UiAAAv1 Reliable Test Practice – The Latest Mock Exam for UiPath UiAAAv1: UiPath Agentic Automation Associate

After clients pay successfully for our UiPath Agentic Automation Associate guide torrent, they will receive our mails sent by our system in 5-10 minutes. Then they can click the mail and log in to use our software to learn immediately. For that time is extremely important for the learners, everybody hope that they can get the efficient learning. So clients can use our UiAAAv1 test torrent immediately is the great merit of our product. We have set strict computer procedure to protect the client's privacy about purchasing UiAAAv1 Study Tool and there is no one which can see the privacy information through online or other illegal channels except us. We have set the rigorous interception procedure to protect others from stealing the client's personal privacy information.

UiPath Agentic Automation Associate Sample Questions (Q54-Q59):

NEW QUESTION # 54

A Citrix Administrator is looking to provide apps and desktops to users. Project requirements dictate that management and maintenance should be minimized for the administrator, while still maintain control of the Virtual Delivery Agent (VDA machines). (Choose three.)

- A. Google Cloud Platform
- B. Microsoft Azure
- C. XenServer
- D. Amazon Web Services
- E. Microsoft HyperV

- F. Nutanix Acropolis

Answer: A,B,D

Explanation:

Using public cloud platforms such as AWS, GCP, or Azure with Citrix Cloud services minimizes infrastructure management and maintenance for the administrator, while still providing control over the VDA machines. The cloud provider handles most of the underlying infrastructure, reducing administrative overhead.

NEW QUESTION # 55

Which of the following is NOT a feature of Citrix StoreFront?

- A. Store Favorites (Subscriptions)
- B. Workspace Control
- C. Auto Client Reconnect
- D. Auto-Launch Desktop

Answer: C

Explanation:

Auto Client Reconnect is a feature of the Citrix client (Citrix Workspace app), not StoreFront.

StoreFront provides features such as auto-launch desktop, workspace control, and favorites (subscriptions) for resource access and management.

NEW QUESTION # 56

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a number of network print servers being used for all users. Currently, the print servers use native Windows drivers. No client printers are being used. New company guidelines require a reduction in the number of native drivers being used within the Site infrastructure. Which step can the administrator take to meet the new company guidelines?

- A. Install the Universal Print Server on all print servers in the Site and update the Universal printer driver usage policy setting.
- B. Enable the Citrix Universal Print Driver (EMF) driver and leave the default Universal printer driver usage policy setting.
- C. Install the Universal Print Server on all print servers in the Site and leave the default Universal printer driver usage policy setting.
- D. Configure the Citrix Universal Generic Printer and update the Auto-create generic universal printer policy setting.

Answer: A

Explanation:

By installing the Citrix Universal Print Server and configuring the Universal printer driver usage policy, print servers can use the Citrix Universal Print Driver instead of multiple native Windows drivers. This reduces the number of drivers in the environment while ensuring centralized network printing remains functional.

NEW QUESTION # 57

A Citrix Administrator needs to create custom Filters within Citrix Director to better monitor the infrastructure.

Which three values can the administrator choose to create the custom filters? (Choose three.)

- A. Users
- B. Sessions
- C. Machines
- D. Desktops
- E. Connections

Answer: A,B,C

Explanation:

In Citrix Director, administrators can create custom filters based on Users, Machines, and Sessions. These filters allow targeted monitoring and troubleshooting of specific areas within the Citrix environment.

NEW QUESTION # 58

A Delivery Group has been created to publish APP_A, APP_B, and APP_C to an AD Group called "HR." There are 10 users in the AD group (HR1-HR10). It was found that a specific user, HR10, should not have access APP_A. What must be done to make sure the HR group can access the applications, but HR10 does not have access to APP_A?

- A. Remove APP_A from the Delivery Group
- B. Limit Visibility on APP_A to HR10
- C. Remove HR10 from the Delivery Group
- D. Limit Visibility on APP_A to HR1-HR9

Answer: D

Explanation:

Application visibility controls in Citrix Studio allow administrators to restrict which users or groups can see and launch specific applications. By limiting APP_A's visibility to HR1-HR9, all HR users except HR10 retain access, ensuring the Delivery Group setup remains intact while excluding only the specified user.

NEW QUESTION # 59

.....

Individuals who work with UiPath affiliations contribute the greater part of their energy working in their work spaces straightforwardly following accomplishing UiPath Agentic Automation Associate certification. They don't get a lot of opportunity to spend on different exercises and regarding the UiPath UiAAAv1 Dumps, they need assistance to scrutinize accessible.
