Salesforce Certified Experience Cloud Consultant Sample Questions (Q89-Q94):

NEW QUESTION # 89

In which two ways can Opportunities with a Community User be shared?

Choose 2 answers Calculator

- A. Create a criteria-based sharing rule with a Partner Community role.
- B. Add a Customer Community Plus profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- C. Add a Partner Community profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- D. Create an owner-based sharing rule with a Customer Community User.

Answer: A,C

NEW QUESTION # 90

Ursa Major Solar (UMS) has business and person accounts in its Salesforce org. UMS has partner portals created for its Silver partners, DreamHouse Realty (DR) and Cloud Kicks (CK).

UMS's Experience team is creating users for its partners. DR and CK users do not require access to opportunities, leads, and campaigns.

What are the two considerations for creating partner users and granting access?

Choose 2 answers

- A. Only business accounts can be created as partner users
- B. Assign Customer Community Plus license to partner users.
- C. Assign Partner Community license to partner users.
- D. Only person accounts can be created as partner users.

Answer: B,C

Explanation:

Two considerations for creating partner users and granting access are B and C. Partner users are external users who access your Experience Cloud site through a partner account. A partner account is an account that has the Is Partner checkbox enabled. To create partner users and grant access, you need to assign them a license type and a profile. Two license types that are suitable for partner users are Partner Community and Customer Community Plus. These license types allow partner users to access standard CRM objects, such as accounts, contacts, leads, opportunities, and cases, as well as custom objects and tabs. They also allow partner users to use roles and sharing rules to share records with other users.

NEW QUESTION # 91

What are three goals Ursa Major Solar can accomplish with experience Cloud moderation functionality?

Choose 3 answers

- A. Allow members to remove other member from the Experience site if desired.
- B. Track Flagging and moderation activity within the Experience site.
- C. Give members Audience Targeting permissions within the Experience site.
- D. Designer specific users as moderators so that they can closely monitor the site.
- E. Allow members to flag posts comments files, and messages that are inappropriate or spam.

Answer: B,D,E

Explanation:

UMS can accomplish three goals with Experience Cloud moderation functionality:

Track Flagging and moderation activity within the Experience site. Moderation functionality allows UMS to view reports and dashboards that show the flagging and moderation activity on its site, such as the number of flagged items, the number of moderated items, and the flagging reasons.

Allow members to flag posts comments files, and messages that are inappropriate or spam. Moderation functionality allows UMS to enable members to flag content that violates the site's guidelines or policies. Members can choose a flagging reason from a predefined list or enter their own reason.

Designer specific users as moderators so that they can closely monitor the site. Moderation functionality allows UMS to assign specific users as moderators who have permission to manage content on its site. Moderators can review flagged items, delete or edit inappropriate content, ban or warn abusive users, or escalate issues to administrators.
