In which SAP Activate methodology phase do consultants configure business processes based on the information gathered in the Fit-to-Standard workshops?

- **A. Realize**
- B. Explore
- C. Deploy
- D. Prepare

Answer: A

Explanation:

In the SAP Activate methodology, the Realize phase is where consultants configure business processes based on the information gathered during the Fit-to-Standard workshops in the Explore phase. This phase focuses on implementing the solution, including configuring the system, testing, and validating business processes.

* Realize (Option C): During the Realize phase, consultants use the insights from Fit-to-Standard workshops to configure the system according to the customer's business requirements. This includes setting up master data, organizational structures, and process-specific configurations. The SAP Activate Methodology Guide confirms this as the phase where configuration occurs.

* A. Prepare: The Prepare phase focuses on project planning, team setup, and initial scoping. Configuration activities are not part of this phase.

* B. Explore: The Explore phase involves conducting Fit-to-Standard workshops to understand business requirements but does not include system configuration.
