# 100% Pass Quiz Unparalleled Practice 1Z0-1163-1 Tests - New Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Dumps Book

As is known to all, 1Z0-1163-1 practice guide simulation plays an important part in the success of exams. By simulation, you can get the hang of the situation of the real exam with the help of our free demo. Simulation of our 1Z0-1163-1 training materials make it possible to have a clear understanding of what your strong points and weak points are and at the same time, you can learn comprehensively about the 1Z0-1163-1 Exam. By combining the two aspects, you are more likely to achieve high grades.

We are a leading corporation in this line handling 1Z0-1163-1 study questions well with passing rate up to 98 and over percent, which is an unreachable goal for others. So our 1Z0-1163-1 preparation exam enjoys good sales for the excellent quality and reasonable prices in recent years. And we are so sure that we can serve you even better than you can imagine with our 1Z0-1163-1 learning guide since we are keeping on doing a better job in this career.

## Practice 1Z0-1163-1 Tests | Pass-Sure 1Z0-1163-1: Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1

Modern people are busy with their work and life. You cannot always stay in one place. So our three versions of the 1Z0-1163-1 exam questions are suitable for different situations. For instance, you can begin your practice of the 1Z0-1163-1 guide materials

when you are waiting for a bus or you are in subway with the PDF version. When you are at home, you can use the windows software and the online test engine of the 1Z0-1163-1 practice prep. And every version has its respect advantages.

## Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q36-Q41):

#### **NEW QUESTION #36**

Which metric is used to measure the effectiveness of the Demand to Management OMBP?

- A. Inventory Turnover.
- B. Supplier Lead Time.
- C. Forecast Accuracy.
- D. Customer Acquisition Cost.

#### Answer: C

#### Explanation:

Forecast Accuracy (C) measures the effectiveness of the Demand to Management OMBP by comparing predicted demand to actual demand, reflecting how well the process anticipates market needs. For example, if a forecast predicts 1,000 units and actual sales are 950, accuracy is 95%, indicating strong performance. Option A (Customer Acquisition Cost) is a marketing metric, unrelated to demand planning. Option B (Supplier Lead Time) assesses supplier performance, not forecasting. Option D (Inventory Turnover) measures stock movement, an outcome influenced by forecasting, not a direct metric. Accurate forecasts drive efficient inventory and production planning, reducing costs (e.g., avoiding \$10,000 in overstock) and ensuring customer satisfaction.

#### **NEW QUESTION #37**

Which two Oracle Redwood Design System UX features, when integrated with Oracle Fusion Applications SCM, deliver a superior user experience?

- A. Simplified User Interface (UI).
- B. Enhanced Mobile Accessibility.
- C. Advanced Data Visualization.
- D. Automated Task Management.

#### Answer: A,C

#### Explanation:

The Oracle Redwood Design System enhances Oracle Fusion Applications SCM's user experience with Simplified User Interface (UI) (C) and Advanced Data Visualization (D). The Simplified UI offers an intuitive, clutter-free design with consistent layouts and minimal clicks-e.g., a planner can access demand forecasts in two steps instead of navigating complex menus, boosting productivity. Advanced Data Visualization provides interactive charts and dashboards (e.g., a heat map of inventory levels), enabling users to quickly interpret complex data and make informed decisions. Option A (Enhanced Mobile Accessibility) is valuable but less transformative than UI simplicity and visualization for daily SCM tasks. Option B (Automated Task Management) is a functional feature, not a UX design element. Together, C and D reduce learning curves, enhance decision-making, and elevate user satisfaction.

#### **NEW QUESTION #38**

What is a key feature of the Back-to-Back Order Fulfillment process in Oracle Fusion Cloud SCM?

- A. It delays order fulfillment until inventory is replenished.
- B. It prioritizes warehouse stock over supplier sourcing.
- C. It links customer orders to supplier purchase orders, ensuring direct fulfillment.

#### Answer: C

#### Explanation:

The Back-to-Back Order Fulfillment process (A) in Oracle Fusion Cloud SCM links customer orders directly to supplier purchase orders, ensuring seamless fulfillment without relying solely on existing inventory. When a customer order is placed, the system automatically generates a corresponding PO to the supplier, who ships the goods directly or via the warehouse to the customer. For example, if a retailer orders a custom machine not in stock, Back-to-Back triggers a PO to the manufacturer, streamlining delivery. Option B is incorrect-it aims for efficiency, not delays. Option C is wrong-it prioritizes supplier sourcing over warehouse stock when

needed. This feature reduces inventory holding costs, improves cash flow, and ensures timely delivery, making it ideal for make-to-order scenarios.

#### **NEW QUESTION #39**

Which two capabilities within the Predict Demand process in the Demand to Management OMBP make it a powerful tool for demand planning and management?

- A. Machine Learning-based Forecasting.
- B. Demand Sensing.
- C. Collaborative Forecasting Platform.
- D. Statistical Forecasting.

#### Answer: A,C

#### Explanation:

The Predict Demand process within the Demand to Management OMBP in Oracle Fusion Cloud SCM leverages advanced capabilities to enhance demand planning. Collaborative Forecasting Platform (A) enables stakeholders-such as sales teams, suppliers, and distributors-to collaborate in real time, inputting qualitative insights (e.g., market trends or promotions) that refine forecasts beyond pure data analysis. For example, a retailer might adjust forecasts based on an upcoming sale confirmed via the platform, improving accuracy. Machine Learning-based Forecasting (B) uses algorithms to analyze historical data, detect patterns (e.g., seasonality or anomalies), and adapt predictions dynamically, making it more precise than traditional methods. For instance, it might identify a spike in demand for umbrellas during unexpected rainy seasons. Option C (Statistical Forecasting) is a traditional method relying on statistical models but lacks the adaptive intelligence of machine learning, though it's still used as a foundation. Option D (Demand Sensing) focuses on short-term demand signals (e.g., point-of-sale data) rather than long-term planning, making it complementary but not a core strength of Predict Demand. Together, A and B empower businesses with both human collaboration and cutting-edge AI, ensuring robust demand planning that balances quantitative and qualitative inputs.

#### **NEW QUESTION #40**

What is a key advantage of the Production Order to Cost Update OMBP in Oracle Fusion Cloud SCM?

- A. It automates the production process, requiring minimal human supervision.
- B. It enhances customer relationship management, leading to effective cost analysis.
- C. It provides accurate cost calculations, leading to better decision-making and improved profitability.
- D. It provides real-time cost updates, ensuring immediate financial benefits.

#### Answer: C

#### Explanation:

The Production Order to Cost Update process within Oracle Manufacturing Business Process (OMBP) in Oracle Fusion Cloud SCM ensures accurate cost calculations by capturing and updating costs associated with production orders, such as materials, labor, and overhead. This accuracy supports better decision-making and improves profitability by enabling precise cost analysis and pricing strategies. Option A is irrelevant as it ties to CRM, not cost updates. Option B exaggerates automation-human oversight remains necessary. Option D focuses on real-time updates, which is secondary to the primary benefit of accuracy emphasized in Oracle documentation.

#### **NEW QUESTION #41**

....

We provide you with free demo to have a try before buying 1Z0-1163-1 training materials, so that you can have a better understanding of what you are going to buy. If you are content with the 1Z0-1163-1 exam dumps after trying, you just need to add them to your cart, and pay for them. You will get the downloading link within ten minutes. If you don't receive, just contact with us, we have professional stuff solve the problem for you. What's more, 1Z0-1163-1 Training Materials contain both questions and answers, and it's convenient for you to check the answers after practicing.
