# Get Help From Top Notch PDFDumps 1Z0-771 Exam Practice Questions

P.S. Free 2025 Oracle 1Z0-771 dumps are available on Google Drive shared by PDFDumps: https://drive.google.com/open?id=1xh9xYPYPQOGxkTBcls8XfoqEITKsUEFO

PDFDumps believes in customer satisfaction and strives hard to make the entire Oracle 1Z0-771 exam preparation process simple, smart, and successful. To achieve this objective the PDFDumps is offering the top-rated and real 1Z0-771 exam questions in three different 1Z0-771 Exam study material formats. These 1Z0-771 exam questions formats are Oracle 1Z0-771 PDF dumps files, desktop practice test software, and web-based practice test software.

## Oracle 1Z0-771 Exam Syllabus Topics:

| Topic | Details |
|---|---|
| Topic 1 | • Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management. |
| Topic 2 | • Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction. |

| | |
|---|---|
| Topic 3 | • Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions. |
| Topic 4 | • Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development. |
| Topic 5 | • Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities. |
| Topic 6 | • Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development. |
| Topic 7 | • Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX. |
| Topic 8 | • Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments. |
| Topic 9 | • Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management. |
| Topic 10 | • Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences. |
| Topic 11 | • Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications. |
| Topic 12 | • Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures. |
| Topic 13 | • Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity. |
| Topic 14 | • Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications. |
| Topic 15 | • Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features. |
| Topic 16 | • Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions. |

| Topic 17 | • Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications. |
|---|---|
| Topic 18 | • Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments. |

# High Hit Rate 1Z0-771 Exam Dumps Demo - Easy and Guaranteed 1Z0-771 Exam Success

After decades of hard work, our products are currently in a leading position in the same kind of education market, our 1Z0-771 learning materials, with their excellent quality and constantly improved operating system, In many areas won the unanimous endorsement of many international customers. Advanced operating systems enable users to quickly log in and use, in constant practice and theoretical research, our 1Z0-771 learning materials have come up with more efficient operating system to meet user needs, so we can assure users here , after user payment , users can perform a review of the 1Z0-771 Exam in real time , because our advanced operating system will immediately send users 1Z0-771 learning material to the email address where they are paying , this greatly facilitates the user, lets the user be able to save more study time.

# Oracle APEX Cloud Developer Professional Sample Questions (Q43-Q48):

**NEW QUESTION # 43**
An APEX e-commerce application is being used by 50 users. You have a promotional offer, and you need to send a push notification to all the subscribed users on their devices. Which step must be performed in Oracle APEX to achieve this?

- A. Enable push notifications at the application level and let APEX handle the subscription and delivery process automatically.
- B. Create a REST Data Source to send push notifications to all the subscribed users.
- C. Create a Dynamic Action of Send Push Notification type to send push notifications to all the subscribed users.
- D. Create a PL/SQL block to fetch all the subscribed users and send push notifications by using APEX_APPL_PUSH_SUBSCRIPTIONS & APEX_PWA.SEND.

**Answer: D**

Explanation:
To send push notifications to all subscribed users, you must:
Enable push notifications at the application level (a prerequisite).
Use a PL/SQL block with APEX_APPL_PUSH_SUBSCRIPTIONS to fetch subscribers and APEX_PWA.SEND to send the notifications.
Option A is incorrect as there's no "Send Push Notification" Dynamic Action type. Option B is incomplete as enabling alone doesn't send notifications. Option C is unrelated to push notifications.

**NEW QUESTION # 44**
Which two layout modes are available for Page Designer under Utilities?

- A. Single Pane
- B. Three Pane
- C. Two Pane
- D. Four Pane

**Answer: B,C**

Explanation:
Page Designer's layout modes under Utilities adjust the workspace:

A . Two Pane: Splits into two vertical sections (e.g., tree and properties), ideal for focused editing.
B . Three Pane: Adds a third section (e.g., tree, grid, properties), offering a balanced view for complex pages.
C . Four Pane: Not available; APEX limits to three for usability.
D . Single Pane: Not an option; the minimum is two panes.
Developers toggle these via the Utilities menu to optimize screen real estate based on task complexity.

## NEW QUESTION # 45
Which two actions are performed by using the Object Browser?

- A. Browse database objects of the current schema.
- B. Restore dropped database objects.
- C. Create and run SQL scripts.
- D. Create a lookup table based on a column in the current table.

### Answer: A,D

Explanation:
Object Browser in SQL Workshop is a GUI for managing schema objects:
B . Browse database objects of the current schema: Displays tables, views, procedures, etc., in a tree view, allowing inspection of definitions (e.g., columns, constraints) and data previews.
D . Create a lookup table based on a column in the current table: From a table's column (e.g., DEPTNO), you can generate a lookup table (e.g., DEPT_LOOKUP) with unique values, automating reference table creation.
A . Restore dropped objects: Not supported; this requires DBA tools (e.g., FLASHBACK TABLE).
C . Create and run SQL scripts: This is a SQL Scripts feature, not Object Browser.
Practical tip: Use "Create Lookup Table" to normalize data efficiently.

## NEW QUESTION # 46
Which component of the Push Notifications feature stores the messages that are ready to be sent?

- A. Subscription
- B. Application
- C. Queue

### Answer: C

Explanation:
Push Notifications in Oracle APEX enable real-time messaging to users' devices via Progressive Web App (PWA) capabilities. The component responsible for storing messages is:
A . Queue: The Push Notification Queue (managed internally by APEX and accessible via APIs like APEX_PWA.PUSH_QUEUE) temporarily holds messages scheduled for delivery. When a notification is created (e.g., via APEX_PWA.SEND), it's added to this queue, awaiting processing by the APEX mail system or an external push service. The queue ensures reliable delivery, even if the user is offline temporarily, as messages are dispatched once connectivity is restored.
B . Application: The application defines the PWA settings and logic but doesn't store messages; it's the container, not the storage mechanism.
C . Subscription: Represents user device registrations (stored in APEX_APPL_PUSH_SUBSCRIPTIONS), not the messages themselves. Subscriptions link devices to the app for delivery, not queuing.
Technical Insight: The queue is a database-backed structure, leveraging Oracle's job scheduling (e.g., DBMS_SCHEDULER) to process entries. For example, calling APEX_PWA.SEND(p_message => 'Promo Alert!') adds an entry to the queue, which is then pushed to subscribed devices.
Use Case: A retail app queues a "Sale starts now!" message for 1,000 users, ensuring orderly delivery without overwhelming the server.
Pitfall: If the queue isn't periodically pushed (e.g., via APEX_PWA.PUSH_QUEUE), messages may delay.

## NEW QUESTION # 47
What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. A new notification server must be created.

- B. Existing Push Subscriptions for the application will be invalidated.
- C. Push Notifications will be disabled for the application.

**Answer: B**

**NEW QUESTION # 48**

......

Now our 1Z0-771 actual test guide can make you the whole relax down, with all the troubles left behind. Our 1Z0-771 exam questions are compiled to meet all of your requirements. The comprehensive coverage would be beneficial for you to pass the exam. Only need to spend about 20-30 hours practicing our 1Z0-771 study files can you be fully prepared for the exam. With deeply understand of core knowledge 1Z0-771 actual test guide, you can overcome all the difficulties in the way. So our 1Z0-771 exam questions would be an advisable choice for you.
