If you make up your mind of our PSM-I Exam Questions after browsing the free demos, we will staunchly support your review and give you a comfortable and efficient purchase experience this time.

## Scrum Professional Scrum Master I Sample Questions (Q166-Q171):

### NEW QUESTION # 166

Which of the following best describes an increment of working software?

- A. A new user interface design for functionality delivered in previous iterations.
- B. Additional features in a usable state that complement those delivered in previous iterations.
- C. UML diagrams that describe how to deliver functionality in future iterations.
- D. A decomposition of all Product Backlog items into tasks for future Sprint Backlog lists.
- E. An automated test suite to verify functionality delivered in previous iterations.

**Answer: B**

Explanation:

According to the Scrum Guide, an Increment is a concrete stepping stone toward the Product Goal. Each Increment is additive to all prior Increments and thoroughly verified, ensuring that all Increments work together. In order to provide value, an Increment must be usable. Multiple Increments may be created within a Sprint. The sum of the Increments is presented at the Sprint Review thus supporting empiricism. However, an Increment may be delivered to stakeholders prior to the end of the Sprint. The Sprint Review should never be considered a gate to releasing value. Therefore, the best description of an increment of working software is additional features in a usable state that complement those delivered in previous iterations.

**NEW QUESTION # 167**

Who determines how work is performed during the Sprint?

- A. The Scrum Master.
- B. Development Team managers.
- C. Architects.
- D. Subject matter experts.
- E. **The Development Team**

**Answer: E****NEW QUESTION # 168**

Which answer best describes the topics covered in Sprint Planning?

- A. How conditions have changed and how the Product Backlog should evolve.
- B. What went wrong in the last Sprint and what to do differently this Sprint.
- C. Who is on the team and what team member roles will be.
- D. What to do and who will do it.
- E. **What can be done and how to do it.**

**Answer: E****NEW QUESTION # 169**

What are the two primary ways a Scrum Master keeps a Development Team working at its highest level of productivity? (Choose the best two answers.)

- A. **By facilitating Development Team decisions.**
- B. **By removing impediments that hinder the Development Team**
- C. By ensuring the meetings start and end at the proper time.
- D. By keeping high value features high in the Product Backlog

**Answer: A,B****NEW QUESTION # 170**

Who is responsible for managing the progress of work during a Sprint?

- A. The Product Owner.
- B. The Scrum Master.
- C. The most junior member of the Team
- D. **The Development Team**

**Answer: D****NEW QUESTION # 171**

.....
