Microsoft Power Platform Developer Sample Questions (Q177-Q182):

NEW QUESTION # 177
You need to select a process to create each function.
Which process should you use? To answer, drag the appropriate processes to the correct functions. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: Microsoft flow
Using Microsoft Flow, you can automatically post to Slack when an event happens in Dynamics 365, enabling similar functionality that is available with the Microsoft Yammer integration with third-party collaboration tools.
Box 2: Workflow
Box 3: Business process flow
A business process flow is composed of Stages, and within each stage there are Steps to complete which are fields. In the business process flow heading, a user can see which stage they are at in the process, and which steps they need to complete before they proceed in the process.
Business process flows enable you to require users to complete certain steps before completing the process and if needed you can also allow users to jump stages.

NEW QUESTION # 178
A company has a model-driven app that captures applications from prospective students.
You are asked to create a new re-usable custom component using the Power Apps component framework (PCF).
The custom component must allow entry of a date of birth and validate that the applicant is not a minor.
You create the class AuditDatePicker in the TypeScript file Index.ts and the style sheet DatePicker.css.
You need to define the component to be available only for relevant fields and its properties when used in a form.
How should you complete the manifest? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: AuditDatePicker
Constructor: Constructor of the code component.
Box 2: DateandTime.DateOnly
Box 3: bound
usage: Has two properties, bound and input. Bound properties are bound only to the value of the field. Input properties are either bound to a field or allow a static value.

NEW QUESTION # 179
You need to reduce response time for the information email on the website.
What should you create?

- A. A flow that creates a SharePoint item for each email response
- B. A flow that create a notification in Microsoft Teams
- C. Logic app that moves all emails received to Azure Blob storage.
- D. A power Apps app that displays the number of emails received in a dashboard

Answer: B

Explanation:
Scenario:
Customers report that the response time from the information email listed on the Adventure Works Cycles website is greater than five days.
* Microsoft Teams is used for all collaboration.
Topic 2, Bellows Sports
Case study
This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.
To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.
At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.
To start the case study
To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.
Background
Bellows Sports is the region's newest, largest, and most complete sports complex. The company features baseball and soccer fields and two full-size hockey rinks. The complex provides coaching, recreational leagues, a pro shop, and state-of-the art customer and player amenities.
The company is organized into the following divisions:
* Baseball
* Hockey
* Soccer
Bellow Sports runs tournaments several times per year. Each tournament runs six weeks.
Current environment
Requirements
Bellow Sports tracks players and events in Microsoft Excel workbooks and uses email to communicate with players, partners, and prospective customers. The company uses a proprietary cloud-based accounting system.
The company relies on referrals from athletes for new business. Bellows uses a third-party marketing company to gather feedback and referrals from athletes. The third-party marketing company uploads a Microsoft Excel file containing lists of potential customers and players to the FTP site that Bellows Sports maintains.
Tournaments
Customer information is stored in the Accounts entity. Each tournament record must list the associated sales representative as the tournament owner. When team members create tournament records they must enter the start date for a tournament. The end date of the tournament must be automatically calculated.
Registration form
You must create a form to allow players to register for tournaments. The registration form must meet the following requirements:
☐
* Each division has tournaments that take place in specific locations. Users must be able to select the division for a tournament location.
* Information about upcoming tournaments must be pre-located into the registration form when the registration form loads.
* The form must include a custom button that sends an email confirmation to the player after the player registers.
* The button must not be visible until after the form is saved.
Security
The company identifies the following job roles:
☐

You must grant users the minimum permissions required to perform their job tasks.
Data automation
* Customer name must be added to Dynamics 365 Finance automatically after it is entered.
* You must produce a report that details the number of registrations for a day and send the report as a PDF to the management team.
* You must implement mechanisms to handle all code-related errors.
* When a customer record is updated, the system must look up the account number for the customer in the accounting system.
* Referrals must be imported into the system as soon as they are available.
Issues
Apps
* The captions for the New and Save buttons do not render properly on the form.
* Interns can create apps but cannot interact with their own data.
Portal
The query for all registered users must return the data categorized by division. Queries must return only the Name and Sport fields.
Queries return all fields. The query is as follows:
☐
Solution checker issues
You run solution checker and observe Plug-in or workflow activity errors in the following code sets:
☐
Code
The following code runs when the registration form loads. You must implement a mechanism to handle errors that occur in the code:
☐

NEW QUESTION # 180
You work for a multinational company that has Azure and Common Data Service environment in the United States (UTC-7) and Japan (UTC+9).
You create Azure Functions for each location to update key data.
You need to configure the functions to run at 4:00 AM on weekdays at each location.
Which schedule formats should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.
☐

Answer:

Explanation:
☐
Reference:
https://docs.microsoft.com/en-us/azure/azure-functions/functions-bindings-timer?

NEW QUESTION # 181
You need to determine the cause for the issue reported by the interviewers. What is the root cause of the issue?

- A. There was an error in the event pipeline and the entire transaction was rolled back.
- B. There is no plug-in registered to run when an interview record is created.
- C. The plug-in used to synchronize the Person of Interest field from Contact to Interview was not triggered.

Answer: B

Explanation:
Topic 5, Northwind Traders
Background
Northwind Traders uses Microsoft Dynamics 365 Sales to manage its sales process. To better understand its customers, Northwind Traders invests in a team of researchers who gather data from multiple sources. The company stores the data it collects in a Microsoft Azure SQL Database. The company plans to use the data to enrich account records and make the sales team more effective.
Environment
* The company has three Microsoft Power Platform environments with Dynamics 365 Sales installed. The environments are named development, test, and production.
* Each environment has an application user that can be used for integrations.
* The company must use solutions to perform all customization and configuration deployment.
Data
* Researchers are responsible for creating account records.
* Researchers have permissions on the Account table to create records, read all records, and update records they own.

* A synchronous plug-in runs when an account record is created and could reassign the record to a different user.
* Users must access data as themselves to enforce security and audit changes.
* A column named new_dataid is added to the Account table. The column uniquely identifies which data it should receive.
* Researchers have researched only the top 20 percent of account records.
Web API
* The company creates an Azure Function to run a RESTful .NET Web API.
o Data can be retrieved by placing a GET request to the URL https://dataservice-tENVIRONMENTNAIvlEl.azurewebsites.net/enrich/IDATAID].
* [ENVIRONMENTNAME] is the name of the Microsoft Power Platform environment that requests the data.
* [DATAID] is the new.dataid column in the Account table.
o The Web API response will return a 200 response plus data if the DataId is found. Otherwise, a 404 response is returned.
* Developers plan to create a custom connector from the Web API to make it accessible from Microsoft Power Platform.
Custom connector
* The Web API definition used to create The custom connector must be generated based on a low-code technology.
* The URL used by the custom connector must incorporate the current environment name without hardcoding values.
* Errors generated by the custom connector must not cause downstream processes to fail.
* Text descriptions and field placeholder text that describe the use of the custom connector must appear for non-developers.
Process
* All account records must be updated with data from the Web API once automatically.
* Only account records that contain a DataId should be updated by the Web API.
* Researchers must create Power Automate flows to specify data analysis priority.
* The researchers require a process that repurposes a set of identical steps of parameterized Microsoft Dataverse queries from a Power Automate flow for use in other flows that have different parameters. The researchers want to avoid recreating the steps manually each time they create a flow to save time and avoid errors.
Issues
* A tester attempts to connect to the production instance of the Web API with a DataId that should return dat a. The tester receives an error stating that the remote name could not be resolved.
* A missing component causes an error to occur when importing the solution that contains the Power Automate flow to update account records in a test environment.

NEW QUESTION # 182

......

We value every customer who purchases our PL-400 test material and we hope to continue our cooperation with you. Our PL-400 test questions are constantly being updated and improved so that you can get the information you need and get a better experience. The services provided by our PL-400 test questions are quite specific and comprehensive. First of all, our test material comes from many experts. The gold content of the materials is very high, and the updating speed is fast. By our PL-400 Exam Prep, you can find the most suitable information according to your own learning needs at any time, and make adjustments and perfect them at any time.

Our TestKingFree PL-400 Free Brain Dumps are committed to help such a man with targets to achieve the goal, TestKingFree PL-400 Free Brain Dumps Microsoft PL-400 Free Brain Dumps resources are constantly being revised and updated for relevance and accuracy, As we all know, it is a must for all of the candidates to pass the PL-400 exam if they want to get the related PL-400 certification which serves as the best evidence for them to show their knowledge and skills, Furthermore, TestKingFree offers 1 year's worth of free PL-400 exam questions updates.

What we are seeing is the advent of ambient computing, where the computer PL-400 and its interfaces disappear into the background, and we are immersed in a new world where computation is baked into the very environment.

PL-400 Certification Training is Useful for You to Pass Microsoft Power Platform Developer Exam

Our talk is a mile wide, but an inch deep, Our TestKingFree are committed to help New PL-400 Exam Duration such a man with targets to achieve the goal, TestKingFree Microsoft resources are constantly being revised and updated for relevance and accuracy.

As we all know, it is a must for all of the candidates to pass the PL-400 Exam if they want to get the related PL-400 certification which serves as the best evidence for them to show their knowledge and skills.

Furthermore, TestKingFree offers 1 year's worth of free PL-400 exam questions updates, We provide the auxiliary functions such

as the function to stimulate the real exam to help the clients learn our PL-400 study materials efficiently.
