熱門的C-SEC-2405認證指南和有效的SAP認證培訓 - 100%合格率SAP SAP Certified Associate - Security Administrator

我們Fast2test SAP的C-SEC-2405考試 的問題包含了完整的無限制的轉儲，所以你很容易的通過考試，不管你是通過你的產品合格證或是其他當今流行的身份驗證，完美的展現Fast2test SAP的C-SEC-2405考試培訓資料的長處，這不僅僅是依靠，也是指導，這其實是最好的，你可以使用Fast2test SAP的C-SEC-2405考試 培訓資料裏的問題和答案通過考試，獲得SAP的C-SEC-2405考試認證。

最新的 SAP Certified Associate C-SEC-2405 免費考試真題 (Q69-Q74):

問題 #69

Which of the following allow you to control the assignment of table authorization groups? Note: There are 2 correct answers to this question.

- A. V_DDAT_54
- B. PRGN_CUST

- C. V_BRG_54
- D. SSM_CUST

答案： B,C

問題 #70

Which of the following services does the Identity Authentication Service provide? Note: There are 2 correct answers to this question.

- A. Authentication
- B. Policy refinement
- C. Central User Repository
- D. Single Sign-On

答案： A,D

解題說明：

* Context: Identity Authentication Service (IAS) supports secure user authentication and enables Single Sign-On (SSO) across systems.

* Solution Descriptions:

* Authentication: Verifies user credentials and identity.

* Single Sign-On (SSO): Allows seamless login across SAP and third-party systems without requiring multiple authentications.

SAP Security References:

* SAP Identity Authentication Service (IAS) Guide

* SAP SSO Configuration Documentation

問題 #71

Which user types can log on to the SAP S/4HANA system in interactive mode? Note: There are 2 correct answers to this question.

- A. Service User
- B. Communication User
- C. System User
- D. Dialog User

答案： B,D

問題 #72

In the SAP BTP Cockpit, at which level is Trust Configuration available? Note: There are 2 correct answers to this question.

- A. Subaccount
- B. Global Account
- C. Directory
- D. Organization

答案： A,B

解題說明：

In the SAP Business Technology Platform (BTP) Cockpit, Trust Configuration is available at both the Global Account and Subaccount levels. At the Global Account level, trust configurations define the identity provider (IdP) settings that apply across all subaccounts within the account, enabling centralized management of authentication for the entire BTP environment. This allows administrators to establish a default IdP or configure custom IdPs for consistent user authentication. At the Subaccount level, trust configurations provide flexibility to override or customize the IdP settings specific to individual subaccounts, accommodating unique requirements for different applications or services. This dual-level approach ensures that organizations can balance global standardization with localized control. The Directory and Organization levels are not used for trust configurations in SAP BTP, as these are not part of the platform's security configuration hierarchy, making options C and D incorrect.

問題 #73

What happens to data within SAP Enterprise Threat Detection during the aggregation process? Note: There are 3 correct answers to this question.

- A. It is prioritized.
- B. It is pseudonymized.
- C. It is enriched.
- D. It is categorized.
- E. It is normalized.

答案： B,C,E

解題說明：

During the aggregation process in SAP Enterprise Threat Detection, data undergoes several transformations to enhance security analysis. It is pseudonymized, replacing sensitive identifiers (e.g., user IDs) with pseudonyms to protect privacy while maintaining data utility for threat detection. Data is normalized, converting heterogeneous data formats from various sources into a standardized structure, ensuring consistency for analysis across systems. Additionally, data is enriched by adding contextual information, such as system metadata or threat intelligence, to improve the accuracy of threat identification. These processes enable SAP Enterprise Threat Detection to efficiently analyze large volumes of data while safeguarding sensitive information. Prioritization is not part of aggregation, as it relates to post-analysis actions, and categorization occurs during analysis, not aggregation. By pseudonymizing, normalizing, and enriching data, SAP Enterprise Threat Detection ensures robust threat detection capabilities, supporting real-time monitoring and compliance with data protection regulations in SAP environments.

問題 #74

.....

選擇我們Fast2test就是選擇成功！Fast2test為你提供的SAP C-SEC-2405 認證考試的練習題和答案能使你順利通過考試。SAP C-SEC-2405 認證考試的考試之前的模擬考試時很有必要的，也是很有效的。如果你選擇了Fast2test，你可以100%通過考試。
