Salesforce Certified Experience Cloud Consultant Sample Questions (Q156-

Q161):

NEW QUESTION # 156

Cloud Kicks (CK) is planning to build a social intranet site as well as an HR help site for its employees using Experience Cloud. Most employees either work in sales or service and currently use Salesforce. Which user license should be recommended for CK's employees to access Experience Cloud sites?

- A. Salesforce Authenticated Site
- B. Platform Portal
- C. Salesforce Unlimited
- D. Customer Community

Answer: C

Explanation:

To access Experience Cloud sites, CK's employees should use the Salesforce Unlimited user license. This license allows employees to access Salesforce and Experience Cloud sites with the same login and credentials.

It also provides unlimited custom objects, tabs, and apps, as well as enhanced storage and support. The Salesforce Unlimited user license is the most comprehensive and flexible license for Salesforce users.

NEW QUESTION # 157

Cloud Kicks has recently rolled out a new Experience Cloud site for its customers. The site has been activated and the contacts have been enabled as customer users. However, none of the users received their login credentials in an email. What caused this issue?

- A. The sender's email address was changed and not verified.
- B. The welcome emails were not enabled for the site.
- C. The sender's email address was changed while it was pending verification.
- D. The roles were not enabled for the users.

Answer: A

Explanation:

One possible cause of this issue is that the sender's email address was changed and not verified. The sender's email address is the email address that appears as the sender of the welcome emails to the customer users. If the sender's email address is changed, it needs to be verified by clicking on a link in a verification email. If the verification is not completed, the welcome emails will not be sent.

NEW QUESTION # 158

universal Containers UC maintains multiple customer-facing sites, but only one profile for all customer users.

How can a customer user access more than one site?

Which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- A. Select a permission set for a given site.
- B. Create a permission set.
- C. Select the profile for a given site.
- D. Edit the applicable user profile.

Answer: A,B

Explanation:

To grant access to each customer to only one site, UC should create a permission set and select a permission set for a given site. A permission set is a collection of settings and permissions that give users access to various tools and functions. UC can create a permission set for each site that specifies the site access and the object permissions for the customer users. UC can then select a permission set for a given site in the Experience Builder, which will assign the permission set to all new and existing users of that site.

NEW QUESTION # 159

Universal Containers (UC) maintains multiple customer experiences, but only one profile for all customer users. No customer has access to more than one experience.

Which two steps should the UC admin take to grant access to each customer? Choose 2 answers

- A. Select the profile for a given experience.
- B. Select a permission set for a given experience.
- C. Create a permission set.
- D. Edit the applicable user profile.

Answer: B,C

Explanation:

To grant access to each customer, the UC admin should select a permission set and a profile for a given experience. A permission set is a collection of settings and permissions that give users access to various tools and functions in Experience Cloud. A profile is a collection of settings and permissions that determine what users can see and do in Experience Cloud. By selecting a permission set and a profile for each experience, the UC admin can control the access level of each customer user.

NEW QUESTION # 160

Universal Containers is looking to onboard three new partners to the community.

* Each partner have a branded experience containing their colors and logo.

* Gold and silver partners should have access to the Leads inbox component, but Bronze partners should not.

* Bronze partners should not have access to the Leads tab.

How should an administrator solve for these requirements?

- A. Create branding sets, audience targeting and a custom Navigation menu component.
- B. Create branding sets, audience targeting, and navigation menu targeting.
- C. Create a separate community for each partner with audience targeting.
- D. Create branding sets, a separate page variation for each partner, and a custom Navigation Menu component.

Answer: B

Explanation:

To solve these requirements, the administrator should create branding sets, audience targeting, and navigation menu targeting. Branding sets are collections of branding elements, such as colors, fonts, images, and logos, that you can apply to your Experience Cloud site. Audience targeting is a feature that allows you to display pages and components to certain users based on their assigned audience. Navigation menu targeting is a feature that allows you to display different navigation menu items to different users based on their assigned audience. By using these features, the administrator can create different branded experiences for each partner, control the access to the Leads inbox component and the Leads tab, and customize the navigation menu for each partner.

NEW QUESTION # 161

.....
