The AZ-800 training prep you see on our website are definitely the highest quality learning products on the market. Of course, the correctness of our AZ-800 learning materials is also very important, after all, you are going to take the test after studying. And a lot of our worthy customers praised our accuracy for that sometimes they couldn't find the AZ-800 Exam Braindumps on the other websites or they couldn't find the updated questions and answers. Just buy our AZ-800 study guide and you won't regret!

Microsoft AZ-800 exam is a certification exam for individuals who want to become certified in administering Windows Server Hybrid Core Infrastructure. AZ-800 exam is designed to test the candidate's knowledge of administering Windows Server core infrastructure in a hybrid environment. Passing AZ-800 exam will validate the candidate's skills in managing and maintaining core infrastructure components, including compute, storage, and networking.

Microsoft AZ-800 certification exam is a challenging and comprehensive test of an IT professional's skills in administering Windows Server Hybrid Core Infrastructure. Passing AZ-800 Exam demonstrates an individual's expertise in implementing and managing hybrid solutions that combine both on-premises and cloud resources. As hybrid infrastructure becomes more prevalent in the IT industry, this certification is becoming increasingly valuable for IT professionals looking to advance their careers.

Microsoft AZ-800 Latest Test Materials, New AZ-800 Test Cost

Since it is obvious that different people have different preferences, we have prepared three kinds of different versions of our AZ-800 practice test, PDF, Online App and software version. Last but not least, our customers can accumulate AZ-800 exam experience as well as improving their exam skills in the mock exam. What's more, our software version of AZ-800 practice materials can best simulate the real exam, but it can only be operated under the Windows operation system. I strongly believe that you can find the version you want in multiple choices of our AZ-800 practice test.

Microsoft Administering Windows Server Hybrid Core Infrastructure Sample Questions (Q191-Q196):

NEW QUESTION # 191

You have an on-premises server named Server 1 that runs Windows Server. Server 1 contains a file share named Share 1.

You have an Azure subscription.

You perform the following actions:

- * Deploy Azure File Sync
- * Install the Azure File Sync agent on Server1.
- * Register Server1 with Azure File Sync

You need to ensure that you can add Share1 as an Azure File Sync server endpoint.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

Explanation:

NEW QUESTION # 192

Your network contains a two-domain on-premises Active Directory Domain Services (AD DS) forest named Contoso.com. The forest contains the domain controllers shown in the following table.

You create an Active Directory site named Site3. Site1, Site2 and Site3 each has a dedicated site link to the Hub site.

In Site3, you install a new server named Server1.

You need to promote Server1 to an ROOC in child.contoso.com by using the install from Media (IFM) option. The solution must minimize network traffic.

What should you do? To answer select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 193

Your network contains an Active Directory Domain Services (AD DS) domain named contoso.com.

You need to identify which server is the PDC emulator for the domain.

Solution: From a command prompt, you run netdom.exe query fsmo.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 194

You have an on-premises Active Directory Domain Services (AD DS) domain that syncs with an Azure Active Directory (Azure AD) tenant. You have several Windows 10 devices that are Azure AD hybrid-joined.

You need to ensure that when users sign in to the devices, they can use Windows Hello for Business.

Which optional feature should you select in Azure AD Connect?
