Microsoft Power Platform Solution Architect certification is ideal for those who want to enhance their career opportunities and increase their earning potential.

## Microsoft Power Platform Solution Architect Sample Questions (Q195- Q200):

### NEW QUESTION # 195

A company offers continuing education courses for medical professionals. Each time a course is offered, the company tracks that the session has taken place in an Excel workbook.

The company maintains a list of required qualifications for an educator to teach a course. Educator qualifications range from languages spoken to advanced degrees.

The company needs the following custom table relationships defined:

Associate educators with a list of their professional qualifications.  
Assign a primary educator to each course that is held.  
Collect information about every course that is held.  
You need to determine the type of relationship that best fits the requirement.  
Which type of table relationship should you use? To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

**NEW QUESTION # 196**

You are working on a project with a logistics company. The company plans to digitally transform its business by using Microsoft Power Platform.

You lead several requirements workshops with stakeholders.

The workshops result in the need for the following solutions:

- \* Allow users to place orders, track order status, and receive notifications about order shipments.
- \* Provide availability 24 hours a day, excluding scheduled maintenance windows.
- \* Support real-time tracking of inventory levels.

You need to categorize each of the captured requirements.

Which category should you use for each requirement? To answer, move the appropriate categories to the correct requirements. You may use each category once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

**NEW QUESTION # 197**

You are conducting performance testing for a Microsoft Power Platform solution. The solution uses Power Automate cloud flows to query and synchronize data across 10 different tables based on various criteria. You make the following observations:

- \* Internet speed during testing is fast (500 Mbps).
- \* There are 50 Dynamics real-time workflows in use.
- \* There are 63 Dynamics asynchronous workflows in use.
- \* There are 76 Power Automate cloud flows in use.

You identify the following performance issues;

You need to recommend steps to resolve the performance issues.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation

Box 1: Reduce usage of near real-time workflows

A real-time workflow can be converted to asynchronous workflow and back to real-time.

Box 2: Convert all Dynamics 365 workflows to Power Automate cloud flows.

Workflows are limited to Microsoft Dynamics 365/CRM application only.

Power Automate can span across multiple web-based services or applications at the same time.

Dynamics 365 CRM Workflows can be converted to Power Automate flows.

### NEW QUESTION # 198

Hotspot Question

A company plans to use Microsoft Power Platform.

The company needs to understand how API requests are used so that its solution can be designed within the API limits granted by Microsoft. The company requires the following information:

- How API limits are allocated
- Which Microsoft Power Platform components count toward its API limits
- Which Power Automate flow steps count toward API limits

You need to describe the API allocation for each design consideration.

Which API allocations should you identify? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### NEW QUESTION # 199

You are working on a project with a logistics company. The company plans to digitally transform its business by using Microsoft Power Platform.

You lead several requirements workshops with stakeholders.

The workshops result in the need for the following solutions:

- \* Allow users to place orders, track order status, and receive notifications about order shipments.
- \* Provide availability 24 hours a day, excluding scheduled maintenance windows.
- \* Support real-time tracking of inventory levels.

You need to categorize each of the captured requirements.

Which category should you use for each requirement? To answer, move the appropriate categories to the correct requirements. You may use each category once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
