

Valid FCSS_EFW_AD-7.6 Vce, FCSS_EFW_AD-7.6 Latest Dumps

P.S. Free & New FCSS_EFW_AD-7.6 dumps are available on Google Drive shared by ExamsTorrent:
https://drive.google.com/open?id=11bI54kp0Fuv_eW4_H4V8STfyaGrcchW-

We strongly recommend using our Fortinet FCSS_EFW_AD-7.6 exam dumps to prepare for the Fortinet FCSS_EFW_AD-7.6 certification. It is the best way to ensure success. With our FCSS - Enterprise Firewall 7.6 Administrator (FCSS_EFW_AD-7.6) practice questions, you can get the most out of your studying and maximize your chances of passing your FCSS - Enterprise Firewall 7.6 Administrator (FCSS_EFW_AD-7.6) exam.

Learning knowledge is just like building a house, our FCSS_EFW_AD-7.6 training materials serve as making the solid foundation from the start with higher efficiency. Even if this is just the first time you are preparing for the exam, you can expect high grade. Taking full advantage of our FCSS_EFW_AD-7.6 Preparation exam and getting to know more about them means higher possibility of it. And if you have a try on our FCSS_EFW_AD-7.6 exam questions, you will love them.

FCSS_EFW_AD-7.6 Latest Dumps, FCSS_EFW_AD-7.6 Exam Guide

Passing the FCSS_EFW_AD-7.6 exam certification will be easy and fast, if you have the right resources at your fingertips. As the advanced and reliable website, ExamsTorrent will offer you the best study material and help you 100% pass. FCSS_EFW_AD-7.6 online test engine can simulate the actual test, which will help you familiar with the environment of the FCSS_EFW_AD-7.6 real test. The FCSS_EFW_AD-7.6 self-assessment features can bring you some convenience. The 24/7 customer service will be waiting for you, if you have any questions.

Fortinet FCSS - Enterprise Firewall 7.6 Administrator Sample Questions (Q92-Q97):

NEW QUESTION # 92

Which statement about network processor (NP) offloading is true?

- A. For UDP traffic, the FortiGate CPU offloads the first packet to identify it as fast-path traffic.
- **B. When NP acceleration is enabled, firewall sessions may not offload if proxy-based security profiles are included in the firewall policy.**
- C. You can disable the NP for each firewall policy using the command np-acceleration set to loose.
- D. The FortiGate CPU offloads all firewall sessions that require FortiOS session helper to the network processing unit (NPU).

Answer: B

NEW QUESTION # 93

Refer to the exhibit, which shows the VDOM section of a FortiGate device.

Name	Management VDOM	Type	NGFW Mode
Core1		Traffic	Profile-based
Core2		Traffic	Profile-based
root		Traffic	Profile-based

An administrator discovers that webfilter stopped working in Core1 and Core2 after a maintenance window. Which two reasons could explain why webfilter stopped working? (Choose two.)

- A. The Core1 and Core2 VDOMs must also be enabled as Management VDOMs to receive FortiGuard updates
- **B. The root VDOM does not have access to any valid public FDN.**
- **C. The root VDOM does not have a VDOM link to connect with the Core1 and Core2 VDOMs.**
- D. The root VDOM does not have access to FortiManager in a closed network.

Answer: B,C

Explanation:

Since Core1 and Core2 are not designated as management VDOMs, they rely on the root VDOM for connectivity to external resources such as FortiGuard updates. If the root VDOM lacks a VDOM link to these VDOMs or cannot reach FortiGuard services, security features like web filtering will stop working.

NEW QUESTION # 94

A user reports that their computer was infected with malware after accessing a secured HTTPS website. However, when the administrator checks the FortiGate logs, they do not see that the website was detected as insecure despite having an SSL certificate and correct profiles applied on the policy.

How can an administrator ensure that FortiGate can analyze encrypted HTTPS traffic on a website?

- **A. The administrator must enable full SSL inspection in the SSL/SSH Inspection Profile to decrypt packets and ensure they**

are analyzed as expected.

- B. The administrator must enable DNS over TLS to protect against fake Server Name Indication (SNI) that cannot be analyzed in common DNS requests on HTTPS websites.
- C. The administrator must enable reputable websites to allow only SSL/TLS websites rated by FortiGuard web filter.
- D. The administrator must enable URL extraction from SNI on the SSL certificate inspection to ensure the TLS three-way handshake is correctly analyzed by FortiGate.

Answer: A

Explanation:

FortiGate, like other security appliances, cannot analyze encrypted HTTPS traffic unless it decrypts it first. If only certificate inspection is enabled, FortiGate can see the certificate details (such as the domain and issuer) but cannot inspect the actual web content.

To fully analyze the traffic and detect potential malware threats:

Full SSL inspection (Deep Packet Inspection) must be enabled in the SSL/SSH Inspection Profile.

This allows FortiGate to decrypt the HTTPS traffic, inspect the content, and then re-encrypt it before forwarding it to the user.

Without full SSL inspection, threats embedded in encrypted traffic may go undetected.

NEW QUESTION # 95

Refer to the exhibit.

An administrator is deploying a hub and spoke network and using OSPF as dynamic protocol. Which configuration is mandatory for neighbor adjacency?

- A. Set virtual-link enable in the hub interface
- **B. Set network-type point-to-multipoint in the hub interface**
- C. Set rfc1583-compatible enable in the router configuration
- D. Set bfd enable in the router configuration

Answer: B

Explanation:

In a hub-and-spoke topology using OSPF over IPsec VPNs, the point-to-multipoint network type is necessary to establish neighbor adjacencies between the hub and spokes. This network type ensures that OSPF operates correctly without requiring a designated router (DR) and allows dynamic routing updates across the IPsec tunnels.

NEW QUESTION # 96

Why do the firewall policy and reinstall preview show different address names during installation?

- A. Address mismatch
- B. Policy conflict
- C. Object corruption
- **D. Per-device mapping**

Answer: D

Explanation:

FortiManager uses a feature called per-device mapping (also referred to as dynamic mapping) to manage environments where different FortiGate devices require different values for the same object name. For example, an address object named "LAN" might represent 172.16.0.0/24 on one device and 192.168.0.0/24 on another.

When an administrator views the policy package in the FortiManager GUI, they see the common object name used across the ADOM. However, the reinstall preview generates the actual CLI commands that will be pushed to the specific FortiGate unit. This preview reflects the specific mapped value or name defined for that individual device, which is why the names or values may appear different from the generic policy view.

NEW QUESTION # 97

.....

ExamsTorrent offers latest braindumps pdf, braindumps sheet and braindumps questions. Real FCSS - Enterprise Firewall 7.6 Administrator FCSS_EFW_AD-7.6 Exams can help customers success in their career. Fortinet with best FCSS - Enterprise Firewall 7.6 Administrator study material help customers pass the FCSS - Enterprise Firewall 7.6 Administrator FCSS_EFW_AD-7.6 test. And the FCSS - Enterprise Firewall 7.6 Administrator FCSS_EFW_AD-7.6 price is affordable. With 365 days updates.

FCSS_EFW_AD-7.6 Latest Dumps: https://www.exams torrent.com/FCSS_EFW_AD-7.6-exam-dumps-torrent.html

You can download the free demo of FCSS_EFW_AD-7.6 test engine first, Fortinet Valid FCSS_EFW_AD-7.6 Vce You can choose from two modules: virtual exam and practice exam, Now, the market has a great demand for the people qualified with FCSS_EFW_AD-7.6 certification, For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the FCSS_EFW_AD-7.6 certification exam is the proven way to achieve these tasks quickly, We offer FCSS_EFW_AD-7.6 exam materials this time and support you with our high quality and accuracy FCSS_EFW_AD-7.6 learning quiz.

Preparing the Template, Create custom SharePoint applications to insert, modify, and delete business data, You can download the free demo of FCSS_EFW_AD-7.6 Test Engine first.

You can choose from two modules: virtual exam and practice exam, Now, the market has a great demand for the people qualified with FCSS_EFW_AD-7.6 certification, For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the FCSS_EFW_AD-7.6 certification exam is the proven way to achieve these tasks quickly.
