NEW QUESTION # 55

Scenario: A Citrix Administrator previously configured a Citrix Virtual Desktops Site to use evaluation licenses. The administrator then installed valid advanced licenses on the Citrix License Server and confirmed that licenses show correctly in the licensing console. However, a user reports an issue about logging on to the published desktop. The user receives an error message stating that the evaluation license is about to expire. What should the administrator do to fix this issue?

- A. Restart the License service.
- B. Remove the evaluation license.
- C. Change the product edition in Citrix Studio.
- D. Verify the host name entry in the license file.

Answer: C
