for clients, So every detail of our SMI300XE Exam Questions is perfect, But once we start the thing, our potential will beyond what you think.

Use Real SMI300XE Dumps [2025] Guaranteed Success

Attending Itcertmaster, you will have best exam dumps for the certification of SMI300XE exam tests, The committed team of the Itcertmaster is always striving hard to resolve any confusion among its users.
