The time and energy are all very important for the office workers. In order to get the 3V0-32.23 certification with the less time and energy investment, you need a useful and valid VMware study material for your preparation. 3V0-32.23 free download pdf will be the right material you find. The comprehensive contents of 3V0-32.23 practice torrent can satisfied your needs and help you solve the problem in the actual test easily. Now, choose our 3V0-32.23 study practice, you will get high scores.

The VMware 3V0-32.23 exam covers a range of topics, including cloud design principles, automation and orchestration, cloud monitoring and optimization, and cloud governance and compliance. Candidates will be tested on their ability to design and implement cloud infrastructure solutions that meet business requirements, as well as their knowledge of industry best practices and emerging technologies. Passing the VMware 3V0-32.23 Certification Exam demonstrates a high level of proficiency in cloud management and automation, and can help IT professionals advance their careers and increase their earning potential.

VMware 3V0-32.23 Exam Questions - Get Excellent Scores

Our 3V0-32.23 preparation exam have assembled a team of professional experts incorporating domestic and overseas experts and

scholars to research and design related exam bank, committing great efforts to work for our candidates. Most of the experts have been studying in the professional field for many years and have accumulated much experience in our 3V0-32.23 Practice Questions. So we can say that our 3V0-32.23 exam questions are the first-class in the market. With our 3V0-32.23 learning guide, you will get your certification by your first attempt.

VMware Cloud Management and Automation Advanced Design Sample Questions (Q175-Q180):

NEW QUESTION # 175

A customer is deploying vRealize Log Insight (vRLI) in their data centers.

The customer has the following:

- Three data centers in three geographical locations.
- Each site has 1000 logging sources that send events to vRLI.
- The customer has the following requirements:
 - Minimize the resources footprint in the management cluster where vRLI will be deployed. vRLI must be highly available with no single points of failure.
 - Logs collected from any data center must be protected against site failure.

Which three design decisions would the architect choose to achieve the requirements? (Choose three.)

- A. Configure logs forwarding from each data center to another one.
- B. Deploy nine vRLI "Medium" nodes in a single cluster in each data center.
- C. Configure logs forwarding from all data centers to a specific data center.
- D. Deploy four vRLI "Large" nodes in a single cluster in each data center.
- E. Configure filters to forward critical logs to central vRLI cluster.
- F. Configure filters to eliminate forwarding loops between vRLI clusters.

Answer: A,B,F

NEW QUESTION # 176

A customer requests a conceptual model for the Cloud Management solution.

What three selections would be included in a conceptual model? (Choose three.)

- A. Logging
- B. Workspace One Access
- C. Automation
- D. VMware Aria Operations for Logs
- E. VMware Aria Automation
- F. Monitoring

Answer: A,C,D

Explanation:

A conceptual model focuses on high-level capabilities and functions (such as Logging, Monitoring, and Automation) rather than specific products or implementations.

NEW QUESTION # 177

An administrator maintains multiple tenants on a vRealize Automation environment. Consumers of Tenant B have requested to modify their current tenant architecture from the default to incorporate their own mail servers so that their user base can respond to notifications for completing work items and approvals. Consumers of Tenant A insist that no change be made to their current mail settings.

Which design changes are required to the architecture to meet the requirements for both tenants?

- A. Log in to the default tenant as administrator and under the Administration tab, select Tenant B, then add and configure the requested new mail servers for the tenant.
- B. Log in to the default tenant as administrator and under the Administration tab, select Email Servers, then add and configure the additional new mail servers.
- C. Log in to Tenant B as a tenant administrator and under the Administration tab, select each mail server and click Override Global, then configure the requested new mail servers.

- D. Log in to Tenant B as an IaaS administrator and grant approval administrator privileges to the required user base of the tenant.

Answer: C

NEW QUESTION # 178

What role does VMware Aria Operations play within a Cloud Management logical design?

- A. Monitoring and maintaining IT infrastructure
- B. Analyzing financial data
- C. Managing human resources
- D. Creating marketing campaigns

Answer: A

NEW QUESTION # 179

An architect has been asked to design a configuration management solution.

Following an initial design workshop with the customer, the following information is known about the existing environment:

The customer already has deployed a VMware Software-Defined Data Center.

The customer is fully licensed for Aria Universal Suite - Standard.

The customer has a corporate policy stating that all user authentication must be completed using Active Directory.

The customer has sufficient budget for additional license purchases (if required).

The following solution requirements have been captured during the design workshop, the solution must:

Be capable of automating the deployment of software to managed virtual machines.

Provide configuration management capabilities.

Provide a centralized Single Sign-On (SSO) solution for all of the cloud management solution.

Which three design decisions would meet the requirement? (Choose three).

- A. VMware Aria Automation Config will be deployed.
- B. Workspace One Access will be deployed to provide a Single Sign-On solution for all VMware Aria cloud management components.
- C. Workspace ONE Access will be configured to use Active Directory as the authentication solution.
- D. VMware Aria Automation Orchestrator (standalone) will be deployed.
- E. VMware Aria Automation Orchestrator will be configured to use Workspace One Access as its authentication method.
- F. Workspace One Access will be configured to use the system domain for user authentication.

Answer: A,B,C

Explanation:

Deploying Workspace One Access provides a centralized SSO solution for all VMware Aria cloud management components.

VMware Aria Automation Config delivers the configuration management and software automation capabilities.

Configuring Workspace One Access to use Active Directory satisfies the corporate policy for user authentication.

NEW QUESTION # 180

.....

You can write down your doubts or any other question of our Cloud Management and Automation Advanced Design test questions. We warmly welcome all your questions. Our online workers are responsible for solving all your problems with twenty four hours service. You still can enjoy our considerate service after you have purchased our 3V0-32.23 test guide. If you don't know how to install the study materials, our professional experts can offer you remote installation guidance. Also, we will offer you help in the process of using our 3V0-32.23 Exam Questions. Also, if you have better suggestions to utilize our study materials, we will be glad to take it seriously.
