# VMware vSphere Foundation 9.0 Administrator valid test questions & 2V0-16.25 pdf vce & 2V0-16.25 torrent dumps

In today's era, knowledge is becoming more and more important, and talents are becoming increasingly saturated. In such a tough situation, how can we highlight our advantages? It may be a good way to get the test 2V0-16.25 certification. In fact, we always will unconsciously score of high and low to measure a person's level of strength, believe that we have experienced as a child by elders inquire achievement feeling, now, we still need to face the fact. Our society needs all kinds of comprehensive talents, the 2V0-16.25 Latest Dumps can give you what you want, but not just some boring book knowledge, but flexible use of combination with the social practice. Therefore, it is necessary for us to pass all kinds of qualification examinations, the 2V0-16.25 study practice question can bring you high quality learning platform.

2V0-16.25 certification has great effect in this field and may affect your career even future. 2V0-16.25 real questions files are professional and high passing rate so that users can pass the exam at the first attempt. High quality and pass rate make us famous and growing faster and faster. Many candidates compliment that 2V0-16.25 Study Guide materials are best assistant and useful for qualification exams, they have no need to purchase other training courses or books to study, and only by practicing our 2V0-16.25 VCP-VVF Admin exam braindumps several times before exam, they can pass exam in short time easily.

Dumps 2V0-16.25 Discount & Reliable 2V0-16.25 Exam Camp

Our 2V0-16.25 study materials have a high quality which is mainly reflected in the pass rate. Our product can promise a higher pass rate than other study materials. 99% people who have used our 2V0-16.25 study materials passed their exam and got their certificate successfully, it is no doubt that it means our 2V0-16.25 study materials have a 99% pass rate. So our product will be a very good choice for you. If you are anxious about whether you can pass your exam and get the certificate, we think you need to buy our 2V0-16.25 Study Materials as your study tool, our product will lend you a good helping hand. If you are willing to take our 2V0-16.25 study materials into more consideration, it must be very easy for you to pass your exam in a short time.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q61-Q66):

NEW QUESTION # 61
An administrator is tasked with creating a custom VMware Cloud Foundation (VCF) Operations Web Certificate.
What are three requirements to which the certificate must conform to be used with VCF Operations? (Choose three.)

- A. The certificate file must include the server certificate, a private key, and all issuing certificates.
- B. In the certificate file, all certificates and the private key must be in PEM format.
- C. In the certificate file, the server certificate must be first in the order of certificates.

- D. The VCF Operations certificate cannot use the Subject Alternative Name (SAN) extension.
- E. In the certificate file, all certificates and the private key must be in PFX format.
- F. In the certificate file, the server certificate must be last in the order of certificates.

Answer: A,B,C

Explanation:
VCF Operations requires that custom SSL certificates meet these requirements:
* Certificates and private key must be in PEM format. (A)
* The server certificate must be listed first in the file. (D)
* The file must include the server certificate, private key, and full certificate chain (issuing/intermediate /root CA). (E)
Why others are wrong:
* B. Server certificate last# Incorrect, it must be first.
* C. Cannot use SAN extension# Incorrect, SAN is supported and recommended.
* F. PFX format# Not supported for VCF Operations.

VMware Cloud Foundation 9.0.2 -SSL Certificate Requirements for VCF Operations VMware Docs: Replacing vRealize Operations Certificates

NEW QUESTION # 62
An administrator is informed that a digital certificate used by vSphere has been revoked by the issuing Certificate Authority (CA) before the scheduled expiration date. The administrator checks the Certificate Revocation List (CRL) in VMware Cloud Foundation (VCF) Operations but the CRL tab is not activated.
What must the administrator do to view the CRL?

- A. Set the Threshold For Adapters Certificate Expiration Alert to 6 under Global Settings.
- B. Select the External Event Based Active Symptoms under Global Settings.
- C. The CRL tab is not available when VCF Operations is licensed under vSphere Foundation.
- D. Select the Activate Standard Certificate Validation under Global Settings.

Answer: D

Explanation:
In VCF Operations, the Certificate Revocation List (CRL) tab is visible only when Standard Certificate Validation is activated in Global Settings.
* Once enabled, administrators can view the CRL tab and monitor revoked certificates.
Other options:
* A. External Event Based Active Symptoms# Related to alerting, not CRL.
* C. Threshold for Expiration Alert# Configures warnings, not CRL visibility.
* D. Not available under vSphere Foundation license# Incorrect; CRL is available if validation is enabled.

VMware Cloud Foundation 9.0 -Certificate Validation Settings in Operations VMware Docs: Managing Certificates in vROps

NEW QUESTION # 63
The operations team is tasked with the preparation of a weekly health status overview of a VMware vSphere Foundation (VVF) environment to senior management with the following requirements:
* It should be sent every Monday morning.
* It must include KPIs related to cluster health, storage usage, and virtual machine (VM) growth trends.
* Operational overhead should be minimized.
Which two actions must the administrator perform to satisfy these requirements? (Choose two.)

- A. Export the desired metrics from the Metrics Explorer to CSV.
- B. Export the built-in Cluster Summary report via FTP.
- C. Create a custom View with the KPIs and add it to a new Report Template.
- D. Create a custom dashboard with the required KPIs.
- E. Configure the scheduler to send the report via e-mail weekly.

Answer: C,E

Explanation:
VMware vSphere Foundation (VVF) integrates VMware Aria Operations (vRealize Operations) for intelligent operations management, enabling automated reporting to minimize operational overhead. To meet the requirements for a weekly health status overview including cluster health, storage usage, and VM growth trends, an administrator must first create a custom View in Aria Operations to define the specific KPIs (e.g., cluster availability, datastore capacity, and VM count trends over time). This View is then added to a new Report Template, which compiles the data into a structured report format like PDF or CSV. Next, the scheduler in Aria Operations is configured to generate and email the report every Monday morning, ensuring delivery without manual intervention. This approach leverages built-in automation for recurring tasks, reducing effort compared to ad-hoc exports or manual configurations.

Other options do not fully satisfy the requirements: Option A creates a dashboard for interactive visualization but not a scheduled report; Option C uses a built-in report with limited customization and no direct FTP export or scheduling; Option E involves manual CSV exports from Metrics Explorer, increasing overhead and lacking automation.

NEW QUESTION # 64
Which scenario demonstrates the benefit of server consolidation using VMware server virtualization?

- A. Automating the deployment of application clusters.
- B. Performing load balancing between web servers.
- C. Providing protection against ransomware attacks.
- D. Running multiple independent machines on a single physical host.

Answer: D

Explanation:
Thecore benefit of server consolidation using VMware server virtualizationis the ability to runmultiple independent virtual machines (VMs)on asingle physical host.
* This increases hardware utilization, reduces physical server sprawl, and cuts operational costs.
* A. Load balancing# Achieved through features like DRS, not basic server consolidation.
* C. Ransomware protection# Achieved through security features and backups, not consolidation.
* D. Automating application clusters# A benefit of orchestration tools, not consolidation.

VMware Docs: VMware Virtualization Fundamentals

NEW QUESTION # 65
An administrator is tasked with deploying a VMware Cloud Foundation (VCF) Operations for Logs appliance into vSphere Foundation.
After downloading the .ova, which component does the administrator use to deploy the file?

- A. vSphere Client
- B. VCF Fleet Management
- C. VCF Automation
- D. VCF Operations

Answer: A

Explanation:
To deploy theVCF Operations for Logs OVA appliance:
* ThevSphere Clientis used to deploy.ovaand.ovftemplates directly into a vCenter environment.
* After deployment, the appliance can be configured and integrated with VCF.
Other options:
* A. VCF Fleet Management# Used for multi-instance management, not OVA deployment.
* C. VCF Automation# Provides automation workflows, not appliance deployment.
* D. VCF Operations# Monitoring and analytics platform, not used for OVA installs.
