Project 1

Overview:

Video Games

You are tracking video game popularity by compiling a workbook to document your findings.

Task 2:

On the Top 20 Videos worksheet, change the width of column C to 2.

答案:

解題說明:

Here are the complete solutions below.

Explanation:

Step-by-Step Instructions

\* Navigate to the Correct Worksheet:

\* Click on the tab labeled Top 20 Videos at the bottom of the Excel window to ensure you are on the correct sheet.

\* Select Column C:

\* Click on the letter C in the column header to select the entire column.

\* Open Column Width Settings:

\* Method A (Ribbon): Go to the Home tab. In the Cells group (towards the right), click Format.

Select Column Width... from the dropdown menu.

\* Method B (Right-click): Right-click directly on the column header "C". A context menu will appear. Click Column Width...

\* Enter the Width:

\* A small dialog box labeled "Column Width" will appear.

\* Type 2 in the box.

\* Click OK.

Visual Verification

Before: Column C (containing the "Year" data) is likely wider, fitting the four-digit years comfortably.

After: Column C will become very narrow. The "Year" header and the dates (like 2011, 1984) might display as hashes (#####)

because the column is now too narrow to display the numbers, or the text will simply be cut off. This is expected behavior for the

exam task; do not widen it back out unless instructed to do so.
