## Mule-Dev-201 Latest Test Vce, Test Mule-Dev-201 Objectives Pdf

Before making a final purchase, PrepAwayTest customers can try the features of the Mule-Dev-201 practice material with a free demo. If a customer purchases our Mule-Dev-201 exam preparation material, we will provide them with Free Mule-Dev-201 Exam Questions updates for up to 1 year. If the Mule-Dev-201 certification test content changes after your purchase within 1 year, you

will instantly get free real questions updates.

## Salesforce Certified MuleSoft Developer Sample Questions (Q54-Q59):

### NEW QUESTION # 54

By default, what happens to a file after it is read using an FTP connector Read operation?

- A. The file is moved to a different folder
- B. The file is renamed in the same folder
- C. The file stays in the same folder unchanged
- D. The file is deleted from the folder

**Answer: C**

Explanation:

File is not updated when FTP read operations is performed.

MuleSoft Doc Ref: <https://docs.mulesoft.com/file-connector/1.3/file-read>

### NEW QUESTION # 55

Refer to the exhibit.

□ A Mule event is composed of a hierarchy of objects. Where in the hierarchy are variables stored?

- A. Mule message
- B. Mule event
- C. Mule message payload
- D. Mule message attributes

**Answer: B**

Explanation:

Variables are stored under Mule event. Please refer to below image for the hierarchy .

Graphical user interface Description automatically generated

□

### NEW QUESTION # 56

A

web client submits a request to <http://localhost:8081/books/0471767840>. The value "0471767840" is captured by a Set Variable transformer to a variable named bookISBN.

What is the DataWeave expression to access bookISBN later in the flow?

- A. attributes.bookISBN
- B. flowVars.bookISBN
- C. vars. bookISBN
- D. bookISBN

**Answer: C**

### NEW QUESTION # 57

An app team is developing a mobile banking app. It took them two months to create their own APIs to access transaction information from a central database. The app team later found out that another team had already built an API that accesses the transaction information they need.

According to MuleSoft, what organization structure could have saved the app team two months of development time?

- A. Central API Review Board
- B. Center of Excellence
- C. MuleSoft Support Center
- D. Center for Enablement

**Answer: D**

Explanation:

Reference: <https://blogs.mulesoft.com/biz/connectivity/what-is-a-center-for-enablement-c4e/> Center for Enablement is correct answer. It is a cross-functional team typically staffed with members from central IT, line-of-business departments, and digital innovation teams charged with productizing, publishing, and harvesting reusable assets and best practices. In this case, app team would have checked first with Center for Enablement before developing their own API's. Hence could have avoided re-work

#### NEW QUESTION # 58

A mule project contains MySQL database dependency. The project is exported from Anypoint Studio so that it can be deployed to Cloudhub. What export options need to be selected to create the smallest deployable archive that will successfully deploy to Cloudhub?

- **A. Select only below option 2) Include project module and dependencies**
- B. No need to select any of the below options 1) Attach project sources 2) Include project module and dependencies
- C. Select only below option 1) Attach project sources
- D. Select both the options 1) Attach project sources 2) Include project module and dependencies

**Answer: A**

Explanation:

You can choose Attach Project Sources to include metadata that Studio requires to reimport the deployable file as an open Mule project into your workspace. You must keep the Attach Project Sources option selected to be able to import the packaged JAR file back into a Studio workspace. But requirement here is to create smallest deployable archive that will successfully deploy to Cloudhub. Hence we can ignore this option.

We need to select Include project module and dependencies

As actual modules and external dependencies required to run the Mule application in a Mule runtime engine Hence correct answer is Select only below option 2) Include project module and dependencies MuleSoft Doc Ref

<https://docs.mulesoft.com/studio/7.5/import-export-packages#exporting-a-studio-project-to-a-deployable-mule-application>

#### NEW QUESTION # 59

.....
