- C. They are primarily focused on human resources management.
- D. They automate non-critical business functions without supporting overall ERP transformation.

**Answer: A,B**

The earlier BTM tools such as SAP Signavio, SAP LeanIX, and WalkMe are applied, the faster organizations can identify inefficiencies and define transformation scope, which increases long-term value generation.

"The earlier SAP BTM tools are introduced, the more transformation value can be realized through early visibility, stakeholder alignment, and optimized process design." Cost Efficiency through Faster Insights (Answer B):

SAP BTM solutions provide data-driven visibility into as-is processes and dependencies, enabling companies to reduce transformation costs by addressing inefficiencies early.

"SAP BTM enables customers to accelerate decision-making and reduce transformation cost and effort through real-time operational insights." Incorrect Options:
