Trustworthy 1z0-1057-25 Practice - Pass 1z0-1057-25 Exam

As you know that the number of the questions and answers in the real 1z0-1057-25 exam is fixed. So accordingly the information should be collected for you. Our 1z0-1057-25 study materials have done the right thing for you. However, we will never display all the information in order to make the content appear more. Our 1z0-1057-25 learning guide just want to give you the most important information. This is why 1z0-1057-25 actual exam allow you to take the exam in the shortest possible time.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q101-Q106):

NEW QUESTION # 101

You are set up as a Follower in Manage Tasks. Which two abilities can you accomplish? (Choose two.)

- A. View task details and the task activity stream
- B. Enter progress for tasks.
- C. Receive email notifications about changes that team members make to a task.
- D. Edit task details.

Answer: A,C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/execute-project-tasks-and-deliverables.html#OAPEM1122082> Followers are persons who aren't working on the task but have an interest in reviewing the task progress. Only the resources and other followers can add followers to a task. If a resource assigns the task to another team member, the application automatically changes the original resource to a follower.

What's the difference between my tasks and tasks that I follow?

- * You can edit task details and enter progress for your tasks on the Manage Tasks page. If a task has multiple resources, only the primary resource can edit the task.
- * When you follow a task, you can view the task details and see the task activity stream. You receive e-mail notifications of changes that team members make to the task.
- * If a resource reassigns the task to another team member, then the previous resource automatically becomes a follower.

NEW QUESTION # 102

Your organization has a requirement to create and apply a new theme for the application user interface.

Which option allows you to achieve this requirement?

- A. User Interface Text
- **B. Appearance Page**
- C. Structure Page
- D. Setup and Maintenance Work Area

Answer: B

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. Reference:

NEW QUESTION # 103

Which two statements describe how the Resource Qualification Score is calculated?

- **A. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource has the qualification that meets the specified proficiency.**
- B. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource does not have the qualification.
- **C. An individual's score is 100% if the resource request has a qualification, but no proficiency is specified, and the resource has the qualification.**
- D. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource has the qualification with a proficiency that is lower or higher than specified.

Answer: A,C

Explanation:

The Resource Qualification Score is a percentage that indicates how well an individual matches the qualifications required for a resource request. An individual's score is 100% if either of the following conditions are met:

- * The resource request has a qualification, but no proficiency is specified, and the resource has the qualification. This means that any level of proficiency is acceptable for the qualification.
- * The resource request has a qualification with a specified proficiency and the resource has the qualification that meets the specified proficiency. This means that the resource has the exact level of proficiency required for the qualification. An individual's score is not 100% if the resource request has a qualification with a specified proficiency and the resource does not have the qualification or has a different level of proficiency than required. In this case, the score is calculated based on how close the resource's proficiency is to

the required proficiency. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-resources.html#OAPFM2356001>

NEW QUESTION # 104

Your customer started operations and all projects in January 2015. They implemented Enterprise Project Structure for calculating project labor demand by using the Annual option. When they view the labor demand on 15-Dec-2015, the project hierarchy viewer shows data only for the year 2015. The client expected the demand to be shown for a year, from 15-Dec-2015 to 15-Dec-2016. Identify how the project hierarchy viewer displays labor demand information. (Choose the best answer.)

- A. The current period start date is used for calculating labor demand for the current year.
- B. The date entered by a user as a parameter when running the Update EPS job was set to 01-Jan-2015, and hence the calculations show results for the year 2015.
- **C. The current date is used for calculating labor demand for the current year.**
- D. The project start date of Jan-2015 was used for calculating labor demand, and hence it calculated the demand for the year 2015.

Answer: C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/analyze-project-management-performance.html#OAPEM1313471> Topic - Project Labor Demand: How It's Calculated Settings That Affect Project Labor Demand Project application administrators must do the following to set up how project labor demand is calculated:

* Organize projects into hierarchical groups on the Manage Enterprise Project Structure page.

* Change the quarterly FTE hours for the organization on the Define Project Management Implementation Options page, if different from 520 hours.

Note: You can choose to view labor demand annually instead of quarterly. The Project Hierarchy Viewer uses the current date to determine which year or quarter to display.

NEW QUESTION # 105

Identify the three contract attributes from Project Performance Data that are used in Project Performance dashboard regions. (Choose three.)

- **A. Contract Line**
- B. Contract Header
- C. Expenditure Type
- **D. Task**
- **E. Projects**

Answer: A,D,E

Explanation:
