PK0-005 exam dumps of us also offer you free update for one year after purchasing, and our system will send the latest version to you automatically. Besides we have the online and offline chat service stuff, and if you have any questions about the PK0-005 Study Guide, you can consult them, and they will offer you the suggestions.

CompTIA Project+ Certification Exam (PK0-005) is designed for professionals who are interested in pursuing a career in project management. PK0-005 Exam is vendor-neutral, which means it is not tied to any specific technology or software. It is an excellent certification for individuals who wish to establish their expertise in project management techniques and principles. The CompTIA Project+ certification is a globally recognized credential that validates the skills required to manage and complete projects on time and within budget.

CompTIA Project+ Certification Exam Sample Questions (Q60-Q65):

NEW QUESTION # 60
Due to budgetary and time constraints, a PM scheduled a meeting with all stakeholders during the planning phase to review the requirements and come to an agreement on the minimum viable product that would be acceptable. Which of the following would be used to document this input?

- A. Project transition plan
- B. Project change management plan
- C. Project communication plan
- D. Project management plan

Answer: D

Explanation:
The project manager should use the project management plan to document the input from the stakeholders on the minimum viable product that would be acceptable for the project. The project management plan is a document that describes how the project will be executed, monitored, controlled, and closed. It usually includes information such as scope statement, work breakdown structure (WBS), schedule baseline, cost baseline, quality plan, risk plan, communication plan, stakeholder plan, and change management plan. The project management plan can help to define and communicate the project requirements, deliverables, assumptions, constraints, and expectations to all stakeholders involved in the project.
The project management plan would be used to document the input obtained from stakeholders during the meeting to review the requirements and agree on the minimum viable product. The project management plan is a comprehensive document that outlines the approach, scope, schedule, budget, quality, resources, and communication for a project. The document is updated throughout the project lifecycle and serves as a guide for project execution, monitoring, and control. References: CompTIA Project+ Study Guide, Chapter 3: Project Integration Management, Objective 3.3: Identify the components of the project management plan.

NEW QUESTION # 61
A project team has implemented a new system and needs to ensure it is usable. Which of the following should be performed first?

- A. Release external consultants.
- B. Decommission old systems.
- C. Monitor performance.
- D. Provide end-user training.

Answer: C

NEW QUESTION # 62
During a quality analysis review, the causes of several issues have been highlighted. Which of the following should the project manager use to identify the MOST important causes?

- A. Scatter diagram
- B. Ishikawa diagram
- C. Decision tree
- D. Pareto chart

Answer: D

Explanation:
Explanation
The Pareto chart should be used to identify the most important causes of issues during a quality analysis review. The Pareto chart is a graphical representation of the frequency and impact of different causes, helping to identify the most common and impactful causes.
References: CompTIA Project+ Study Guide Section 3.3.3

NEW QUESTION # 63
A PM has identified all the resources involved in a project. The next step is to identify which resources are responsible for which tasks. Which of the following should be used to document this information?

- A. WBS
- B. RACI
- C. RFI
- D. SOW

Answer: B

Explanation:
The RACI (Responsible, Accountable, Consulted, Informed) matrix is used to document which resources are responsible for which tasks. The RACI matrix is a tool that helps to clarify roles and responsibilities on a project. It assigns a level of responsibility to each resource involved in the project. References: CompTIA Project+ Study Guide Section 3.4.
The project manager should use a RACI matrix to document which resources are responsible for which tasks. A RACI matrix is a type of responsibility assignment matrix (RAM) that plots the roles and responsibilities of resources on a project team. RACI stands for Responsible, Accountable, Consulted, and Informed. A RACI matrix can help to clarify who does what on a project, avoid confusion and duplication of work, and improve communication and collaboration among team members.

NEW QUESTION # 64
A project manager is reviewing a signed legal document pertaining to the hiring of a vendor who will develop an experimental solution. The vendor could not provide accurate estimates at this time because the requirements will probably be changing. The document also contains information about the resources involved and the rates the vendor will charge for the work. Which of the following best describes the legal document the project manager is reviewing?

- A. Fixed-price contract
- B. Time and materials contract
- C. Master service agreement
- D. Non-disclosure agreement

Answer: B

Explanation:
A time and materials contract is a type of contract where the buyer pays the seller for the actual time and materials used during the project. This type of contract is suitable when the scope of work is uncertain or likely to change, and the vendor cannot provide accurate estimates. The document also specifies the resources involved and the rates the vendor will charge for the work12.
