

# 400-007 Reliable Real Exam, New APP 400-007 Simulations

What's more, part of that Prep4SureReview 400-007 dumps now are free: <https://drive.google.com/open?id=1oHd9tZ2iYZOGIudOc2NSYCRSFpBZrMqY>

All these 400-007 certification exam benefits will not only prove your skills but also assist you to put your career on the right track and achieve your career objectives in a short time period. These are all the advantages of the Cisco Certified Design Expert (CCDE) Written Exam (400-007) certification exam. To avail of all these advantages you just need to enroll in the Cisco exam dumps and pass it with good scores. To pass the 400-007 exam you can get help from Prep4SureReview Cisco Questions easily.

Cisco 400-007 exam is the written component of the CCDE certification, version 3.0. It is an advanced-level exam that tests the candidate's ability to design, analyze, and optimize complex network infrastructures. 400-007 exam covers a broad range of topics, including network design methodology, network design principles, network infrastructure, network security, and network management.

Cisco 400-007 Exam is a four-hour exam that consists of multiple-choice questions and simulation-based questions. 400-007 exam is designed to test the candidate's ability to design network infrastructures that meet the business requirements of an organization. 400-007 exam is conducted in English and is available globally at Pearson VUE testing centers.

## Pass Guaranteed Cisco - 400-007 - Cisco Certified Design Expert (CCDE) Written Exam Perfect Reliable Real Exam

With regard to the Internet, if you use our 400-007 study materials in a network environment, then you can use our products in a non-network environment. 400-007 learning guide guarantee that you can make full use of all your free time to learn, if you like. The reason why we emphasize this is that we know you have a lot of other things to do. Many users stated that they can only use fragmented time to learn. Experts at 400-007 practice prep also fully considered this point.

## Cisco Certified Design Expert (CCDE) Written Exam Sample Questions (Q478-Q483):

### NEW QUESTION # 478

Over the years, many solutions have been developed to limit control plane state, which reduces the scope or the speed of control plane information propagation. Which solution removes more specific information about a particular destination as topological distance is covered in the network?

- A. summarization
- B. aggregation
- C. back-off timers
- D. layering

**Answer: A**

Explanation:

Summarization is the process of combining more specific routes into a single, broader route to reduce the size of the routing table and limit the amount of control plane state. This reduces the amount of information that needs to be propagated through the network as the topological distance increases.

#### NEW QUESTION # 479

Refer to the table.

A customer investigates connectivity options for a DCI between two production data centers. The solution must provide dual 10G connections between locations with no single points of failure for Day 1 operations. It must also include an option to scale for up to 20 resilient connections in the second year to accommodate isolated SAN over IP and isolated, dedicated replication IP circuits. All connectivity methods are duplex 10 Gbps. Which transport technology costs the least over two years, in the scenario?

- A. CWDM
- **B. DWDM**
- C. MPLS
- D. Metro Ethernet

**Answer: B**

#### NEW QUESTION # 480

Refer to the exhibit A service provider has a requirement to use Ethernet OAM to detect end-to-end connectivity failures between SP-SW1 and SP- SW2 Which two ways to design this solution are true?

(Choose two)

- **A. Use upward maintenance endpoints on the SP switches**
- B. Forward E-LMI PDUs over VPLS
- **C. Enable Connectivity Fault Management on the SP switches**
- D. Forward LLD PDUs over the VPLS
- E. Enable unicast heartbeat messages to be periodically exchanged between MEPs

**Answer: A,C**

#### NEW QUESTION # 481

During evaluation of migrating current on-premises infrastructure to add cloud-based infrastructure, a network planning team must meet three core requirements as they make recommendations on which cloud strategy to adopt going forward.

- Technology is changing rapidly, therefore the enterprise must be open to adopting new ways of doing things, and be ready to invest CapEx- funds in the next three years.
- Network bandwidth capacity requirements are dynamic and are expected to change over the next year.
- If new technologies are to be introduced operational expenses must be kept at a minimum.

Which cloud strategy meets these requirements?

- A. private
- B. public
- **C. hybrid**
- D. multicloud

**Answer: C**

#### NEW QUESTION # 482

Refer to the exhibit. The WAN network of the General Bank of Greece has experienced several outages. It takes too long to activate a new branch site. The networking department of the bank plans to upgrade the legacy end-of-life WAN network with a new flexible, manageable, and scalable in-house solution. The number of branches will increase exponentially in the next fiscal year.

The CTO states that the bank's main goal is OPEX reduction. The network engineering team prepares a table to evaluate the available options. Which WAN technology can be used for the solution?

- A. Managed SD-WAN
- B. SD-WAN over L3VPN
- C. SD-WAN over L2VPN
- D. DMVPN over L3VPN

**Answer: D**

### NEW QUESTION # 483

To get all these benefits you must have to pass the Cisco Certified Design Expert (CCDE) Written Exam (400-007) certification exam which is not an easy task. It is a difficult task but you can make Prep4SureReview simple and quick. To do this you just visit Exams. Solutions provide updated, valid, and actual 400-007 Exam Dumps that will assist you in Cisco Certified Design Expert (CCDE) Written Exam (400-007) exam preparation and you can easily get success in this challenging Cisco Certified Design Expert (CCDE) Written Exam exam with flying colors.
