Our 300-415 learning prep is compiled by our first-rate expert team and linked closely with the real exam.

Cisco Implementing Cisco SD-WAN Solutions Sample Questions (Q127-Q132):

NEW QUESTION # 127

Drag and drop the configuration command snippets from the bottom onto the boxes for the branches control policy configuration in the outward direction to establish a strict hub-and-spoke topology for VPN2. Not all options are used. Some options are used more

than once.

Answer:

Explanation:

Explanation:

Sequence 10 (Allow Hub Routes): This sequence matches routes originating from the hub_sites within VPN2. We use action accept so that these hub routes are advertised to the branch sites.

Sequence 20 (Deny Other Branch Routes): This sequence matches any remaining routes in VPN2. Since the hub routes were already accepted in Sequence 10, the only routes left in VPN2 are those from other branches. By using action reject, we prevent branches from learning about each other directly, forcing all traffic to the hub.

Default Action: The default-action accept at the bottom ensures that routes for other VPNs (not specified in this policy) are still advertised normally and not dropped.

NEW QUESTION # 128

An organization wants to use the cisco SD-WAN regionalized service-chaining feature to optimize cost and user experience with application in the network, which allows branch routers to analyze and steer traffic toward the required network function. Which feature meets this requirement?

- A. VNF Service Chaning
- **B. Cloud onRamp for Colocation**
- C. Cloud onRamp for IaaS
- D. Cloud Services Platform

Answer: B

Explanation:

With the Cisco SD-WAN Cloud onRamp for Colocation solution built specifically for colocation facilities, the solution routes the traffic to the best-permissible path from branches and remote workers to where all applications are hosted" Reference:

https://www.cisco.com/c/en/us/td/docs/routers/sdwan-cloud-onramp-for-colocation/solution-user-guide/cisco-sdwan-cloud-onramp-colocation-solution-guide-19_1/about-cisco-sd-wan-Cloud-OnRamp-for-Colocation-solution.html
