ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which demand category would a demand manager select, if they need to create an enhancement?

- A. Strategic
- B. Defect
- **C. Operational**
- D. Change

Answer: C

NEW QUESTION # 41

What is the default table that stores the idea categories that a user can select from when submitting an idea?

- A. im_idea_core
- B. im_module
- C. dmn_demand
- **D. im_category**

Answer: D

Explanation:

According to the Category Configuration document, the default table that stores the idea categories that a user can select from when submitting an idea is `im_category`. This table contains the predefined categories for ideas, such as Business Process, Customer Service, or IT Service. The other options are not correct, as they are not the tables that store the idea categories. The `dmn_demand` table stores the demand records that are created from the approved ideas. The `im_module` table stores the idea modules that are used to group ideas by different criteria. The `im_idea_core` table stores the core fields of the idea records.

NEW QUESTION # 42

Which of these items should implementers create/configure first during an SPM implementation?

- **A. Business units**
- B. Dashboards

- C. Lenses
- D. Demand management

Answer: A

NEW QUESTION # 43

The combination of the user and the assigned portfolio must be unique when adding a user to which registry?

- A. UX Page Registry.
- B. Application Registry.
- C. Event Registry.
- **D. Stakeholder Registry.**

Answer: D

Explanation:

Explanation

According to the Stakeholder Registry document, the combination of the user and the assigned portfolio must be unique when adding a user to the stakeholder registry. The stakeholder registry is a table that stores information about the stakeholders of a portfolio. The other options are not correct, as they are not registries that require a unique combination of user and portfolio. The application registry is a table that stores information about the applications in the system. The event registry is a table that stores information about the events that trigger notifications. The UX page registry is a table that stores information about the UX pages that are available for portfolios.

NEW QUESTION # 44

A program is a container for the following except for:

- **A. Portfolios**
- B. Program tasks
- C. Issues
- D. Cost plans

Answer: A

Explanation:

According to the ServiceNow documentation¹, a program is a container for the following:

Program tasks: Tasks that define the scope and deliverables of the program².

Issues: Problems that affect the program or its outcome³.

Cost plans: Plans that estimate the cost of the program and its components⁴.

A portfolio is not a part of a program, but rather a collection of programs and projects that are aligned with a strategic goal or objective.
