API-936 (Refractory Personnel) Certification Exam is a globally recognized certification program that is designed to test and certify individuals with knowledge and expertise in the field of refractory materials. The API-936 certification is a valuable credential for professionals working in the petroleum, petrochemical, and power generation industries, where refractory materials play a critical role in the design and maintenance of high-temperature equipment.

API-936 certification is highly valued in the industry and is a testament to the candidate's expertise in the field of refractory installation and inspection. The API-936 Certification is not only a mark of excellence but also a way to demonstrate one's commitment to safety, quality, and professionalism in the workplace. Many companies in the oil and gas industry require API-936 certified personnel to ensure proper installation and maintenance of refractory materials, making it a highly sought-after certification for professionals in the field.
