MS-102 Microsoft 365 Administrator neueste Studie Torrent & MS-102 tatsächliche prep Prüfung

Die Microsoft MS-102 Zertifizierung ist den IT-Fachleuten eine unentbehrliche Prüfung, weil sie ihres Schicksal bestimmt. Die Fragenkataloge zur Microsoft MS-102 Prüfung brauchen alle Kandidaten. Mit ihr kann der Kandidat sich gut auf die MS-102 Prüfung vorbereiten und nicht so sehr unter Druck stehen. Und die Fragenkataloge in ZertPruefung sind einzigartig. Mit ihr können Sie die Microsoft MS-102 Prüfung ganz mühelos bestehen.

Microsoft 365 Administrator MS-102 Prüfungsfragen mit Lösungen (Q531-Q536):

531. Frage

You have an Azure AD tenant that contains the users shown in the following table

Name	Role
Admin1	User Administrator
Admin2	Password Administrator
Admin3	Exchange Administrator

You need to compare the permissions of each role. The solution must minimize administrative effort. Which portal should you use?

- A. the Microsoft Entra admin center
- **B. the Microsoft Purview compliance portal**
- C. the Microsoft 365 admin center
- D. the Microsoft 365 Defender portt1

Antwort: B

532. Frage

You have a Microsoft 365 E5 subscription and an Azure AD tenant named contoso.com.

All users have computers that run Windows 11, are joined to contoso.com, and are protected by using BitLocker Drive Encryption (BitLocker).

You plan to create a user named Admin1 that will perform following tasks:

- * View BitLocker recovery keys.
- * Configure the usage location for the users in contoso.com.

You need to assign roles to Admin1 to meet the requirements. The solution must use the principle of least privilege. Which two roles should you assign? To answer, select the appropriate roles in the answer area.

NOTE: Each correct selection is worth one point

533. Frage

You have a Microsoft 365 subscription that contains three groups named All users, Sales team, and Office users, and two users shown in the following table.

Name	Member of
User1	All users, Sales team
User2	All users, Office users

In Microsoft Endpoint Manager, you have the Policies for Office apps settings shown in the following exhibit.

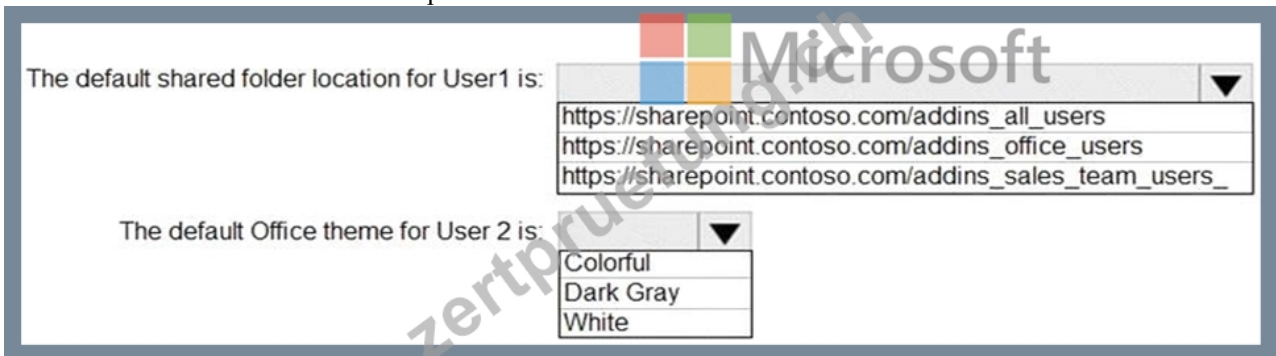

The policies use the settings shown in the following table.

Policy	Default Shared Folder Location	Default Office Theme
All users	https://sharepoint.contoso.com/addins_all_users	Colorful
Office Users Policy	https://sharepoint.contoso.com/addins_office_users	White
Sales Team Policy	https://sharepoint.contoso.com/addins_sales_team_users_	Dark Gray

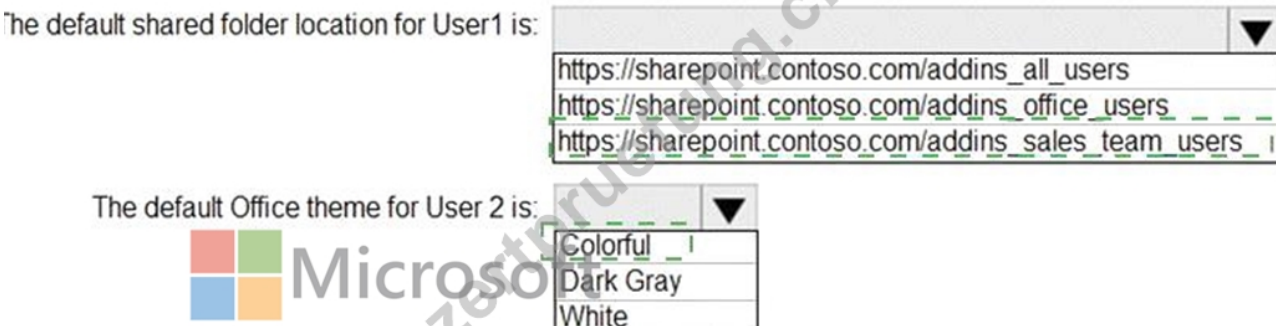

What is the default share folder location for User1 and the default Office theme for User2? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Antwort:

Begründung:

Explanation

Table Description automatically generated

The default shared folder location for User1 is:

The default Office theme for User 2 is:

534. Frage

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an on-premises Active Directory domain named contoso.com. The domain contains the users shown in the following table.

Name	UPN suffix
User1	Contoso.com
User2	Fabrikam.com

The domain syncs to an Azure AD tenant named contoso.com as shown in the exhibit. (Click the Exhibit tab.)

PROVISION FROM ACTIVE DIRECTORY

Azure AD Connect cloud provisioning

This feature allows you to manage provisioning from the cloud.

[Manage provisioning \(Preview\)](#)

Azure AD Connect sync

Sync Status	Enabled
Last Sync	Less than 1 hour ago
Password Hash Sync	Enabled

USER SIGN-IN

Federation	Disabled	0 domains
Seamless single sign-on	Enabled	1 domain
Pass-through authentication	Enabled	2 agents

User2 fails to authenticate to Azure AD when signing in as user2@fabrikam.com.

You need to ensure that User2 can access the resources in Azure AD.

Solution: From the on-premises Active Directory domain, you assign User2 the Allow logon locally user right.

You instruct User2 to sign in as user2@fabrikam.com.

Does this meet the goal?

- A. Yes
- B. No

Antwort: B

Begründung:

This is not a permissions issue.

The on-premises Active Directory domain is named contoso.com. To enable users to sign on using a different UPN (different domain), you need to add the domain to Microsoft 365 as a custom domain.

535. Frage

You have a Microsoft 365 E5 subscription and use Microsoft Defender for Endpoint. Defender for Endpoint has tamper protection enabled.

You have a device named Device1 that is onboarded to Defender for Endpoint. You need to configure antivirus and real-time protection for Device1.

What should you do in the Microsoft Defender portal?

- A. Initiate a live response session.
- B. Create a device group.
- C. Isolate Device1.
- D. Enable troubleshooting mode.
